Generally Fair, Continued Warm Tonight, Saturday.

FIFTY-SIXTH YEAR No. 220 NEW CASTLE, PA., FRIDAY, JULY 10, 1936. —28 PAGES THREE CENTS A COPY

U. S. CONTINUES TO SIZZLE

Alice Longworth Says

(Special To The News)

CINCINNATI, July 10. — The Omaha World Herald, turning from a half century's militant support of the Democratic party to fight for the candidacy of Governor Landon,

is one of the severest of the many blows the New Deal has felt since its most stalwart friends began going over to the opposition. It was from the editorial page of the World Herald that William Jennings Bryan went to the Chicago convention to make his famous Cross of Gold speech. In a recent editorial the Omaha paper deplores Mr. Roosevelt's war upon the existing economic order. It makes the emphatic declaration: "This newspaper believes the American system is not so desperately sick that it is necessary to replace it with an order alien to our traditions."

As the hot weeks go by there will be a great rallying of those who still believe that the American system is better than any other that has yet been devised.

ALICE LONGWORTH.

PA NEWC OBSERVES

Quintuplets arrived in New Castle a few days ago, Young Pa Newc was informed today by George Joseph of 1217½ Moravia street. His pet terrier gave birth to five attractive pups, one being minus its tail.

* * *

To settle an argument as to how warm it was Thursday afternoon several South Side residents pulled out a thermometer and set it out in the sun. It was not long until the mercury went up to the 120 degree mark. Fearing that the sun would break the "weather teller" which was expensive, the man removed it from the sun at the 120 degree mark.

* * *

Although the thermometer was hovering way over the 100 degree mark and most everyone was trying to find a cool nook, Young Pa Newc saw an unusual number of "niblick manipulators" whiling away the hours on the golf courses yesterday. They didn't seem to mind the heat, so they told the writer. But, of course, their clothes sorta spoke for themselves.

* * *

It's too hot even to go to the hospital these days. Only one admission was registered this morning at the Jameson Memorial hospital.

* * *

It would be a wise idea not to pat your friends on the back these days. Many an innocent shirt covers a severe case of sunburn, and your friends won't thank you a bit for any backslapping. It's a nasty habit, anyhow.

* * *

New Castle folks had hopes of seeing the torrid heat wave broken yesterday afternoon about 4 oclock when a dense cloud bank gathered in the sky, but it soon passed away, leaving it as hot as ever.

* * *

Pa Newc has frequently heard the expression about it being so hot or so cold that it broke the thermometer. In The News building yesterday it actually happened. One thermometer actually broke and let the liquid out of the tube. Prior to the bursting operation it had recorded 118 degrees.

* * *

Even the marriage license business has been affected by the heat. At noon today the docket was barren as a South Dakota prairie. No licenses have been issued since yesterday morning. Prothonotary John

Daily Weather Report

U. S. weather statistics for the 24-hour period ending at 9 o'clock this morning follow:

Maximum temperature, 100.
Minimum temperature, 63.
No precipitation.
River stage, 4.4 feet.

Statistics for the same date a year ago, follow:

Maximum temperature, 86.
Minimum temperature, 64.
No precipitation.

President Plans Vacation Cruise

By GEORGE DURNO
International News Service Staff Correspondent

WASHINGTON, July 10.—Satisfied that by a series of bold political moves he has materially enhanced Democratic prospects at the polls this November, President Roosevelt today looked forward to a vacation cruise up the Maine coast and into Nova Scotian waters at the helm of a 53-foot auxiliary schooner.

Tonight, after another full day at his desk holding last-minute conferences on drought relief and a multitude of federal problems, the president leaves for his final "breathing spell" before plunging vigorously into his re-election campaign. He will pause tomorrow in New York City to dedicate the $64,000,000 Triborough bridge and then spend two days at Hyde Park before journeying up the Maine coast where the two-masted "Sewanna" is waiting him.

Moves Made

In the fast-moving two weeks since he accepted renomination at Franklin Field, Philadelphia, Mr. Roosevelt has made the following contributions to furtherance of the Democratic ticket this fall:

1. Frank Murphy, high commissioner to the Philippines and former

Boy Falls Under Truck; Receives Fatal Injuries

Driver Faces Charge Of Driving While Intoxicated, Following Accident Last Evening

SAY BOYS TRIED TO HOP VEHICLE

Norman Dellelce, aged 13, of 1915 Hamilton street, was fatally injured at 8 o'clock Thursday evening when he fell under a truck driven by Amondus Krause of R. F. D. No. 1, Shenango township, at the intersection of Cascade boulevard and Francis street. He died in the New Castle hospital at 11:05 last night from a possible fracture of the skull and internal injuries.

Krause, the driver of the truck, told police and Coroner Orville Potter that the dead boy, and several companions, were trying to hop on the truck, and that the youth apparently fell under the wheels when Krause tried to chase them away. Krause claims that he did not know he had run over anyone, and did not stop after the accident.

Jolted Under Wheels.

The story of the driver was corroborated by Creda Crowthers of 341 Francis street and Alice McFarland of 1809 Hamilton street, who were eyewitnesses to the accident. They were standing in the Crowthers yard. They stated that the Dellelce boy had grabbed hold of the side of the truck and seemed to have been jolted under the wheels when Krause changed gears.

After the boy had died, Coroner Potter was notified and in company of Officers Elder, Hanna and Harper, started out to hunt for Krause. He was not at home when they got there and was found driving to his home in Shenango township later, the officers coming upon him about

(Continued on Page Two)

TWO MEN AND WAITRESS SHOT

(International News Service)

ST. LOUIS, July 10.—Spectacular gunplay in a tavern garden here early today resulted in the fatal shooting of two men and the wounding of a pretty waitress.

The two men, John Edward "Bobo" Murphy, whom officers said has a record of almost 200 arrests and five jail and prison terms, and Leo Carney, 38, a friend, fell before a fusillade of eight bullets fired by Harry Meyers, 32-year-old proprietor of the Pit Tavern.

Meyers told officers that he opened fire after the two men had created a drunken disturbance, slugged Miss Grace Fleute, 38, the waitress, and attacked him with their fists.

Heat Wave Will Continue Here

Weather Forecast Locally Is For "Continued Warm" For Saturday

TWO HEAT CASES ARE REPORTED HERE

With temperatures as high today as on Thursday, the present heat wave is booked for several days yet according to the weather man. Apparently a cool wave in the far west is shoving the heat wave ahead of it into the east and yesterday and today this district has had it right in its lap.

The highest official temperature recorded here on Thursday by the government weather man was an even 100. Unofficial temperatures registered as high as 121 in the sun and 106 in the shade.

Heat prostrations are fewer than might have been anticipated. Only two were reported early in the afternoon, one having been admitted to the New Castle hospital and one to the Ellwood City hospital.

Road workers and farmers have felt the effects of the terrific heat and mill workers have been uncomfortable. What little rain fell a week ago has been dried out and crops are feeling the rays of the sun.

In spite of the heat there is no shortage of water in New Castle. The Pymatuning Dam is now giving this district some of the water it kept from flooding the district in March. The Shenango river level is being maintained at a satisfactory height and the city water company reports normal conditions. This in spite of the millions of gallons of water that are being poured on lawns and gardens.

The probabilities are that the present heat wave will continue on through Sunday.

NOTED MOVIE DIRECTOR HURT

Alan Crosland Feared Fatally Injured In Auto Crash In California

(BULLETIN)
(International News Service)

BEVERLY HILLS, Cal., July 10.—Alan Crosland, noted motion picture director, was probably fatally injured today when his automobile, traveling at a high rate of speed, struck an obstacle near an excavation and overturned three times.

Crosland's left leg was wrapped around the steering post, his right arm was mangled and the left hand door of the car was imbedded in his skull when passersby reached the scene. Authorities said apparently no one observed the crash.

Physicians at the receiving hospital said that Crosland, who is in a coma, has virtually no chance to recover.

Twelfth Child Born In Dionne Family

By GRACE TROY
International News Service Staff Correspondent

CALLANDER, Ont., July 10.—A husky, eight-pound baby boy, 12th child born to Elzire and Oliva Dionne, served notice to the world with lusty wails today that the anxiety which attended the early existence of his famous quintuplet sisters will be entirely unnecessary in his case.

He sleeps in the farmhouse in one of the bassinettes used by the quints two years ago and his tiny pink body is clad in some of their discarded swaddling clothes. But the newcomer, a normal infant in every respect, will need none of the fancy dew-dads which surround the five wards of the king in their modern hospital across the road.

New Baby Strong.

The 27-year-old mother of a dozen children—one of whom died in infancy—was exultant over the strength and good health of her newest baby.

"A really strong and healthy baby!" she exclaimed as the newcomer loudly announced his wants. "Thank God the child cries loud!"

Though worn by the ordeal of childbirth, the mother was serene and happy, and was resting comfort-

Legislative Deadlock On State Relief Brings Exchange Of Charges

(International News Service)

HARRISBURG, July 10—The relief crisis and legislative deadlock drew another exchange of counter-accusations today from Gov. George H. Earle and Republican caucuses of the house and senate.

Opening the barrage, the senate group charged the governor with "falsifying the whole unemployment relief situation," saying:

"Not only has the governor been playing dangerous and despicable politics with the relief situation, but we frankly offer the question of whether he is not the leader of a deliberate conspiracy to wreck relief and so arouse class hatreds by false statements as to bring about widespread disorders in this commonwealth."

The governor answered that with 567,000 unemployed "crying for bread, the Republican senate caucus replies by giving them a 'statement,' a statement which is a tissue of lies, of vicious political propaganda."

To the G. O. P. charge that Earle has evaded their demand for more information on relief needs, the governor pointed out that the state relief director Karl De Schweintiz, "has been at the beck and call of

MURDERER DIES IN GAS CHAMBER

(International News Service)

FLORENCE, Ariz., July 10—Humming a rangeland ditty, Frank Rascon, 28, singing cowboy murderer, died in the gas chamber of the state penitentiary here today at 6 a. m. for the slaying a year ago of Joe Romero in a cow country feud near Wickenburg, Ariz.

Laughing up to the last minute, Rascon made good his boast that he wasn't afraid to die.

Scores of cowpuncher friends sang with him through the last hours.

Rascon, a former Houston, Tex., cowboy, maintained his innocence to the last, blaming his father, who is in Mexico, for the slaying.

Blame Heat For Dual Tragedy

(International News Service)

SANDUSKY, O., July 10.—Believed by his family to have become mentally deranged because of the heat, C. C. Lanley, 60-year-old laborer, today shot and killed his wife and then ended his own life with a bullet in the chest and one in the head.

Coroner John Yochem, returned a verdict of murder and suicide.

A six-year-old grandchild, sleeping with Mrs. Lanley when she was shot, was still asleep when police arrived. Several older children and an elderly man who roomed at the Lanley home, also slept through the shooting. Neighbors heard the shots and summoned police.

Crowd Expected At School Picnic

Lincoln-Garfield Sudents Of 1900-11 To Gather At Lakewood Sunday, July 12

MANY OUT OF TOWN GUESTS TO BE HERE

Final arrangements have been made for the annual mid-summer picnic of the Lincoln-Garfield Association which will be held Sunday July 12 at Lakewood Beach it was announced today by the president of the association Sheriff Edward D. Pritchard.

This year's picnic will be the seventh annual one. Each year has seen an increase in the attendance and Sunday should attract a crowd. Cards were sent out to members who attended Lincoln-Garfield between 1900 and 1911 and who now reside in other cities. The mid-summer picnic is an opportunity for them to return and renew friendships formed as boys and girls down at the Lincoln-Garfield school and replies indicate a large number of out of the city guests this year.

Leave At Ten.

Transportation will be furnished all those desiring it and at ten

BANK BANDITS SHOT BY POSSE

DECATUR, Ill., July 10—Authorities today sought to learn the identities of a pair of bank bandits, slain in a gun battle with a sheriff's posse last night.

Cornered in a haystack on a dairy farm five miles southeast of here, the bandits and possemen staged a spirited gun battle for fifteen minutes before the barrage of bullets from posse guns riddled the haystack and silenced the weapons of the dying robbers.

C. W. Hinds, a Decatur policeman, was shot in the jaw by a bandit bullet, but his condition was not considered serious.

DEATH RECORD

Mrs. Sarah L. Cooper, 63, 214 Pearson street.

Miss Florence Beatrice Atkinson, 32, Volant R. D. 2.

Norman Dellelce, 13, 1915 Hamilton street.

Long Range Plans For Drought Relief

By L. W. MEREDITH
International News Service Staff Correspondent

WASHINGTON, July 10.—Federal drought relief activities went into a long range program today as reports from the field said the effects of the drought will be felt severely this fall and winter in several areas.

Awaiting further reports, officials postponed until Monday a general drought conference of all agencies taking part in the relief program.

Chief Developments

Chief of the developments were:

1. Increase in WPA emergency jobs to 75,000 by addition of 20,000 in Georgia, Alabama, Tennessee, Kentucky, Virginia, North and South Carolina to the 55,000 being given jobs in the Dakotas, Montana, Wyoming and Minnesota.

2. Granting of a one-year moratorium by the resettlement administration to between 25,000 and 35,000 farm families in the northwest drought area on rehabilitation loans, estimated to total $7,000,000.

3. Warning by the bureau of agricultural economics that the drought may reduce the livestock population by several million head.

Increase Cash Income

4. A $250,000,000 increase in cash

(Continued On Page Two)

Will Provide Jobs For 75,000

W.P.A. Program For Aid In Drought Affected Districts Made Known

MORE COUNTIES ARE ADDED TO DISTRICT

By L. W. MEREDITH
International News Service Staff Correspondent

WASHINGTON, July 10.—Announcing that a total of 75,000 WPA jobs were to be made available to drought sufferers—55,000 in the five northwestern states, and 20,000 in the south and southwest—President Roosevelt disclosed today that 16,500 persons already actually were at work.

Nine additional counties in Minnesota are to be declared a part of the drought area, the president said, making a total of 277 counties in the badly-stricken northwest that will receive immediate aid.

A number of last minute reports from various government agencies were on the president's desk and he referred to them frequently as he outlined the extent of the government's effort to aid the drought sufferers.

The children's bureau, he told his press conference, is sending agents into burned-out areas to ascertain what special requirements mothers and children may have in the way of relief.

Watch Water Supply.

The water supply is being watched closely everywhere and the government is prepared to move families from localities where it dries up.

The public health service is keeping a close check on possible contamination of water and spread of disease.

The Resettlement Administration is making loans for the movement of small herds of cattle. Officials are meeting today to work out a system of aid for the larger cattle men.

Unfavorable reports are coming in

Saturday To Be Wedding Day For Mrs. Owen

(BULLETIN)
(International News Service)

PORT WASHINGTON, N. Y. July 10,—Mrs. Ruth Bryan Owen, minister to Denmark, will be married to Captain Boerge Rohde, member of the Guard of King Christian of Denmark, at St. James Episcopal church in Hyde Park, N. Y., at 5 p. m. Saturday, it was announced here today. President and Mrs. Franklin D. Roosevelt will attend the ceremony, it was said.

Formal announcement of the time and place of the welding was made by a butler at the home of Mr. and Mrs. Robert Lehman here. Mrs. Lehman is a daughter of Mrs. Owen.

Highest Mark Was 115 Degrees

(International News Service)

CHICAGO, July 10.—The staggering death toll from the broiling heat gripping most of the nation was expected to pass the 250 mark today as weather forecasters predicted another day of record-breaking temperatures.

A desert thermometer near Riverside, Cal., recorded the highest temperature yesterday—115 degrees. The mercury stopped at 113 degrees at Aberdeen, So. Dak., while at Valley City, No. Dak., it achieved 109 degrees. Readings of 100-plus were general from the Atlantic coast to the Rockies. High temperatures reported yesterday included: Bowling Green, O., 108; Phillipsburg, N. J. 107; Jamestown, No. Dak., and Huron, So. Dak., 106; Washington, D. C., Evansville, Ind., Indianapolis, Peoria, Bismarck, Phoenix, and Toronto, 104; New York, Philadelphia, Pittsburgh, Milwaukee, Des Moins, Cincinnati, Detroit, North Platte, Neb., St. Louis, Kansas City, and Davenport, Ia., 102; Omaha, 100; Miles City, Duluth, and Madison, Wis., 98.

Little Relief Yet In Sight

Weatherman Says Pennsylvanians Face Week End Of Torrid Heat

TEMPERATURE MAY HIT NEW RECORD

(International News Service)

A full week-end of the scorching, stifling heat wave that has invaded Pennsylvania, bringing a total of nine deaths and scores of prostrations as well as intense suffering and threats to crops was promised the harrassed population by the weather man today.

"Generally fair and continued warm tonight and Saturday and probably Sunday," was the doleful forecast of W. S. Brotzman, the Pittsburgh meteorologist. Elsewhere it was the same.

May Break Records

Temperatures continued to soar all over the state. The all-time heat record of 103.2 degrees will probably be broken today in Pittsburgh, Brotzman said. The high yesterda, was 103.

In Harrisburg, the government forecaster listed as an "extreme possibility" a temperature of 106 that would shatter the all-time record there. Yesterday's high was 103.3.

Eastern Pennsylvania reported six

(Continued on Page Two)

A FEW HOT TIPS

First prize for peculiar heat casualties stays right here in the plant of The News. The heat was so intense in the stereotype room Thursday afternoon that the mercury blew right through the tube. And this is no fairy story.

There was many a lad came close to disaster Thursday. "It is hot enough" isn't a question on days like yesterday and today. It's an asininity.

Bill Tyrell, the traffic officer on Washington street says the only way t keep cool is to think cool. Just imagine you're back in March or February and the trick is done.

In the business of trying to keep cool don't forget that your dog is just as warm and needs plenty of water. Dogs don't go mad as a general rule, they get thirsty and you may save a mad dog scare by seeing that Fido gets plenty to drink.

The roof sleepers increased in number on Neshannock avenue last night. Out on the edges of the city a lot of porch sleeping was done.

One WPA project in district 14 is an air marking project, that is painting identifying signs on roofs. Several of the workers came close to heat prostration but didn't knock off.

One East Sider had a warm job Thursday night. Took off a room of wall paper with a steamer.

At the New Wilmington pool you could hardly find the water for bathers. And the same thing was true at other pools.

Nation's Death Toll From Heat Wave Passes 250

Forest Fire Danger Is Added To Drought Area Menaces In Northwest

CALIFORNIA HAS HOTTEST WEATHER

Grasshoppers And Insects Continue Havoc In Western Farm Districts

(By International News Service)

The four scourages of a heat, insects and forest fires—continued their march of death and destruction today, leaving in their wake at least 250 persons dead; millions of acres of shriveled crops and 600,000 farmers confronted with stark financial ruin.

The feeble rains that have come to some sections of the stricken areas have been utterly unable to check the ravages of the blistering weather and the crawling hordes of grasshoppers and insects, crawling by the billion in the fields of the mid and northwest, and even eating up the fence posts.

Forest Fire Menace

The forest fire menace—a creature of the drought—began to assume more serious proportions today, with reports that the fires that have been blazing since Sunday in South Dakota, Wyoming and Montana were spreading rapidly out of control, adding to the losses and misery of the three states.

In many of the drought states, there was an attitude on the part of the farmers of abject despair. They felt this way:

"Even if rain comes and does help the growing crops, the grasshoppers and bugs will get them before the summer ends."

Rain was forecast today for North Dakota, Montana and Minnesota.

Heavy Toll In East

While the drought damages grew, the heat wave piled into the east with full force and took a heavy toll of life as record temperatures were established. New York city sufford the highest temperature in its history—102.3 degrees—and nineteen deaths were reported throughout the state. Early this morning, the

International News Service Staff Correspondent

TOPEKA, Kans., July 10.—Governor Alfred M. Landon, Republican nominee for president, announced today he would confer here next Wednesday with his running-mate, Col. Frank Knox, of Chicago.

It will mark the second meeting of

(Continued On Page Two)

Arthur Mometer

Keep cool my friend, don't think of the heat, as you work at your desk or you walk on the street, don't think of the fact that you're wet to your feet, keep cool, my friend, keep cool. Keep cool my friend, when your face is hot, and you think that you've picked out the warmest spot, just think of the weather we might have got, and keep cool, my friend keep cool. Keep cool my friend, think of other days, that were cooler far than this present blaze, for after all this is just a phase, so keep cool my friend keep cool. Keep cool my friend make an arctic date, the weather is only at ninety eight, but its steaming hot I am here to state, but keep cool my friend, keep cool.

BANDIT PAYS WITH LIFE

Iron Nerve Is Seen By Guards

John Collins, 26, Is Executed At Sing Sing For Murder In Hold-Up

BRIDE SOBS AT PRISON GATES

(International News Service)

OSSINING, N. J., July 10.—Guards at Sing Sing prison and veteran witnesses of executions marveled today at the iron nerve of John Collins, hard-boiled, 26-year-old bandit who met death in the electric chair last night with a smile on his lips while his prison bride, holding their four-months-old son in her arms, sobbed her heart out at the prison gates.

When a guard ripped his pants leg in preparation for the execution, Collins smiled jokingly:

"Now I look like a cowboy."

As the guards strapped him in the chair, he said briskly:

"Let's go."

Collins was pronounced dead at 11:04 p. m.

The slick-haired bandit was convicted of the murder of Charles Theuner, aged civic worker, in the hold-up of a Winfield, L. I., beer garden on June 22, 1935. The day he was convicted, he and 18-year-old Helen Downey were married in the courtroom, to give their unborn child a name.

PRESIDENT PLANS VACATION CRUISE

TWELFTH CHILD BORN IN DIONNE FAMILY

(Continued From Page One)

ably, and the baby was said to be "in excellent condition."

Papa Oliva Dionne, who upon the arrival of the quintuplets, said "I'm the kind of a man they ought to put in jail," was frankly elated over the latest addition to his brood.

"Elzire was glad that this baby came alone," he said. "Elzire's babies should come one by one. Her normal life has been so upset and changed by the birth of the quintuplets. She hated all the excitement and publicity, though she loved the babies so much. And she has had many bitter moments since."

Mme. Dionne went through her travail bravely, refusing the chloroform offered her to ease the pain.

"Elzire believes a child is the gift of God," Oliva explained. "She believes that God intends her to endure the pains, and she lets God's will be done. She is a wonderful woman."

"But the Ontario government does not give her much credit for anything," he added bitterly.

The baby, who arrived at 3:25 a. m. yesterday, is the fourth son of the Dionnes. To the delight of his mother, he looks like the quintuplets—the same dark eyes, the same dark hair. He is the heaviest baby Mme. Dionne ever has had.

LONG RANGE PLANS FOR DROUGHT RELIEF

(Continued From Page One)

farm income, although thousands of farmers will suffer loss of income because of the drought.

5. Changes in rules and practices of soil conservation program for north central states to be promulgated to give farmers suffering loss from drought opportunity to receive benefit payments without full compliance with program.

Full effect of the drought, said Victor Christgau, State WPA administrator for Minnesota, will not be held in that state until fall or winter.

"Then it will be necessary," Christgau wrote Administrator Harry L. Hopkins, "to buy feed, and funds from the sale of crops will not be available. The reservoir of feed is sufficient for present needs, but not for fall and winter."

Similarly, resettlement administration officials said farmers receiving rehabilitation loans in the drought areas will not be able to repay them, because there will be no funds coming in from sale of crops, hence the year's moratorium.

The WPA work relief program in the northwestern drought area has been designed chiefly to prevent a recurrence of drought crisis in feed and water supplies. Dams are being constructed, artificial lakes built, and wells drilled to provide water for livestock and for irrigation.

CROWD EXPECTED AT SCHOOL PICNIC

(Continued From Page One)

o'clock in the morning busses will leave the Lincoln-Garfield school on Long avenue. A stop will be made at the Croton school to pick up any who find it more convenient to board the bus there.

A picnic dinner will be served at noon and the program of the day will be in charge of the general chairman, John G. Moore. Races of all kinds are scheduled water sports, sports for young and old. The big feature of the day however will be the reunion of old class mates. Many of them have children now attending Lincoln-Garfield, a few of them have grand children there.

At seven o'clock a number of gifts will be given away to the fortunate and listed in the prizes for articles of value. The weather indications are for a hot day and plenty of fun.

Started seven years ago the association has developed until today it numbers hundreds. Two parties a year are given. In the winter there is a stag smoker held by the men. The mid-summer picnic is for the families and the day given over to enjoyment.

a half mile from his residence. He gave evidence of having been drinking heavily and was taken before a physician, who pronounced him under the influence of intoxicating liquor.

Driver Is Arrested.

He was placed in jail, and an information charging him with driving while intoxicated was made against him by County Detective A. Sharp Leslie before Alderman L. C. Mantz. Krause waived a hearing and was bound over to court with bail at $500.

Orlando Columbo, aged 10; Steve Shabala, aged 12, and Saad Spott, aged 14, all residing in the same community, who were with Dellelce, stated that they were going swimming in Big run, and said they had tried to hop the truck, but that Krause tried to drive them away.

The dead boy lived with his stepfather, William Evangeliste, his father, James Dellelce, and mother both being dead. He leaves, in addition to his step-father, three brothers, Mike, Peter and Vic Dellelce; two step-brothers, Mike and Peter Evangeliste, and two step-sisters, Theresa and Lula Evangeliste.

Funeral mass will be celebrated at 9 o'clock Monday morning in St. Vitus church and interment will be made in the church cemetery.

LEGISLATIVE RELIEF DEADLOCK BRINGS CHARGES EXCHANGE

(Continued From Page One)

the Republican Senators day and night."

Equally bitter, the house caucus statement accussed the governor of failing to seek federal cooperation to trim his relief estimate by $15,000,000 until "forced" to do so, and of failing to cut operating expenses of state government or to present adequate relief data.

Assembly Adjourns

Harrisburg, July 10—The legislative mill that for five days has run in neutral, choking off the flow of relief funds to a half million needy Pennsylvanians, broke down under pressure today.

Unable to agree on a solution of the problem— either for emergency needs or for a long-range program —the general assembly adjourned shortly before four o'clock this morning to meet later in the day after the most hectic meeting of the current special session.

With indications another form of "harmony" committee may be called on in an effort to settle the relief tangle, the seriousness of the situation was pointed out by Senator John J. McClure, Republican leader from Delaware county, when he instructed the Delaware county commissioners to take immediate action in "adequately providing for those in need in order that distress and suffering may be ended."

McClure's action, which may be followed by other legislative leaders if the relief crisis is not settled today, came as the legislature adjourned in confusion after failing to provide any relief for the state's needy, who have been without state aid since Tuesday.

Almost as dramatic as that in the relief situation affecting 567,000 jobless throughout the state, the breakdown in the senate brought journed in confusion after failing on the chamber floor.

Cries of "roll call" greeted an attempt by Republican Senator Clarence Buckman, Bucks, to move adjournment this morning at 2 a. m.

End In Confusion

Rather than place themselves on record as walking away from the deadlock for the night, the senators ended deliberations in a confusion that lasted for two hours.

Hot words flew between groups as spectators and members milled about endeavoring to wrest a compromise on the adjournment issue. Both sides stood firm, refusing to again bring up a motion to recess or adjourn.

Utter collapse of relief negotiations followed in the wake of the defeat of two major tax bills in the senate. The measures, providing a total estimated revenue of $23,075,000 according to department of revenue figures, called for an increase in the corporate net income tax and in the personal property tax.

Defeat of the two bills came after the senate had passed emergency transfers to provide $3,000,000 for immediate relief needs only to have the transfers tabled in the house as administration Democrats stood solid on their pledge to make no further transfers until the entire Republican tax program had been introduced and passed.

With Democrats and many Republicans voting down the tax bills in the senate, charges that the G. O. P. block was "insincere" were hurled by Senator Edward J. Thompson D., Centre.

"The Republicans voted for these bills on second reading and now they turn them down," Thompson asserted. "They are not sincere to the people of the state. The relief situation is now in the lap of the Republican senate more than ever. It is up to them to present a program, whether it be one for $35,000,000 for $41,000,000 or anything else."

Differ On Responsibility

While the senate and house dallied in deadlock, Gov. George H. Earle, in Philadelphia, was opening his state stumping tour for support of his $55,000,000 relief appropriation with an attack on Senator Max Aron, Philadelphia Republican and other G. O. P. solons. His speech followed issuance of a double-barreled blast by Republican caucus groups in the house and senate against administration tactics in the relief crisis.

As Senator McClure attempted to return the blame for the situation to the Demacrats, pointing out "not one Democrat" voted for the tax bills, a move by Senator Anthony Cavalcante, D., Fayette to have the senate finance committee, of which McClure is chairman, discharged from consideration of the proposed chain store tax bill, was defeated.

The move by the Fayette Democrat fell only two votes short of a constitutional majority as four Republicans lined up with Democrats in demanding the administration-sponsored tax measures, estimated to raise $3,000,000, be brought to the floor of the senate.

When all efforts to untie the relief knot were unavailing, Mayor S. Davis Wilson, of Philadelphia, attending the all-night session, proposed the naming of a "harmony" committee composed of 13 Republican and Democratic legislators to determine an amount for relief not above $55,000,000 nor below $35,000,000. The plan was regarded with favor in many quarters, and may be considered at today's sessions.

The house, after refusing to go along with the Republican senators program for an emergency transfer of funds, passed finally the Andrews bill providing for the sale of $65,000,000 worth of tax anticipation notes, when the measures are passed, to raise funds for relief purposes.

LITTLE RELIEF YET IN SIGHT

(Continued From Page One)

heat deaths and the western section three.

In Philadelphia, it was confidently expected the all-time high of 106 set in August of 1918, would be equalled. Yesterday's high was 103, although an unofficial 128 in the sun was reported.

Bathing beaches and swimming pools were crowded throughout the day and into the early morning as city officials allowed them to remain open. Scores slept in the parks and even on rooftops as well as fire escapes.

Hens Die From Heat

On the farm of Paul Seebacher, Ross township, near Pittsburgh, 150 hens died from the heat Seebacher squirted water on the survivors to keep them alive.

An egg was fried on a Pittsburgh street to settle a debate. Public Safety Director Thomas Dunn said he'd look the other way if any of the perspiring Pittsburgh policemen sneaked off into air-cooled stores or theaters for a few minutes' respite.

Street showers were in operation in Pittsburgh, Philadelphia and many other communities. Pittsburgh kiddies were disappointed because there was no appropriation to keep the city pools open after 9 o'clock at night.

Pennsylvania glowed like the filament of an electric bulb as the sun shown through cloudless skies. If there were clouds they served only to focus the blistering rays on the sweltering population below.

"Explosions" of highways were frequently reported throughout the state as the hot rays expanded the asphalt and concrete. Many a thermometer burst in the sun.

KNOX TO CONFER WITH LANDON

(Continued From Page One)

the two Republican candidates, Knox having been a visitor here with a delegation of the Republican national committee just after the Cleveland convention.

Landon explained he desired to discuss the campaign with Knox.

"We will talk over our campaign plans," he said.

The governor also arranged a conference here tomorrow with James G. Rogers, former assistant secretary of state and now on the Yale Law School faculty. It was believed the governor would discuss international affairs with the former state department official.

THREE FARM HOMES BURN

(International News Service)

LAPEER, Mich., July 10.—A raging brush fire six miles north of here today destroyed three farm homes and threatened many others over a wide area. Lansing WPA officials answered appeals for help by rushing several hundred workers from adjoining counties to aid volunteer fire fighters who at noon were waging a losing fight against the spreading flames.

If your davenport squeaks, try oiling castors and padding the cups they stand in with cardboard.

Deaths of the Day

Mrs. Moosman Funeral Time

The body of Mrs. Caroline Moosman, who died Thursday at the home of her daughter, Mrs. George Sherry, Aliquippa, has been brought to the home of her son, Leo Moosman, 232 North Mercer street, this city, and will be there until 9:30 a. m. Monday.

The requiem mass will be celebrated in St. Joseph's church Monday morning at 10 o'clock and interment will be made in the church cemetery.

Mrs. Moosman, widow of Anthony Moosman, was 82 years old and had been a resident of New Castle for 50 years. She was a faithful member and one of the founders of the local St. Joseph's parish. She was a member of the Sacred Heart League, the Rosary Society and the L. C. B. A. of St. Joseph's, was very well known throughout the city and had a wide circle of friends.

Surviving are the following sons and daughters, Rev. C. F. Moosman, pastor of St. Francis parish, Homestead; Anthony Moosman, of Aliquippa; Frank Moosman, of Youngstown, O.; Joseph Moosman, of Meadville; Leo Moosman, of New Castle; Sister Luitgardis and Sister Kostka, of the Divine Providence Order, Pittsburgh, and Mrs. George Sherry, Aliquippa. There are also twelve grandchildren, one of whom, Sister M. Yvo, is with the St. Joseph Order, Erie, and one sister, Mrs. Theresa Blum, Pittsburgh.

Mrs. Gettings Funeral

On Thursday afternoon, with the Rev. C. H. Heaton, D. D., pastor of the First Baptist church, in charge, funeral services were conducted for Mrs. Sarah A. Gettings at the residence, 8 West Moody avenue.

Pallbearers were George, Edward and Floyd Critchlow, Fred Dalby, John Bowden and Edward Donley.

Interment was made in Castle View Burial Park.

Mrs. Sarah L. Cooper.

Mrs. Sarah L. Cooper, aged 63 years, widow of Charles O. Cooper, died at the home of her daughter, Mrs. A. M. Wingfield, 214 Pearson street, on Thursday afternoon at 2:30 o'clock, after a year's illness.

Mrs. Cooper was born at Fern, Pa., on September 18, 1872, daughter of Conrad and Nancy Jane Kenemuth. She lived in New Castle for the past 40 years and was a member of the Christian and Missionary Alliance church.

Surviving are two daughters, Mrs. Alfred Snyder and Mrs. A. M. Wingfield, this city; two grandchildren, Charles and Nancy Jane Snyder; two brothers, E. E. Kenemuth of Knox, Pa., and G. G. Kenemuth of Shippensville, and four sisters, Mrs. M. E. Hoover, Mrs. Mary Slick and Mrs. Fred Ament of Oil City and Mrs. Henry Lehman of New Castle.

Funeral services will be conducted Sunday at 2:30 p. m. in the home of her daughter, Mrs. Wingfield, with Rev. J. H. Boon, pastor of the Christian and Missionary Alliance church, in charge. Interment will be made in Greenwood cemetery.

Florence Beatrice Atkinson

Miss Florence Beatrice Atkinson, aged 32 years, daughter of James and Mary Williams Atkinson, passed away at her parents' home, Volant R. D. 2, near Leesburg, at 12:55 p. m., Thursday. She had been in poor health for some time.

Although born in England, November 16, 1903, she passed most of her short lifetime in the community where she died, and was a member of the Christian and Missionary Alliance church at No. 2 Mine.

Besides her parents she leaves the following sisters, Mrs. A. D. Brocklehurst, Jackson Center; Mrs. Fred King and Mrs. Florence McLaughlin, Butler; Mrs. Anthony Jones, Volant R. D.; Mrs. Darl Habbyshaw, Wampum, Mrs. Arthur Stone and Mrs. Lawrence Lightner, Mercer, and one brother, Arthur Atkinson. One sister, Mrs. Elizabeth Gray, died 13 years ago.

Funeral services will be conducted at the Christian and Missionary Alliance church at No. 2 Mine on Saturday afternoon at 2:30 o'clock, with Harry Mack of New Castle, in charge, and interment will be made in Leesburg cemetery.

W. H. Braden Funeral

Funeral services for William H. Braden, 1514 Pennsylvania avenue, were conducted at the home of his daughter, Mrs. Lena King, McClelland avenue, R. D. 2, at 2 o'clock Thursday afternoon, with the Central Christian pastor, Rev. T. B. Shearer, in charge.

Mrs. T. B. Shearer and Martha Davis sang two touching numbers during the service, "Beautiful Isle of Somewhere," and "In the Garden."

A large number of friends attended and there were many beautiful flowers.

Pallbearers were William Lewis, Andle Southern, Anthony Fair, James Wilcox, Peter Ponzi and David Phillips. Interment was made in Greenwood cemetery.

If he can feel no sympathy for the tribulations of others, it means that he always feels swell.

THREE KILLERS ARE EXECUTED

(International News Service)

HUNTSVILLE, Tex., July 10—Three convicted killers, one white man and two negroes, were executed at the state penitentiary here today within a half hour.

The three men, Grady Warren, white and Oscar and Mack Brown, negro brothers, took their deaths calmly, each thanking prison officials and guards for the treatment accorded them while being held in death row.

Jefferson County Man Is Released

Served Term At Lewisburg On Charge Of Misapplication Of Bank Funds

(International News Service)

LEWISBURG, Pa., July 10.—Leonard B. Shannon, 53-year-old banker who polled a million votes for state treasurer in 1932, was released today from the Northeastern Penitentiary here.

Father of 11 children, Shannon thus completed serving a year and nine months of a three-year sentence on a charge of embezzlement and misapplication of funds.

He was arrested in 1934 after his discharge from Misericordia hospital in Philadelphia, where he had gone a "mental and physical wreck" according to specialists.

A leading citizen of Jefferson county, Shannon was president of the Jefferson County National Bank of Brookville, Pa., and of the First National Bank of Skykesville. He was named conservator after the bank moratorium, but audits later revealed short and jumbled accounts, auditors said.

The banker pleaded guilty to two counts involving the embezzlement of $52,000 was sentenced by Federal Judge F. P. Schoonmaker in Erie, Pa.

DESSERT-BRIDGE FOR WHYLE-AWAY MEMBERS

Among the social activities of Thursday that proved especially enjoyable despite the exceedingly warm weather, was the dessert-bridge party given in the home of Mrs. David Fisher on Young street, with members of the Whyle-Away Bridge club composing the guest list.

At 1 o'clock, cooling dessert was served the group, at tables prettily appointed in tones of yellow and white. The hostess was assisted by Mrs. Joseph Campbell with the serving.

Cards followed, occupying the remainder of the social period, with Mrs. Fisher winning the top score prize and other awards went to Mrs. W. H. Jones and Mrs. J. J. Hennicheck, the latter being the galloping trophy. Mrs. H. W. Riddle of Philadelphia was a special out of town guest who shared the occasion.

The next assembly will be held at the home of Mrs. J. J. Hennicheck at her new residence in Butler, Pa., on Thursday, July 23.

Little Flower Club

Mrs. John Carrigan and Mrs. James Carrigan were jointly associated Thursday evening in entertaining the Little Flower club in the home of the former on North Mercer street.

Bingo and 500 furnished amusement, prizes for which went to Mrs. Charles McCart and Mrs. Minnie Devlin. Two out of town visitors were present Mrs. Thomas Woods, and daughter Evelyn, of Los Angeles, Cal. The next meeting will be with Mrs. Belle Murphy of Court street.

PATTERSON-MILLER ENGAGEMENT NEWS

Mr. and Mrs. R. A. Patterson, of East Brook, announce the engagement of their daughter, Ruth Charis, to Frederick David Miller, son of Mr. and Mrs. A. E. Miller, of Highland Heights.

The wedding will take place the latter part of July.

TRIP PLANNED TO ECONOMITE SITE

Members of Lawrence Chapter, Daughters of the American Revolution, will journey to Ambridge, Pa., on Saturday, July 18, to visit the Economite settlement which is located there.

Cars will leave New Castle between 1 and 2 o'clock, proceeding directly to Ambridge, where they will stop at Great House, the corner of 14th and Church streets. From there guides will take the different groups, as they arrive, through the grounds and buildings of the historic settlement which is one of the most interesting spots in this section of the state.

Mrs. C. R. Balph is arranging transportation. Any friends of Lawrence chapter members, or others interested in making the trip, will be welcomed.

HENRY KIPP IS 90 YEARS OLD TODAY

Friends of Henry Kipp, who is 90 years old today, will call at the home of his granddaughter, Mrs. Hugh Sturdy, 2206 Delaware avenue, where he resides, to offer their felicitations this evening.

DESSERT-BRIDGE CHARMING AFFAIR

Patriotic tones accentuated with red roses, shasta daisies and blue delphinium on the tables made a colorful setting for the dessert-bridge over which New Castle chapter 105 O. E. S. (Mrs. Margaret Whieldon worthy matron), presided on Wednesday afternoon, in the Cathedral.

Over 150 women were present, the card group being seated at some 30 tables, while those who preferred bingo found places at larger tables, all of them being placed in attractive groups in the west dining room downstairs.

American flags and the tri-color idea were used in other decorations, like tints prevailing in the very delicious dessert course served before the games. Winners in the various contests were: contract, Mrs. H. L. Dague; auction, Mrs. N. Brown; 500, Miss Doris Packer. At bingo, prizes were given for each round, some 25 awards being carried home by as many guests. A door prize was won by Mrs. Charles Gray.

Praise was heard for the capable committee which worked untiringly for its success; Mrs. Fern Simons, Mrs. Jennie Martin and Mrs. Euroth Headland, assisted by various other members of the chapter. The event deservedly was classed as one of the most charming parties in which 105 members and guests have ever participated.

SEWING CIRCLE HAS INFORMAL EVENING

As it was much too hot to be doing any fancywork Thursday evening, members of the 1936 Sewing Circle just sat about and talked after they assembled at the home of Mrs. Victor Colella, on Pollock avenue.

They discussed the party which will be given for the husbands on the evening of July 16, at 8 o'clock, in Orr's hall, on Grove street. They tried to play 500, but one round sufficed, and the prizes were given to Mrs. Thomas Fontana and Mrs. Anthony Peluso.

A delightful feature was a handkerchief shower honoring the birthday of Mrs. Raymond Peluso, with a chicken supper following, instead of the usual light luncheon, as the guest of honor is a close friend of the hostess. The table was pretty in pink tones, with a large bowl of gladioli in the center. Aides were Mrs. Andrew Angelo and Mrs. Anthony Colella.

On July 23, the next regular meeting will be held in the home of Mrs. Thomas Fontana on South Jefferson street.

Uniq-Clique

Mrs. Ted Stritmater received associates in the Uniq-Clique club on Thursday evening at her home on Oak street. Bridge was the pastime, awards falling to Mrs. Edith Morrissey, Mrs. Ralph White and Mrs. Walter Barber, the latter aiding with light refreshments after the games. In two weeks, there will be a similar meeting, the hostess to be decided.

MISS HELEN JAMISON NAMES WEDDING DATE

Mrs. William Gillespie of New Wilmington was a charming hostess Thursday afternoon to a group of guests from New Castle and New Wilmington at a beautifully appointed 1 o'clock luncheon, when she entertained in honor of Miss Helen Jamison, who has named August 29, as the date of her marriage to Robert Gordon.

The individual card tables were prettily decorated for the occasion, with the nuptial motif predominating. Unique miniature wedding bells tied with little twigs of orange blossoms marked each place and were taken home as mementoes of the occasion. After the serving of a delicious menu, attention was directed to the guest of honor, who made known her wedding plans, and at this time she was presented with a collection of lovely gifts to use in her new home, these being of a miscellaneous nature.

In the bridge contest that ensued, Mrs. Elmer Reiber and Martha Muse were fortunate winners of the score awards.

MAHONING VALLEY CLUB HEARS PAPERS

Mahoning Valley Garden club held the regular business session Thursday evening on the lawn at the home of Mr. and Mrs. G. L. Kelso, at Parkstown Corners.

Mrs. Charles McCullough led a discussion on when and where to hold the usual flower show, it being determined that the latter part of August would be the best time, but the date will be arranged later. Committees were appointed to take care of various details.

Mrs. W. A. Hoffmaster spoke for her husband, W. A. Hoffmaster, on having a pilgrimage. It was decided that such a trip would be taken on Friday, August 17, following a picnic supper at Lakewood. The lovely gardens of the Blacks and Marvins, in the East Brook district, will be visited. The group will meet at 5 o'clock at the Kelso home, at Parkstown, forming a motor caravan.

After the business period, the meeting was turned over to Mrs. Pearl Cochran, who managed a fine program. Those taking part were: Mrs. Charles Robinson, who had a splendid paper on "The Season's New and Unusual Flowers"; Mrs. Carl Rodgers, who spoke informatively on "Growing Hardy Carnations"; Miss Elizabeth Wallace, who told of "Bird Migration"; Leslie Whiting, giving an interesting talk on "Birds."

Cooling refreshments were served by the co-hosts and Miss Jennie Whiting, assisted by Mrs. George Hudson, Sr., Mrs. Belle Townsend, Miss Helen Patterson (a visitor from New York City), Leslie Whiting and Billy Cox. There were 30 guests in attendance.

For the August meeting the Mahoning Valley club will hold the annual picnic dinner on the first Thursday (instead of the second Thursday as previously planned) at the home of Mr. and Mrs. William Robison, Edenburg road.

SEVENTH BIRTHDAY HONORED AT PARTY

Thursday afternoon marked the seventh birthday anniversary of Jimmy Canan, and as a means of celebration, his mother, Mrs. Edwin Canan, entertained an assemblage of twenty-two girls and boys at an informal party.

A wide variety of lively games held attention, the majority taking place out of doors, with Theresia Marcella in charge. Prizes were awarded to Joan Cuscino, Sally Hammill, Bobby Doone and Billy Joe McAnallen at the close of the program.

An attractive and tasty lunch was later served at tables arranged on the lawn about the home, with dainty appointments prevailing. In addition to the usual large birthday cake topped with seven glowing candles, Jimmy was doubly surprised when presented with another cake, in the form of a snowy white lamb, a gift of one of the participants. Mrs. Edwin Canan was assisted by Mrs. William Brown, grandmother of the honored guest, with the menu.

The afternoon concluded with the opening of a collection of handsome gifts, given Jimmy in remembrance of the happy occasion.

Queen Esther Outing.

Queen Esther members will each take a tureen to Cascade park on Monday evening, July 13, at 6:30 o'clock for their special dinner outing. Tables to be set with their own service will be found in the grove at shelter No. 6, and the following committee will be in charge: Mrs. Dave Jones, Mrs. William McKibben, Mrs. Allan McKissick, Betty Gray and Peg Fox. The program committee includes Helen Houk, Mrs. Lloyd Wimer and Mrs. Clarence Love.

Americanization Board

The meetings of the Americanization board have been suspended until the regular September date.

PAST OFFICERS CLUB GUESTS AT COTTAGE

Members of the Past Officers Club of Martha Shrine, with their husbands, gathered Thursday evening at the cottage of Mr. and Mrs. Louis McClung on the New Wilmington road, for one of the most delightful meetings of the year. After a splendid tureen dinner had been served at tables arranged on the porch of the cottage, the evening was spent informally.

An out of town guest was Dr. Jas. McConnell Weddell, of the Knox Conservatory of Music at Galesburg, Ill., and formerly of New Wilmington. He is visiting at the home of Mr. and Mrs. George Weddell on Wilmington avenue, this city, for a few days.

During the festivities, an invitation was accepted by club members, to hold their next assembly on August 13, at Conneaut Lake as the guests of Mrs. Anna McKibben. The committee responsible for last evening's successful party, was composed of Mrs. McClung, Mrs. Cynthia Speer and Mrs. Ruth Boyd.

MRS. FRED WILLIAMS HONORED AT SHOWER

A miscellaneous shower of pretty appointments, was given in the home of Miss Clara Bernine on Northview avenue Thursday evening, honoring Mrs. Fred Williams, (Constance Priestly) a bride of recent date.

Bridge claimed attention, the tables being arranged on the front veranda. Pretty favors were awarded to Mrs. Claude Crill, and Mrs. J. H. Jones. The former received the galloping trophy. Afterwards, Mrs. Williams was presented with an array of lovely gifts in behalf of those surrounding her, to use in her newly furnished apartment on Wallace avenue.

The guests later assembled in the dining room where they were given places about a table daintly appointed in pink and blue tones, the center being graced with a tiny bride and groom under the shelter of a miniature pink umbrella guarded by burning candles on either side of the same hues. Novel favors further carried out the predominating theme, which were taken home as mementoes. The hostess was assisted by her mother, Mrs. Charles Bernine with the tasty repast.

MRS. MEARS' BIRTHDAY HONORED BY FRIENDS

As a courtesy on the birthday of Mrs. J. R. Mears, of Butler avenue, associates gathered Thursday evening, at her home for an informal party.

After extending happy wishes to their hostess, and presenting her with a lovely gift (Mrs. William Mitchell making the presentation speech on behalf of the club), the guests played 500. Prizes fell to Mrs. Francis H. Johnson, Mrs. Charles Dart and Mrs. William Mitchell.

As the occasion was a little out of the ordinary, the hostess served a tasty and cooling lunch at the dining room table which was centered with colorful sweet peas. Two special guests shared in the pleasure of the evening, Mrs. Charles Dart and Miss Florence Mitchell.

Next Thursday morning, July 16, the club will enjoy an early breakfast at Cascade Park, going out for an 8 o'clock meal. The next regular session will take place on July 23, at the home of Mrs. William Mitchell, Spruce street.

GARDEN FORUM MEETS ON MONDAY EVENING

Garden Forum of Lawrence county area will have the regular meeting next Monday evening at 8:00 o'clock in the North Street school building. Previously, at 7 o'clock, there will be meetings of the executive board and the flower committee.

In connection with the meeting at 8 o'clock, there will be an exhibit of specimen blooms, all members of the ten individual clubs composing the Forum, being asked to bring one specimen bloom apiece. These will be judged according to recognized standards. This series of exhibits will continue through to December. A record will be kept of the various ratings, and honors will be awarded at the close of the series.

For roll call Monday evening, facts in the life of Audobon will be given. Information concerning activities of this great naturalist, may be obtained at the Public Library where reference books have been placed.

A. A. Club

Miss Jean Leishman was a charming hostess to A. A. club members Thursday evening at Cascade Park. After a short business meeting games were played and prizes went to Miss Elizabeth Riley and Mrs. Nellie Tackitt. At 9 o'clock a wiener roast was enjoyed at one of the tables which had been attractively enhanced by garden flowers. Dancing was the closing feature of the gathering.

On July 23 a lawn party will take place at the home of Miss Katherine Metz, Waldo street, with a tureen supper.

(Additional Society On Page Seven)

MANY FRIENDS CALL UPON MRS. McCLURE

Thursday afternoon, between the hours of two and five o'clock, a large number of friends who had known Mrs. W. E. McClure when she resided in New Castle during the pastorate of her husband, Rev. McClure, at the First Presbyterian church, called at the home of Mrs. Roy W. Hazen on Sheridan avenue.

The opportunity to greet Mrs. McClure, who now resides in Detroit, Mich., during a brief return visit to this vicinity, was a delightful means of renewing friendship, and all afternoon groups of people enjoyed this pleasure.

Mrs. McClure will remain in the city over the week-end, visiting at still other homes.

W. B. A. Family Picnic

Members of the officers club of W. B. A. review 98 will gather in Cascade park on Monday evening, July 13, for a picnic dinner. Members of the officer's families have also been invited to attend this affair, the dinner of which will be served at 6 o'clock.

MRS. E. U. SNYDER HOSTESS TO CLUB

Mrs. E. U. Snyder of Winter avenue was a charming hostess to members of the Gowanda club on Thursday morning, at a breakfast at her home. The tables were arranged on the lawn, and an appetizing menu was served at 9 o'clock. During the leisure hours that ensued, the time was spent informally.

On Tuesday, July 28, members will motor to Zelienople where they will dine at the Kauffman hotel.

W. C. B. Class Dinner

The W. C. B. class of Wesley M. E. church gathered on Thursday afternoon for a dinner at the church in honor of Francis Rech, who is leaving the first of August for Korea Japan. Mr. Rech was presented with a bon voyage gift.

Special guests included his mother Mrs. Bessie Rech and the deaconess Miss Evelyn Bloomer.

A breakfast is being planned but the date has not been set. The next regular meeting will be on September 10.

INVITATIONS ISSUED FOR SHARON WEDDING

Mr. and Mrs. William Loughridge Aiken of Sharon have issued invitations for the marriage of their daughter, Marjorie Ann, to John Clyde Fisher, junior.

The ceremony will be solemnized on Saturday, July 25, at half after four o'clock in the First Presbyterian church, Sharon, Pa.

TUESDAY BRIDGE CLUB GUESTS AT LUNCHEON

Members of the Tuesday Bridge club motored to the home of Mrs. H. L. Dean on the Harlansburg road Thursday afternoon, where they were entertained at a beautifully appointed 1 o'clock luncheon. The table was centered with a bouquet of cut flowers, where a delicious menu was served, and following, the time was spent leisurely with card playing.

Plans were formulated for an outing to be held Thursday, July 23, at the Richard Allen cottage at Lakewood.

FROM A CANDID FRIEND

"FAITHFUL are the wounds of a friend," but even from a confidante one does not always relish criticism, however indirect, if the edge is a bit sharp.

Professor Moley's recent address to the Advertising Federation of America was not openly aimed at any conspicuous mark, and yet it may conceivably give a few worried moments to Candidate Roosevelt. Whether or not Mr. Roosevelt read Dr. Moley's remarks, there is no doubt that Dr. Moley had read the president's speech of acceptance.

For the professor has grown weary of the be-laboring of business by political prophets with a big stick and believes that the people are growing weary, too. As a campaign issue he sees this sort of ballyhoo as a boomerang, recoiling upon those who use it.

Dr. Moley points out that in attacking business as an evil in American life the partisan critics are setting up a straw man and making themselves ridiculous. Our economic system is not perfect, but it is "inherently decent and the interests of business and the interests of the public, so far from being antagonistic, are inseparable."

This is heresy to the New Dealers. But it is sound common sense. However, there is no chance that the New Deal campaigners will take it to heart. The keynote of their campaign has been sounded by their leader and they can not change the tactics which Dr. Moley so much deplores, even if they would.

FREDDIE'S AMBITION

When a boy of eleven is inspired by the ambition to write like Dickens, his purpose is deserving of nothing but the heartiest commendation. In the history of literature few men or women have written with greater power to stir the emotions of readers or have accomplished more through the media of paper and pen. This is the career which little Freddie Bartholomew has selected for himself and those who witnessed his performance in giving flesh and flood to the character of David Copperfield will wish him every success.

We are constrained to fear, however, that the chances are against his making substantial headway toward the fulfillment of this ambition. The young Dickens had a difficult and an abundant life—abundant in hardship and sorrow, rough contacts with a hard world and all sorts of people, good and bad. He saw the best and the worst of the fabric of life, observed and studied the processes of its weaving and, when the time came for him to write, was steeped in knowledge of the world in which he lived. He set down on paper what he had seen with his own eyes, knew with his mind and felt with his heart.

Freddie, with his rich endowment of talent, is finding life a much easier and more pleasant business. His earnings, even now, are enormous. He is sheltered from every unpleasantness and so it will be for some years to come. Much of the sorrow that comes from life's adversities will pass him by, at a sacrifice, of course, of experience. Life just now is equipping Freddie to be a darling of the screen and it will not be easy to escape this none too appealing fate.

AIR QUEEN COMES AND GOES

Perhaps the most remarkable thing about the Hindenburg, queen of the air, is the ease and the swiftness which have made her flights between Frankfort and Lakehurst commonplace performances, even when distinguished by the establishment of new records.

Although only a few weeks have passed since this great vessel of the air made new history by her maiden flight to the United States, her status at present is hardly distinguishable from that of the hundreds of vessels engaged in the trans-Atlantic service.

The impressiveness with which the Hindenburg demonstrates the air-worthiness of dirigibles, and the continued reduction of the time a passenger need take getting to and from Europe, cannot long be ignored, it seems, by the practical American mind.

The breaking up of such mighty ships as the Shenandoah, the Akron and the Macon has caused in this country a complete abandonment of interest in the dirigible as an instrument of war or a medium of commercial transportation. It cannot be said that the country is without tragic reasons for its lack of interest in the dirigible and its unwillingness to invest heavily in its development.

Nevertheless, the consistently perfect performances of the German ships, if continued for a reasonable period of time, may produce a change in the public and the official mind with respect to their practicability.

BORAH NEVER BOLTS

Observers who had expected Senator Borah, of Idaho, to bolt the Republican party and launch forth as a political independent of the Norris school of thought did not recken with the traditional partisan loyalty of the gentleman in question. Borah never bolts. He may waver. He may tear his hair. He may issue dire threats as to the possible consequences of conservative policy. But, in the final analysis, he stands pat.

To this extent, the Idaho senator differs from his colleagues in Nebraska and Wisconsin. The Norris-La Follette tradition includes "talking a walk" as a regular feature. In Idaho, however, political liberalism is vocal rather than peripatetic.

It is not strange, therefore, to find Borah announcing that he will endorse the Landon-Knox ticket, that he approves the Republican platform and has approved it from the beginning. Quite obviously, those pre-convention flirtations with Townsendites, inflationists and anti-monopolists were just so much folderol. The eminent solon from Idaho, as usual, will be found maintaining his quarters well within the camping ground of the G. O. P.

For reasons not quite clear, astronomers seem to be indifferent to the eclipse of Borah.

During an Italian production of "Romeo and Juliet" the soprano fell from the balcony and landed on the tenor. The effect on the tenor can be accurately gauged only by those familiar with the proportions of the average Italian soprano.

Anita Loos reports that the country faces a famine in blondes. However, as the transition from brunette to blonde is one which can be made overnight, the scarcity must be accepted as proof conclusive that gentlemen do not prefer them.

WASHINGTON AT A GLANCE

Central Press
Washington Bureau
1900 S street

By CHARLES P. STEWART
Central Press Staff Writer.

WASHINGTON, July 10. — As campaign strategy begins to reveal itself it becomes evident that Republican policy is to place the Democrats in a defensive, explanatory, apologetic position. The Democratic aim, on the other hand, is to sidestep exactly this position and figure in the role of vigorous assailants of a reactionary element, which seeks (as per the Democratic account) to get back to a bad system that the New Deal knocked out.

The Republicans' task is simpler than the Democrats' for the obvious reason that the former are the outs trying to break in, whereas the Democrats are the ins trying to stand the other folk off.

And it is proverbial that an attack is more inspiring than mere resistance.

* * *

PRO AND CON

Accordingly the Democrats' game is to appear to be the attackers rather than the attacked. They find it somewhat difficult.

They have "three long years", fresh in everyone's memory, to answer for.

Preceding the "three long years", as Democratic orators have done their best to emphasize, were "12 long Republican years". However, the Republican years are far enough back to have been more or less forgotten. And, if they're remembered, it is remembered that more than two-thirds of them were years of what was supposed to be super-abundant prosperity.

The Democratic version is that it was a kind of prosperity which resulted in near-ruin—a near-ruin from which the New Deal has rescued the country.

* * *

WHAT IS "PROSPERITY"?

That a boom is the very thing to be followed by a slump is true enough.

No less an authority than Herbert Hoover, then secretary of commerce, assured me of this in an interview I had with him in 1935. But he said that what was prevailing at that time was not a boom; it was a new state of society.

It did not prove to be so. I am sufficiently convinced that it was a fake affair, but I am not so sure that the average voter is convinced of that.

Nor am I sure of the average voter's belief in the genuineness of the New Deal's rescue of the country from the slump. Business has improved but unemployment has not decreased much. Now, business (big business, anyway), despite its im-

All Of Us

By MARSHALL MASLIN

MAKING PEOPLE OVER

What a lot of time you have wasted—trying to make people over.

How often you've said: "My friend would be perfect if he were just a little different. My child would be perfect if he weren't so impulsive. My wife would be perfect if she'd only get to places on time. My husband would be perfect if he only knew where he left his hat."

Always trying to make people over. Always struggling with other people's habits. Always being "terribly disappointed."

Perhaps you don't do that. But if you don't, you are wiser than the rest of us. Certainly wiser than I am . . . because I shiver at all the hours, all the trouble I've caused other people at that foolish, presumptuous game of making people over.

It took me a long time to realize that the little faults in our friends are so often merely the weaknesses of their strengths. The man with a sudden temper so often has a generous nature. The woman who has no "money sense" and is extravagant is so often just as extravagant in her kind feeling about you—about you and her other friends. The child who dreams may be a poet; the boy who is always messing up the place may be a mechanical genius. Human nature is such a bulging, careless, hard-to-handle sort of thing that you must treat it gently. It cannot be ordered, it cannot be forced. Give it harsh commands and it silently rebels. Order a slight blemish removed, and the quality you love best in your friend may pass from your enjoyment forever.

Do you know Robert Browning's "My Last Duchess"? That poem expresses what I'm trying to say. She was a merry thing:

"She had a heart—how shall I say
—too soon made glad,
Too easily impressed; she like whate'er
She looked on; and her looks went everywhere."

She smiled too much to please her husband. She smiled at him, but she smiled at others, too. "This grew," he said, "I gave commands; then all smiles stopped together." And so she died and there was no sweet Duchess anywhere, to smile on anybody.

He had tried, the foolish lover, to make his smiling sweetheart over. He failed most miserably, broke her heart and broke his own mistaken heart as well. And so will you if you try too much to make men and women over in ways that, after all, are not important.

Bible Thought For Today

The night cometh when no man can work.—John 9:4.

The Toonerville Trolley That Meets All The Trains — By FONTAIN FOX

Hints and Dints

Sun sets tonight 7:30. Sun rises tomorrow 4:40.

Over 161 people were killed on the Fourth of July in the United States this year, over a hundred of them being automobile victims. There are no figures on the near killed or seriously injured.

Probably it was the restaurant coffee that popularized the demitasse.

There is a new stunt for the gals who go without stockings and it is to paint a seam on the back of the bare leg. Hope they paint it straight. Some day painting the whole leg will be the style.

TODAY'S STORYETTE

Here's an old one for the new generation: A club of young men had a rule that on certain evenings any man who asked a question he was unable to answer himself should pay a fine. One evening Tompkinson inquired:

"Why doesn't a ground squirrel leave any dirt 'round the top of the hole when he digs it?"

He was called upon to answer his own question.

"That's easy," he said, "the squirrel starts at the bottom and digs up."

"But," suggested a member, "how does it get to the bottom?"

"Oh, oh," answered Tompkinson, "that's your question."

We heard a local bird tell another bozo that the devil wouldn't take him for fear he would take his job away from him. Omygosh!

The derivation of our word "salary" is very curious. In ancient times Roman soldiers received a daily portion of salt as part of their pay. "Sal," in Latin, is salt, and when the salt was, in course of time, commuted for money, the amount was called "salarium," or salt money. Hence our "salary," and hence, no doubt, the expression "Not worth his salt"—that is, his salary.

Another way to make friends with a stranger is to ask him what he takes for indigestion.

Of course you can't believe all you hear—but one thing sure—you can repeat it.

A new sort of an animal has been imported into this country by a circus from Africa and is called a ponzor. The front part of it looks like a donkey and the rear like a goat. The back part should be like a donkey and the rear front, and no doubt all the characteristics of the goat and donkey would be just where it would do the most good.

SHORTAGE

It may have no economic significance, but a statistic of unusual character has just been released for the edification of the public by a noted business analyst now visiting in this country. To prove there is underproduction in many lines of industry, he cites the fact that last year clothing manufacturers produced only one pair of pants for every three men in the country. Just what the other two did for leg covering was not revealed, though the popularity of knee-length shorts around these environs might provide a suitable answer.

Despite the depression a lot of people are just as busy as ever—looking over other people's business.

Say, you advocates of distributing the wealth: Didn't you ever hear of death and taxes?

AN ANCIENT CHAIR

What is probably the most venerable piece of furniture in existence was deposited in the British Museum some few years ago. It is the throne of Queen Hatasu, who reigned in the Nile Valley some 1,600 years before Christ and twenty-nine years before Moses. This now dilapidated object seems to be of lignum-vitae, the carving of the legs being inlaid with gold and those of the back with silver.

A New York man was referred to as "a leading hoodlum." Bad things can be told by nice names.

Invariably after a man dies, no matter how obscure a place he occupied in the community, he is always well known and highly respected by a large number of friends.

"Ise from N'Yawk," said a colored soldier who had fought over there, "and dese Gumans suttinly found us tough customers. Why, boss, de part of N'Yawk I come from am so tough the canary birds sings bass."

Some men are born great; some have greatness thrust upon them; and some hire a smart press agent.

A young man in Monterey, Calif., was forced to take to crutches because his feet failed to awaken with the rest of his body. Stepping from the bed his right foot turned under causing a severe sprain. The same thing occurred when he shifted his weight to the other foot.

A great many farmers out west are suffering from the drouth and dust storms. In the east there are thousands of good farms, well watered and free from all the bad things of the west, but farmers seem to prefer those western deserts that are no good. Even the big irrigation dams are not necessary in the east. Just take a ride over Western Pennsylvania and see the farms that are deserted.

A woman is seldom happily married unless her husband is afraid of her.

A politician will stand for almost anything he thinks will leave him sitting pretty.

Gambling seems much more a sin When you lose than when you win.

In California it is a serious offense to throw a lighted cigaret, cigar or match out of a moving vehicle while on a state highway. Ash receivers must be carried in every automobile to insure obeyance of the rule. The law in Florida, although undoubtedly unfamiliar to most people, provides somewhat similar regulations. Strict enforcement by the state highway patrol and the local fire rangers throughout the state of these provisions would appease the "motoring tourists" who, in the opinion of the Gainesville Sun, "cannot be blamed for crying out in disguest against the blackened smoky ruins of fields and woodland after the flames have been allowed full sway in their mad march of destruction." As if in answer Duval county points out that while 12,786 acres were burned in the county during two months in 1934, the figure was only 2,600 acres during the same period in 1935.

A Kentucky woman sheriff did not show any concern when the time came for her to spring the trap on one of the bad boys down there. The gals are getting so they can do about all the things men have been doing.

HAVE YOU NOTICED IT?

In one of the southern state legislatures a young lady appeared recently before a committee in support of the woman suffrage amendment. All the members pledged their support for the measure except an elderly gentleman of the "Suthe'n Kunnel" type, who was inclined to argue the question on traditional lines. "My ideas are old-fashioned, I grant you," he said oratorically, "but I glory in them. You seek to destroy the true relation between men and women, which is, to my mind, most beautifully expressed by the poetic simile of the stalwart oak and the clinging vine."

"Colonel," replied the young lady, "have you ever noticed, in your woodland strolls, that every tree that has a clinging vine attached is dead at the top?"

Si Hum says of all the spring flowers pancake flower is his favorite.

All the gels that are suggested for a wife for King Edward of England are mighty good looking. The king has been very hard to please when it came to selecting a wife. He likes to visit around with about all of them.

They can't make Landon a great man in four months. Nothing can do that quickly but a majority of the votes.

It is better to make a political speech in the wrong meeting than to deliver the wrong speech in the right meeting.

And now men have gone back to the soft shirt. You see, the times have taken the starch out of them.

The canners might contrive to make it more difficult to open their cans by putting the instructions on the inside, but I doubt it.

A worker in a shipyard refused to have his baby christened because, as he explained, he was afraid the minister would hurt the baby when he hit it was the bottle.

It is easy to trick a crook. He expects everybody else to lie and the truth fools him.

Good Taste

By FRANCINE MARKEL

By FRANCINE MARKEL

DEAR MISS MARKEL: I have asked a boy to accompany me to a dance that my club is giving. He is not acquainted with the "crowd." Should I dance with him exclusively all evening, or will it be permissible for me to leave him alone and dance with the other boys who will ask me. Also, should I go with him when he parks the car, or should I get out at the clubhouse and meet him later?

JEANNE.

Answer: It would be decidedly better taste for him to let you out at the clubhouse before he goes on to park his car. You may then go in to do your primping and be ready by the time he has arrived.

Do not leave the poor boy stranded in a roomful of strangers. On the other hand, you need not limit yourself to him as a partner for the entire evening. Take him around and introduce him to all the boys and girls whom you know, that he may be free to cut in and dance with some other girl while you are off dancing with another boy.

It's no fun clinging to one partner all evening!

Copyright, 1936, by Watkins Syndicate, Inc.

Miss Markel will promptly mail personal answers to questions from any reader inclosing self-addressed three-cent stamped envelope.

Tomorrow—Are You a Fast Talker?

The World At A Glance

What Price Drouth?
Will Cut National Income.
Auto Industry Surprises.

By LESLIE EICHEL
Central Press Staff Writer

HOW MUCH WILL the drouth set back recovery? Financial interests are busily discussing that. The United States continues to remain dependent largely on farm income. It is that income which keeps auto and steel plants and dependents industries going.

The drouth will cut total income tremendously. The immediate effect will not be felt because government money will be poured into drouth regions. First effect probably will be felt by grain and stock carrying railroads with lines in the drouth regions. Then farm implement firms will feel the effect. Then Wall Street will begin to discount the effect elsewhere.

* * *

TREMENDOUS INCOME

Up to the time of the drouth, business gains in the United States had been enormous.

For the first five months of this year the national income totaled $23,305,000,000 against $20,651,000,000 last year, an increase of 12 per cent, according to Alexander Hamilton Institute.

The total quantity of goods produced by factories, farms and mines had increased 12.6 per cent.

Yet there was no corresponding increase in the employment of labor. Thus the revival of "wealth-sharing" plans and the readiness with which recruits have joined John L. Lewis' industrial unions.

* * *

UNPRECEDENTED

The recovery of the automobile industry has been unprecedented.

We learn from the Alexander Hamilton Institute that sales of passenger automobiles in the first quarter were 22 per cent larger than a year ago and 204 per cent above the depression low.

Constantly dropping prices through the years have enlarged markets and increased earnings.

On the other hand, steel corporations have maintained their old prices and were it not for the automobile industry would operate many of their plants in the "red".

The World AND THE Mud Puddles

CONSIDER THE VOTER

Our forefathers harking back to the common law, meant exactly what they said in Constitutions directing that grand and petit juries be composed of twelve men. They deliberately selected the male of the species for this important duty. It possibly never occurred to them that at some future day the courts would be finding it difficult to determine whether the term included women.

In these later times, when everything is under the spell of change, and the old is giving place to the new order, the law is striving hard to keep the place. Women, having secured the vote are claiming all the rights belonging to male voters. Do the amendments of the state and federal Constitutions, giving women the right to vote, ipso facto confer the right to serve as grand and petit jurors.

A negative answer has been made to this question in several states, on the ground that, though all jurors are usually to be voters, not all voters are qualified jurors. Male citizens, who are voters, and who are over seventy years of age, are generally excluded as grand jurors.

Male citizens who are infirm or decrepit, male citizens who are not intelligent, male citizens who are not of good character and male citizens who are not able to read and write in the English language understandingly are also disqualified from jury service. Nevertheless all of these classes are permitted to vote and help to elect our wise or unwise Presidents.

They will be doing it this fall and these are they who not only will help, they will select the President.

Words of Wisdom

Love is sunshine, hate is shadow, life is checkered shade and sunshine.—Longfellow.

Just Folks

By EDGAR A. GUEST

LITTLE JIM

Jim was a little man in every way,
His shop was little and his trade was small.
I'll wager that upon his busiest day
Not more than twenty people came to call.

Upon a highway at a dangerous curve,
Where death had struck a dozen times or more,
Stood Little Jim, his customers to serve,
Proud that the roadway passed his little store.

But came the time the governor of the state
Said, "Move the road! Conditions there are bad!
To make it safer we will make it straight."
And Oh, but Little Jim was hopping mad!

I stopped one day and Little Jim exclaimed:
"They're going to move the road away from me!
Them fellers up the state should be ashamed.
The road's all right. Why don't they leave it be?"

"But Jim" I said "'Tis much too dangerous here.
'Twill safer be for all when straight it's made."
And Little Jim responded with a sneer;
"Just to save fools they go and kill my trade."

And this I wondered as I drove along:
Is selfish interest more than life and limb?
Lord, when I have to choose 'twixt right and wrong,
Let me not be as small as Little Jim!"

Using postmasters as political agents has a new effect this time. It shocks Republicans instead of Democrats.

TODAY Is The Day

By CLARK KINNAIRD Copyright 1936 Central Press

FRIDAY, JULY 10.

Notable Nativities—Rexford Guy Tugwell, b. 1891, No. 1 "Brain-Truster" and director of the Resettlement Administration. . . Nicola Tesla, b. 1857, discoverer of alternating current and 700 other notable inventions. . . Liliane Carre Flynn, known as Lili Damita, b. 1906, cinemactress. . . Graham McNamee, b. 1889, radio announcer. . . Joan Marsh, b. 1911, cinemactress.

* * *

Today's Yesterdays—July 10, 1777—William Barton, 29-year-old Rhode Islander, abducted a British general from his own headquarters! Robert Prescott, commander at Newport, had made himself especially obnoxious to local patriots and Barton revolved to capture him. With 38 men in four whale-boats, he crossed Narrangansett Bay, slipping past three British warships, to land near Newport. He surprised the guards on duty in the sleeping camp, used a negro's head as a battering ram to break down the general's door, and carried him, undressed, to the American lines, to be presented to George Washington. Congress rewarded Barton a sword for his exploit, yet after the Revolution allowed him to remain in jail 14 years because of debt!

July 10, 1780—The military and naval force sent by Louis XVI to aid the American Revolutionists, arrived at Newport, R. I., in command of Lieut. Gen. Jean Baptiste de Vimeur, Comte de Rochambeau. A few days later the 8,000 soldiers joined Washington's army on the Hudson, above New York, and began to play a vital part in the defeat of the British.

Revolutionists cut off Louis' head a few years later, and the aid he gave American revolutionists was a reason. The expense entailed completed the bankruptcy of his government.

July 10, 1863—The United States went to war with Japan, without the knowledge or authority of Congress!

When deaths of four Britons led Britain to make demands on Japan and caused all foreigners to be ordered to leave the country, the American minister refused to leave, and his legation at Nagasaki was destroyed by a mob.

The American minister on his own initiative ordered the nearby U. S. S. Wyoming to attack the city. It did, blowing up the two Japanese attacking-ships and silencing six land batteries. The U. S. S. Jamestown was sent against Yokohama, and the minister, Robert Hewson Pruyn, 48, of Albany, N. Y., chartered and armed a Chinese ship, Ta-Kiang, to join French & British ships in a further attack.

Thus while the Union battled the Confederacy, the U. S. was engaged in another war, with a foreign country, unbeknownst to the government! By the time Washington did know of the war, Pruyn had forced Japan to pay heavy indemnities and established peace.

July 10 Among State Histories: 1790—Three Carmelite nuns and a sub-prioress, arrived at Port Tobacco, Md., from Belgium to establish the first convent in the U. S.—the mother house of all religious houses for women in the country. . . 1865—First rail of the first railroad between the Missouri River and the Pacific the Union Pacific, was laid at Council Bluffs, Iowa. . . 1925—Dayton, Tenn., was the center of the world's attention, with the opening of the trial of John T. Scopes for teaching high school students "evolution."

* * *

It's True—Butterflies migrate in much the same way as birds, even crossing the Atlantic from America to Britain.

Sir Henry Bessemer, great engineer, built an anti-seasickness ship, with a non-rolling salon amidships which swung on a bearing and kept horizontal when the ship rolled, and used it in ferrying passengers across the English Channel

"The water in a hot-water pipe will freeze before the water in a cold-water pipe," contributes Mary Wever.

HOLC Will Be Collection Agency Now

By ARTHUR C. WIMER
(Special Washington Correspondent New Castle News)

WASHINGTON, D. C., July 10.—With its lending activities terminated, the Home Owners Loan corporation announced today it had made loans aggregating $167,010,272 to 58,796 owners of mortgaged homes in Pennsylvania. From now on the agency will function purely as a collecting corporation.

Pennsylvania ranks fourth of the states in the amount borrowed from the corporation. New York comes first with borrowings of $410,024,089. Ohio is second with $305,881,793, and New Jersey third with $175,326,987.

The average loan totals $2,828 in Pennsylvania and $3,027 in the country as a whole. The average is greater in 13 states than in the Keystone state. The average Ohio loan amounts to $3,100.

During its life as a lending agency, the HOLC received applications for loans from 121,483 Pennsylvania home owners totaling $450,186,571. Of these, 62,687 amounting to $283,176,299 were rejected or withdrawn.

Bethel A. M. E. To Sell Tags Saturday

Bethel A. M. E. congregation has been given permission by the city to have a tag-day Saturday as a means of raising money to save the church building from being sold.

Rev. William McPherson, pastor, says that a judgment against the church will be executed in less than 60 days if not paid.

The solicitors will be furnished with banks by the Lawrence Savings and Trust Company and will wear yellow badges. Any checks should be made payable to Bethel A. M. E. church, 312 Green street.

It isn't Mr. Roosevelt's fault if he didn't drop schemes that didn't work. The Supreme Court didn't give him time.

Labor Day Will Be Gala Occasion

Trades And Labor Assembly Working To Make The Day An Old Time Success

Definite plans for the annual Labor Day celebration of the Trades and Labor Assembly will be outlined at the next meeting of the assembly President Norman D. Freeborne stated today. Tentative plans are already in the making but at the next meeting the plans will take form and committees will begin to function.

The place for the celebration has not yet been named although it is likely Cascade Park will be selected. A labor speaker of national prominence will be present to deliver the address of the day. The usual program of sports and amusements will be presented and other features will be announced later.

For many years Labor Day was celebrated in an outstanding way in New Castle. There was a lull for some years but the Trades and Labor Assembly is desirous of bringing Labor Day back to its old time form. This year's celebration will be a large one and between now and the end of August committees will be at work to insure the success of the day. Mr. Freeborne will be the general chairman of the day.

BOARD WILL DEVELOP FAIR PLANS FURTHER

The 1936 New Castle fair on August 25, 26 and 27 was still more than six weeks in the future today as officials and co-workers energetically pushed ahead plans for the annual exhibition.

Arrangements developed so far will be reviewed by members of the board of directors of the New Castle Agricultural association, the sponsoring association, at a meeting on Friday, July 17.

This year's fair is being held earlier than those of the past.

GETTING ALONG

"A telegram from George, dear."

"Well, did he pass the examination this time?"

"No, but he is almost at the top of the list of those who failed."

There Are Two Kinds of Vacations

Some people plan their vacation to have fun and excitement. Some plan it just to rest. If you are one of the latter, whose work takes every bit of available energy, maybe your vision is defective. Eyestrain saps strength. Have your eyes examined now. Let clear and easy vision at your work leave you ready for a happy and gay vacation.

Seek To Heal Labor Breach

Effort Being Made To Bring Two Warring Factions Together

(International News Service)

WASHINGTON, July 10—A final desperate effort to close amicably the yawning breach between two great factions of union labor, got underway today.

Two separate labor groups, and President Roosevelt himself, joined in the despairing move to bring together the bitterly warring forces—and with only a faint hope of success.

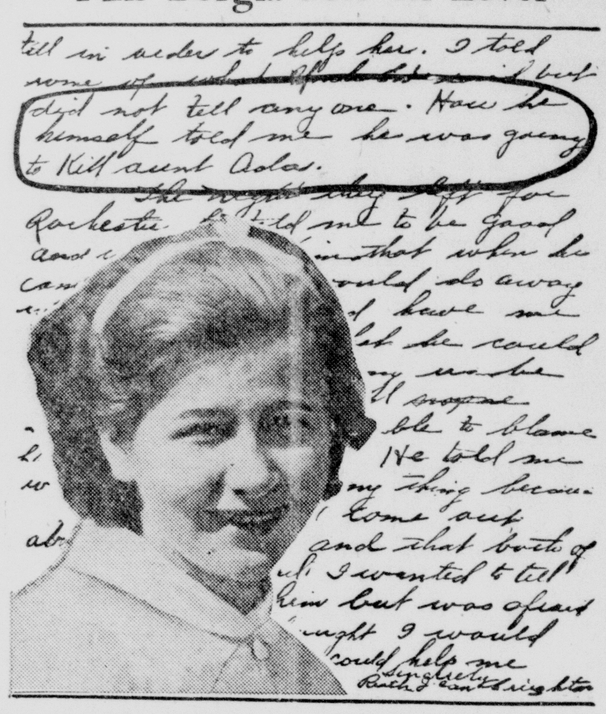
As the situation stood today, the American federation of labor and the "rebel" committee for industrial organization, headed by United Mine Workers president, John L. Lewis, were as far apart as the poles.

Even President William Green of the A. F. of L. formally admitted the breach was a fact.

The A. F. of L. executive council has met, and has called upon the United Mine Workers and the eleven other unions affiliated with it in the CIO, to appear and "explain" their drive to unionize the steel industry along industrial lines—in defiance of the federation.

And the CIO has answered with blunt refusal to appear. The council called for the mine workers first, convened to hear them, and heard only the reading of a letter in which John Lewis said he had no idea of appearing. Later, the United Textile workers sent a similar announcement.

Pins Borgia Plot on Lover



In a attempt to save her mother, Mrs. Mary Creighton, from death in the electric chair at Sing Sing for the poison slaying of Mrs. Ada Appelgate, Ruth Jean Creighton, New York school girl, addressed an appeal to her mother's attorney in which she accused Everett Appelgate, also under sentence of death, of engineering the plot. Ruth is shown with a portion of the letter. *(Central Press)*

News Briefs From City Hall

There is a leak in the water line in front of the postoffice building according to a report made by a patrolman to headquarters last night.

Mutual Lumber company, 216 White street, reported to police someone has been stealing logs and lumber from the yard.

Someone attempted to open the cellar window of the Swarzlander residence, 91 Huron avenue, last night, according to police.

RECOVER BICYCLE

Detective Ray Showalter arrested John Pawlak, South New Castle borough, on a charge of stealing a bicycle sometime ago from the residence of Dr. E. F. Henderson, Lincoln avenue. The boy confessed, according to Showalter.

Senate Passes Bill To Limit Tax On Realty

(International News Service)

HARRISBURG, July 10.—Passed finally in the senate, the Ziesenheim bill to limit taxation on real estate to 10 mills in 1943 and thereafter, today was before the house of representatives for concurrence. The vote on final passage was 41 to 4.

Formally a joint resolution proposing an amendment to the state constitution, the measure must pass this and the next regular session of the legislature and be approved by the voters the following year before the change could become effective.

TO VACATE PART OF BOULEVARD

City council met Thursday and reported favorably from committee a bill vacating a portion of Neshannock boulevard for safety first reasons. The portion to be vacated is several hundred feet long and is situated between Boyles and Park avenues.

Years ago before Boyles avenue was built it was used as a thoroughfare. Since the bridge was put up that portion of the boulevard has not been needed.

Rural avenue is being improved now and when the work is completed it will enter Park avenue alongside of that point of Neshannock boulevard which is to be abandoned.

Make Reports Of Minor Accidents

Mrs. Pearl Brundage, 343 Laurel boulevard, reported to police last night that when she drove her car north on East street, at North street, a young woman walked against the right fender of her car. The young woman was not hurt, Mrs. Brundage reported. The accident occurred at 7:45 a. m. yesterday.

Michael Wonner, 716 East Reynolds street, reported that his car and a machine driven by a man named Sanders were in a collision at 5:30 p. m. yesterday at North and North Jefferson street.

Hints On Etiquette

Many of the common rules of etiquette do not apply in the business office. For instance, when you are seated at your desk you need not rise when your employer or any member of the office staff approaches you.

WASHINGTON AT A GLANCE

(Continued From Page Four)

provement, still notoriously is anti-New Deal. And I cannot imagine that a jobless workingman believes that his lot has been much improved.

* * *

DISSATISFIED ELEMENTS

Agriculture is not well enough satisfied to have headed off the Lemke movement.

The Townsendites and the divide-the-wealth group are turbulent.

The white-collar class sees its living costs increasing and its incomes remaining stationary.

* * *

ATTACKS DISREGARDED

Well, the Landonites undertake an attack on the New Deal in behalf of all these elements.

The New Dealers ignore the attack.

Neither their platform nor President Roosevelt's acceptance speech recognized it. None of their campaign oratory thus far has done so.

They just do not propose to be attacked. If attacked, they do not intend to notice it. Their idea is to be the attackers—a nonentity from a "typical prairie state"; "economic royalists".

* * *

ON DEFENSIVE

As a matter of fact, however, the Democrats are on the defensive.

They do not like it. They would prefer to be the aggressors.

Nevertheless, a defense can be so strong that an attack cannot overwhelm it.

It looks like it in this instance.

Hipsley Funeral Is Held In Pittsburgh

Companions On Tragic Honeymoon Trip Attend Service On Thursday

A party of New Castle residents, including the six couples in Canada when he drowned last Sunday morning, attended the funeral service in Pittsburgh yesterday for Harry D. Hipsley, New Castle district salesman for the Freedom Oil Works company for more than two years.

Rites were conducted at a funeral home and burial took place in Mt. Royal cemetery. Many Pittsburgh friends attended.

Attending from here were Mr. and Mrs. William Milsom, Mr. and Mrs. Jack Fulkerson, Mr. and Mrs. Wilfred Thomas, Mr. and Mrs. Edward Williams, Mr. and Mrs. Maurice Kelly, Dr. and Mrs. A. B. Foster and John E. Milsom, who went to Canada with Mr. and Mrs. Hipsley on their honeymoon. Others present were Mr. and Mrs. Raymond Rhodes, Mrs. Anna B. Sturdy and several others.

Two weeks ago today Mr. Hipsley was married to the former Miss Dagmar Johnson in Pittsburgh and one week ago they left for their Canadian honeymoon with local friends. The tragic drowning occurred last Sunday morning.

The late Mr. Hipsley was known by many throughout the New Castle district.

Elect Augustyn National Director

New Castle Nest 146, Polish Falcons of America was honored in the national convention of the order which just closed in New Haven, Connecticut, when Stanley Augustyn of 4 Northview avenue, was elected a national director.

Mr. Augustyn returned home on Thursday night from the convention and with him the following men who also were delegates from the local nest, G. Boron, Marion Kolodjeskie, Russ Kawa.

In the national athletic events, conducted under Amateur Athletic Union rules, Russ Kawa of New Castle, took part and made a credible showing. In the high hurdles he finished second, in the medley relay, third; in the broad jump, fourth, and in the pole vault fourth. Competing against him were some of the finest athletes in the county.

YOUTH MISSING

Frank Jendrysik, 21, is missing from his home here, according to a report made to police today. He left home July 7. He is five feet eight inches tall and when last seen wore a light shirt, brown pants and blue lumber jacket.

State Earnings Of Individuals Are Increasing

Federal Income Taxes In Pennsylvania Show Large Increase

By ARTHUR C. WIMER
(Special Washington Correspondent New Castle News)

WASHINGTON, D. C., July 10.—According to the index of federal income tax collections, individual earnings are bounding upward more rapidly in Pennsylvania than in the nation generally.

The treasury department reported today that federal taxes from individual incomes in Pennsylvania totaled $60,060,835 in the fiscal year of 1936, ended last June 30. This was an increase of $15,547,656, or 35 per cent over the previous fiscal period. In the country as a whole, on the other hand, such taxes mounted only 27 per cent.

An increase in income taxes is usually interpreted as arising from increased earnings of individuals and by this standard of the earnings of Pennsylvania people would seem to be increasing more rapidly than those of workers in the country as a unit.

Corporate income, on the other hand, seems to be climbing less rapidly in the Keystone State than the nation generally. Federal tax collections on corporate income in the state amounted to $52,721,743 in the 1936 fiscal year, an increase of 17 per cent. Such collections in the country as a whole, to the contrary, jumped 29 per cent.

Total collections of federal taxes in Pennsylvania, exclusive of AAA levies, aggregated $295,995,700 in the 1936 fiscal year, an increase of $70,857,006, or 31 per cent. Such collections in the entire nation, on the other hand, climbed only 24 per cent.

AUTO THEFT CHARGE

William DeArment, 20, Bessemer, accused of the theft of an auto belonging to Budd Wise, this city, from Washington street recently, is held in default of $1,000 bail awaiting a hearing before Alderman O. H. P. Green this afternoon.

DeArment was charged by Police Chief Criswell with the larceny of an auto and operating an auto without the consent of the owner.

CLEVELANDER BOOKED FOR KIWANIS SPEECH

"How One Man Beat the Depression" will be the topic of the address Harold Rea Fitch, Cleveland Heights professor of magic, will give before the Kiwanis club at The Castleton on Wednesday, July 15.

RATE COMPLAINTS

HARRISBURG, Pa.—Negotiations in 172 informal complaints involving the rates and service of public utility companies were completed by the Public Service Commission in May. Most of the cases were concluded to the satisfaction of the complainant. In the remainder, it was explained to the complainants just why his complaint could not be adjusted informally.

PERMIT GRANTED

It was announced in city hall this morning that City Engineer Glenn R. Throop had granted a permit to J. A. Panella, South Jefferson and Center street, for a storage for lumber and builders' supplies. Petitioners yesterday requested the city to enforce the zoning ordinance as Panella, they claim, had stored old lumber there and under section 12 of the zoning law could not do this, hence Panella's new request.

YOUNG COUPLE IS MARRIED THURSDAY

Mr. and Mrs. H. E. Householder, of New Galilee, announce the marriage of their daughter, Mabel N., to Norman H. Emery, son of Mrs. Jennie Emery, of New Castle.

The ceremony took place Thursday, July 9, at the home of Rev. F. Benton Shoemaker, Brookville, Pa., with Rev. Edwin A. Shoemaker, pastor of the Westfield United Presbyterian church officiating with the single ring service.

At 6 o'clock dinner was served at the home of the bride's parents to immediate members of the family. A large cake topped with a miniature bride and groom was used for the centerpiece.

Later in the evening a reception was conducted, with friends coming from Akron, New Brighton, Zelienople, Ellwood City, East Brook, Newport and New Castle.

During the course of the evening many pretty and useful gifts were received by the young couple. They will be at home to their friends in their newly furnished apartment on the Dr. Taylor farm, Pulaski, after the fifteenth of the month.

Phyllis West Honored

Honoring the second birthday anniversary of her daughter, Phyllis, Mrs. Catherine West of West Lawrence street, entertained in her home Wednesday evening, a group of ten little guests.

The hours were from 7 until 9 o'clock and a program of amusing games and contests claimed attention of the youngsters. At a suitable hour they were seated about an attractively decorated table where a delicious menu was served. The hostess' mother was assisted with this feature by Mrs. Katie Ross and Mrs. Mary Goclano.

The honored guest was the recipient of a collection of handsome gifts in remembrance of the happy occasion.

The News By Mail, One Year $5.00

AUGUST BRIDE-ELECT HONORED AT SHOWER

Miss Agnes Reider of Wilmington avenue, a bride-elect of August 4, was honored Thursday evening at a kitchen shower given by Mrs. Joseph Phipps, Sr., and Mrs. Joseph Phipps, Jr., jointly, at their home on North Beaver street.

Tables of bridge and 500 were in play as the main diversion, the contests progressing at tables arranged on the lighted porch. Later they were re-set and a dainty lunch served by the hostesses. They had as aides Mrs. George Reider, Marie Bauder, Bernie Reider, Dolly McCombs, Mrs. J. J. Hillman, the latter of Middletown, O.

The guest of honor was the recipient of a number of attractive and practical gifts, for her future home

BIRTHDAY HONORED BY PLAMOR CLUB

A pretty compliment on the birthday of Miss Donna Crum, of Reynolds street, was a shower of dainty hankies by members of the Plamor club, who had the regular meeting Thursday evening in the Crum home. Many other lovely gifts were also received by the hostess.

Cards and contests figured in the evening's entertainment, with favors going to Mrs. Anne Uram, Miss Stella Krous and Mrs. Matilda Thellman. Mrs. Sue Seinkner won the contest trophy, and Miss Jean Boughter, the guest prize. Afterwards, the hostess served a flavorful lunch.

Plans were made for a picnic at Idora Park on July 19. The next regular club session will take place on July 30, at the home of Mrs. Anne Uram, Terrace avenue.

Saturday

Ye Towne club, Esther Wallace, Wallace avenue.

G. M. Birthday club, Mrs. Minnie Witherow, Highland avenue.

FIRST M. E. QUEEN ESTHERS AT CASCADE

The Queen Esthers members of the First M. E. church held one of their most enjoyable social gatherings of the year on Thursday evening, when they assembled at Cascade Park for a picnic dinner. Approximately seventy-five were in attendance, including families and guests of the organization.

The serving took place at 6:30 o'clock in the park grove, at tables arranged by an efficient committee headed by Miss Nettie Clark. She had as her aides, Mrs. J. L. Fink, Mrs. E. C. Buzard, Mrs. John Loudon and Mrs. M. R. Hornung. Immediately afterwards, an exciting program of games and contests featured for all ages, adding further to the day's success, with Martha Bigley in charge.

Out of town guests included Mrs C. E. Hamilton of Pittsburgh, Mr. and Mrs. Joe Parker of Gary, Ind., and Ruth Baker of Oil City.

It was decided to hold a lawn party on Thursday, July 16, at the church parsonage, at the corner of Highland avenue and Clenmore boulevard.

GOOD LUCK MEMBERS PLAN PICNIC EVENT

Mrs. Grace Hoch, of Wilmington avenue, welcomed members of the Good Luck club to her home Thursday evening, where they conducted their regular business session and had a most enjoyable social time.

During the evening hours the most important diversion was the playing of 500 at the close of which Mrs. Hoch awarded prizes for high scores to Mrs. Harriet Hubbard and Mrs. Camila Reynolds. At the business session plans were made to hold a picnic in Cascade Park two weeks from last night, July 23. Dinner will be served at 6:30.

At an appointed time the hostess, assisted by her daughter Margaret, served a most delightful luncheon. Miss Aliene Sherbine was a special guest present.

Amerita Club

Bridge filled in the leisure hours for Amerita club members Thursday evening at the home of Mrs. Andrew Nocera, Cameron Ave. Prizes fell to Amelia Iacobucci and Angeline Iacobucci. Special guests who entered into the contest, included Elizabeth Monico, Virginia Iacobucci and Alda Aisol the latter of Warren, O.

In three weeks, members will be received in the home of Mrs. Norman Cuscino on Reynolds street.

CONTEST DINNER AT CASCADE ENJOYABLE

Seekers of shady spots to cool off a bit from the sizzling heat of Thursday—which 'twas said was the worst for many a long year—journeyed to Cascade park, principally because it is nearby.

Among these groups was Section C, Y. L. B., of the Third U. P. church which held its contest dinner in the grove at 12:30. Dinner was served by a committee composed of Mrs. Claire McConnell, chairman, assisted by Mrs. Arthur Wehr, Mrs. J. H. Lalley, Mrs. Allen Cartwright, Mrs. Harry Kelly, Mrs. B. C. Craig, Mrs. Ray Lindsey and Mrs. H. A. Anderson.

After enjoying the appetizing menu provided by the losers in the recent contest, a short business session was held over which the president, Mrs. Allen Cartwright, presided. Plans were furthered for another picnic at Cascade park on Wednesday, July 29, for members of the section and their families.

In addition to the usual number, the members yesterday had several visitors . One was the house guest of Mrs. H. A. Anderson, Evelyn Sankey, who is here from Miles City, Mont.; another was Mrs. Hoassig of Grove City, who was with Mrs. William Smock of Arlington avenue; C. C. McKibben, city treasurer, and the Rev. Chester T. R. Yeates, the pastor, who showed his culinary art, to the amusement of the crowd, by "carving" a mammoth watermelon. About 25 persons shared.

JOLLY TWELVE CLUB THURSDAY ASSEMBLY

Most enjoyable was the meeting of the Jolly Twelve club members Thursday evening, at the home of Mrs. Edward Burdette on East Washington street, when they gathered for their usual bi-weekly event. A short business period opened activities when plans for the summer and other items were given consideration, and afterwards, cards held sway. Lovely prizes fell to Mrs. Albert Perkins and Mrs. L. W. Houk for honors.

A menu of delicious refreshments was served at a later hour by the hostess, with her daughter Ruby Burdette, assisting. Garden flowers were used artistically in the decorations of the room, and also, formed the table centerpiece.

In two weeks, the club will enjoy the hospitality of Mrs. L. W. Houk on Raymond street.

WE-FU-BRIDGE CLUB CONCLUDES SEASON

We-Fu-Bridge club members, were entertained by Mrs. Harvey Booher Thursday afternoon, at a nicely appointed 1 o'clock luncheon in one of the prominent tea rooms, which marked the concluding event of their calendar season.

After partaking of the tasty menu served at nicely arranged tables, the group motored to the home of their hostess on Garfield avenue where the balance of the afternoon was spent in trying to keep cool. Cards interested the group for a period of time, Mrs. Alfred Williams and Mrs. Harry Carlson received the prizes, the latter also being recipient of the traveling award.

The regular sessions will resume in September with Mrs. Leroy Shoaff, of Garfield avenue, hostess, the date to be announced.

GUARD CLUB MEMBERS AT McKISSICK HOME

Thursday evening at the invitation of Mrs. Rebecca McKissick, the members of the W. B. A. 98 Guard club gathered in her home on John street, for their regular business and social gathering.

A short business meeting under the direction of the president, Miss Jessie Harper, was conducted following which the guests enjoyed playing 500 with prizes for high scores being awarded to Miss Anna Rae and Mrs. Anna Glitch.

It was decided to make the next meeting in the form of a picnic dinner to be held on August 13 in the home of Mrs. John A. Earl on West Washington street extension, with Miss Anna Rae and Mrs. L. M. Glitch co-hostesses.

Honored at Shower

A miscellaneous shower was given in the home of Mr. and Mrs. Harry Johnson on the County Line road Thursday evening, when they entertained a group of friends numbering 40 to honor their daughter and new son-in-law, Mr. and Mrs. Robert McConahay, who were recently married. She was formerly Glenola Johnson.

The hours were spent enjoyably with music and chat, and during the evening the guests of honor were the recipients of a collection of beautiful and serviceable gifts.

In serving lunch the hostess was assisted by Mrs. Robert Minteer and Mrs. Frank Minteer. The couple will reside in this city, where he is employed with the B. & O. Railroad Company.

Reunited Ladies' League

Reunited League members were graciously entertained Thursday evening in the home of Mrs. M. H. Richards on Maryland avenue at one of their most enjoyable gatherings of the season. A short business period was conducted, when items of interest were given attention, and following the time was spent in playing bingo. Mrs. Bessie Straight, Mrs. Anna Richards and Mrs. Rebecca Strong were winners of three lovely prizes.

In serving a refreshing menu the hostess had as aides Ruth and Edna Richards. Appointments were in keeping with the season.

On July 23 the league will be guests of Mrs. Ralph Phillips of Winslow avenue.

Jones Reunion

The descendants of John and Fannie Jones will hold their second annual reunion at the home of Mr. and Mrs. Ralp Copper of Princeton on Saturday, July 11.

Weigletown Club Reunion

The annual Weigletown club reunion will be held in Williard Grange Hall on Saturday, July 18, afternoon and evening. Members and their families will participate.

QUEEN ESTHER AUXILIARY PICNIC

Members of the Queen Esther Auxiliary of the First M. E. church enjoyed the annual tureen dinner, with the husbands and members of their families as special guests last evening, the event taking place in the grove at Cascade Park.

Covers were laid for 75 at nicely appointed tables, which were graced with a profusion of garden flowers. Dr. Norris White pronounced the invocation. After dinner, the hours were pleasantly spent in enjoying the amusements of the park.

The committees in charge, which was responsible for the success of the affair, was composed of Miss Nettie Clark, chairman; Mrs. J. L. Fink, Mrs. E. C. Buzzart, Mrs. Martin R. Hornung and Mrs. John Louden.

BRIDE-ELECT HONORED AT ELLWOOD PARTY

Miss Emily Reynolds, bride-elect of this month, was guest of honor at a party given by Mrs. Paul C. Reynolds, 410 Crescent avenue, Ellwood City, on Wednesday evening, which interested three tables of players, with bridge featuring. Miss Diane Foluke and Miss Gretchen Smith received the honor score awards.

At a suitable hour, the hostess served a dainty menu with Mrs. Harold Burns, assisting. All appointments were carried out in tones of pink and white, suggesting the nuptial motif.

The guest list included many New Castleites, and one from Poland, O., Miss Carolyn Gearheart.

Delta Club Members

Members of the Delta club will meet Monday night with Sylvia Lee Martin on Park avenue for their regular session.

BIRTHS

(Announcements to appear in this column must be signed with name and address of writer and also give name of doctor.)

A daughter, Bertha Faye, was born to Mr. and Mrs. Harold Fitzgerald, of Rose Point, on July 3.

Mr. and Mrs. Carl Alborn, of New Castle R. D. 4, announce the birth of a daughter on July 8 who has been named Carol Bernice.

Born to Mr. and Mrs. Sam Di Matteo, 518 West Park way, a son, on July 8, who has been named Sam, Jr.

The News, By Mail, One Year, $5.00

HY-BID CLUB GUESTS AT McCLELLAND HOME

Hy-Bid club associates enjoyed the hospitality of Irene McClelland on Thursday evening when she entertained in her home on Dewey avenue informally at cards. Lovely prizes for bridge fell to Mrs. Harry Hildebrand and Miss Blanche Lorenze while Mrs. Ralph Young was presented the hostess gift.

Mrs. Milton McHattie shared as a special guest of the evening.

In concluding festivities, the hostess served a cooling menu of refreshments, with Mrs. Oscar Leonhardt assisting. Seasonal tones prevailed throughout. Following, a discussion was entered into concerning plans for a picnic outing, the details to be announced.

L. O. L. I. 129 Picnic

L. O. L. I. 129, will hold a basket picnic at Cascade Park Saturday evening, July 11, at 6:30. The affair will be for all members and their families. Arrangements are in charge of Mrs. Margaret Shaner, Miss Myra Parks and Mrs. Mary Shaner.

REPORT BANDITS BATTLE ITALIANS

Hear Report Of Fierce Battle Along Railway Line In Ethiopia

(International News Service)

ROME, July 10.—Italian government officials refused to be surprised today at reports from Ethiopia of a furious all-night battle in which Black Shirt troops beat off native bandits who cut the Addis Ababa-Djibouti railway.

Authorities denied the fighting, announced in an official communique, indicates a general rising by Ethiopians against their Fascist conquerors. They termed it merely brigandage which, they said, must be expected.

The Ethiopians, it was stated, tore up rails of the line while attempting to hold up two supply trains enroute to Addis Ababa from Djibouti. They also cut telegraph wires before they were repulsed by the troops.

MARKSMANSHIP

Love shot an arrow in the air—
And now it's getting in my hair.

The professors got a wonderful break. Think of having a Supreme Court to correct your blunders before examination day.

Economic reform comes slowly because we forget about it every time we get our pockets full again.

Hears Convention In Foreign Legion

Captain Edgar Hamilton Tunes In Republican Convention In Algeria

They don't go much for political conventions in Algeria, but to a former New Castle man there, Captain Edgar Hamilton, the Republican convention in Cleveland in June was a bit of back home.

In a letter received by Captain Hamilton's mother, Mrs. Harriet Goodman, of the Guerard apartments, he states that he picked up the convention proceedings by radio. Sitting in his room in Tabessa, Constantine, Algeria, Captain Hamilton tuned in the convention so clearly and so loudly that he had to reduce the volume to enjoy it properly.

Captain Hamilton has been with the French Foreign Legion in Algeria for many years. Four years ago he was home on leave and hopes to return again next summer.

Following his return to service four years ago, he was badly wounded but recovered.

FIRING SQUAD EXECUTES UTAH MURDERER

Triple Slaying Penalty Is Paid

Delbert Green Is Executed For Crimes Which Occurred In 1930

FIGHT FOR LIFE WAS UNPRECEDENTED

(International News Service)

SALT LAKE CITY, Utah, July 10.—Delbert Green, 26, convicted slayer of three persons, died before a firing squad in the Utah state penitentiary yard here at 5:10 a. m. today.

Green was the first convict to face a firing squad behind the state prison walls in a decade.

Green's fight for life was unprecedented in criminal annals of the state. In March, 1930, he was convicted and sentenced to death. Three times he appealed, once for a sanity hearing. Three times he lost. The pardons board denied his plea for commutation of sentence. Finally, as a last recourse, his mother, Mrs. Lillie May Alexander, obtained a reprieve from Gov. Henry H. Blood last January. A second attempt to have the execution delayed failed.

Under Utah law, the only one like it in the country, Green had his choice of execution by hanging or shooting. He declined to choose, and the court selected shooting. In this it followed precedent set by 19 of the 20 condemned slayers executed since the law was enacted in 1896. The 20th murderer chose hanging because he said it cost the state more money than shooting him.

Green ran amuck after a domestic quarrel near Kaysville, Utah, on January 30, 1930, killing his wife, his uncle and mother-in-law and turning their country home into a shambles.

MT. HERMON

CHURCH NOTES

Sunday morning, July 12, Sunday school at 10:30 o'clock, followed by preaching services at 11:30. Rev. Clifford Pollock in charge of the services.

RECEIVERS TO OPERATE MINES AND STORES

BUTLER, Pa., July 10.—Petitions for two receivers to continue operations were granted by Judge John H. Wilson on Thursday. Martin A. Reiber, who since August 4, 1931, has been receiver for the Butler Consolidated Coal company, was granted right to operate the company's mines for 60 days beginning July 29, 1936, the date when the present grant expires.

The petition of Roy Campbell and J. A. Winters to continue the operation of the Main Drug Stores, Inc., for 60 days was granted by the court. The present grant expires July 24.

Library Books

—And Comments

(By the Free Public Library)

The social security legislation of the past 14 months is most satisfactorily covered in a series of pamphlets recently received by the public library. Included are the following:

1. The message from the president recommending this legislation.
2. The report to the president of the committee on social security.
3. The text of the bill with its provisions summarized in a chart.
4. Regulations on the excise tax on employers.
5. The status of public assistance legislation in the states.
6. Actuarial factors in state unemployment compensation plans.

There are also explanations of the pensions for the blind and the aged and federal state co-operation.

This material has come from Washington in several installments and may be consulted at the Free Public library.

Boy Injured In Fall From Horse

GROVE CITY, July 10.—Roy Wheeler, 12 year old son of Mrs. James Armstrong, Harrisville, is a patient in the City hospital, suffering with a fractured skull. Roy was riding a horse, which bolted, throwing him off, causing the fracture. He is in a critical condition.

PLAINGROVE

READING CIRCLE MEETS

The Plaingrove Reading Circle met at the home of Mr. and Mrs. Frank Adams on Friday evening with a large attendance. This was the musical program for the year. The program was in the hands of the following committee: Mrs. Pearl Stevenson, Mary Sankey and Margaret Offutt. Music was furnished by the Plaingrove orchestra. The program follows:

Reading, Isabelle Adams; trumpet duet, John McNulty and Harold Offutt; vocal duet, Ralph Cunningham and Grace Cunningham; piano duet, Mary and Helen Sankey; vocal duet, Laura and Mildred Brown; piano solo, Hannah Prudence Eckles of South Pasadena, Calif.; piano solo, Agnes Peebles; music, orchestra.

The hostess served a delicious lunch, assisted by her aides. There were about 14 special guests.

The next meeting will be with Mr. and Mrs. Seth Neeley.

CIRCLE MEETING

The Rainbow Circle of the U. P. church met at the home of Misses Mary and Helen Sankey. The program was:

"Our Rural Regions," Agnes Peebles; "The Challenge to the Christian People," Mary Sankey; "Dr. and Mrs. H. L. Findley," Hannah Louise Peebles; "Pioneers Among the Latins of Florida," Gertrude McKissick; "Three Messengers of His," Dorothea McKissick; "The Covered Doorway," Luella Pollock.

PLAINGROVE NOTES

Mrs. Mae McConahy spent Wednesday in Youngstown.

Miss Isabelle Adams has gone to New York to spend the summer.

The London grange will have charge of the program on July 14 at the Plaingrove grange hall.

Miss Mary Shoaff is spending a few days at the home of Mr. and Mrs. Edwin Goodman, Jr., of Pittsburgh.

Mrs. Herbert Wallace and Mr. and Mrs. Edwin Goodman of Pittsburgh motored to Adrian, Mich., to be in attendance at the Hoffman reunion held at that place.

Mr. and Mrs. Alvi Stevenson had for their guests over the week-end Mr. and Mrs. Bert O'Conner of Albion, Msr. Elizabeth Grubbs and daughters Blanche and Olive, Mr. and Mrs. G. F. Grubbs and family, Mr. and Mrs. James Marks of Youngstown, Mr. and Mrs. Albert Sloan and Mr. and Mrs. Wilbur Sloan of New Castle.

DIES FROM INJURIES IN AUTO ACCIDENT

SHARPSVILLE, Pa., July 10.—Mrs. Dorothy Hipple, 30, of Mercer avenue, injured in an automobile accident near Hubbard, O., June 13, died in St. Elizabeth's hospital, Youngstown, Thursday. Funeral services Saturday. Burial will be in West Middlesex.

NAVAL NOTES

By M. L. NIXON
Naval Recruiter, Second Floor Federal Building

During the last great conflict the German submarines were causing such terrible havoc on marine shipping that the ships by the score flocked to Malta for protection. However, there were no fighting ships at Malta to protect them so the British painted hundreds of oil drums and strung them across the harbor to deceive the sub-marine commanders into believing that they were mine and net anchorage. U-boats hovered about while their commanders looked longingly at the fine ships and cussed the string of buoys not daring to risk suicide to reach their prey. The amusing part was that this camouflage was more effective than the real mines and nets in use at Otranto. All ships during the war utilized some form of painted camouflage for their protection. At the present time every ship in the Navy is painted a light grey.

During the summer of 1918, a detail of 106 enlisted men of the U. S. Navy, recruited from the oil fields of this State, and four officers including a doctor, laid a 9 inch, all screwed, fuel oil pipe line along the Clyde Canal, in Scotland, from Glasgow to the Firth of Forth, approximately 36 miles. Later the Firth of Forth was to see one of the greatest spectacles of modern times. The surrender of the German High Sea fleet on November 21, 1918. The German fleet steamed in between two rows of allied ships about five miles apart and anchored. That evening the German colors were lowered on the ships, never to reappear on the high seas.

SECONDARY SCHOOLS

HARRISBURG—A review of the annual secondary school classification reports submitted to the Department of Public Instruction shows a trend toward reorganization. At the end of the present school term, 1935-36, one school was closed, ten new schools were established, thirteen schools extended their program of studies, and sixteen changed their official classification through reorganization. These modifications bring the total of secondary schools in the state to 1,244—an increase of ten over the 1,234 secondary schools for the previous year.

Boy Scout Camp Opens Saturday

Ready To Launch Camp Phillips Season Tomorrow; Casillo In Charge

Camp John M. Phillips, Lawrence county Boy Scout camp on the banks of Slippery Rock creek a short ways from Rose Point, will open for the 1936 season tomorrow. Both "troop camping" and "mass camping" will be offered.

At a special meeting of the camping committee of the council last night final plans for the opening were made. Attending were Chairman William G. Ayres, Dr. B. M. Rogers, Nicholas R. Casillo, the camp director Ralph F. Davis and Miss Grace Cummings, office secretary.

Some of the activities which will be conducted at camp are tennis, mushball games, nature and campcraft projects, swimming and boating.

Visitors' night will be on Thursday evening each week.

Courts of honor will be held at camp Friday evening, July 17, and Friday evening, July 24. Scouts will receive awards for their advancement in scouting while at camp.

Morrison Quits Reserve Board

(International News Service)

WASHINGTON, July 10—Under date of July 9, the white house announced today that President Roosevelt has accepted with "real regret" the resignation of Ralph W. Morrison, of Texas, as a member of the Federal Reserve Board.

Morrison's resignation was tendered several weeks ago. During the last presidential campaign he contributed $75,000 to the Roosevelt cause. The highest personal donation on record for the party. He was a member of the U. S. delegation at the London economic conference, and is a close personal friend of the chief executive.

Recover Horse Which Wandered

State police officer in charge, Al Knudsen, reported today that troopers recovered the horse which belongs to A. S. Moore, Clenmore boulevard, on the Joseph Hassan farm, Graceland road. The latter claims the horse strayed to his farm.

HUNTING COW

State Policeman McCullough today was searching for a red cow which disappeared from the place of Lawrence Fee, Union township.

POLICE BAFFLED BY SLAYING OF CHICAGO MAN

(International News Service)

CHICAGO, July 10—Discarding a theory state representative John M. Bolton was "put on the spot" in an outbreak of a gambling war, police today investigated the possibility he was murdered by surviving members of the Al Capone syndicate.

The legislator was almost decapitated by a blast from a shotgun early yesterday. So thoroughly and quickly was the slaying performed, eye-witnesses were unable to determine the number of men in the murder car which roared away.

Bolton, police recalled, participated in the organization of a group of tavern owners after the legalization of beer, and it was considered he may have incurred the enmity of members of the Capone beer syndicate attempting to control the legal beer business.

SISTER TURNS ON DEFENDANT

Rattlesnake-Drowning Murder Case Takes Another Unusual Trend

(International News Service)

LOS ANGELES, July 10.—While lawyers fought stubbornly to prevent the introduction of his purported confession, Robert S. James, on trial for the rattlesnake-drowning murder of his seventh wife, still reeled today from testimony that his own sister has turned against him.

The blunt statement of the sister, Mrs. Lottie Wright Smith, of Alabama, that "it's immaterial to me what they do with him" featured her deposition, read at James' murder trial, while his lawyers were engaged in what was declared to be a "defense filibuster."

Mrs. Smith is the mother of Lois Wright, the 18-year-old niece James has been convicted of corrupting and the deposition revealed the tragic change in Mrs. Smith's attitude toward the younger brother she once adored.

U. S. VACANCIES TO GO UNFILLED

(International News Service)

WASHINGTON, July 10.—Various important vacancies in the government establishment will remain unfilled until after President Roosevelt's return form the two-week vacation trip upon which he is embarking tonight, the executive stated today.

Among the more important jobs open are those of comptroller-general, assistant secretary of the navy, the entire board of five of the new maritime commission, and several judicial posts.

ROCKEFELLERS SELDOM PICTURED

Mrs. Abby Rockefeller Milton — Mrs. John D. Rockefeller, Jr.

Two Rockefellers who seldom are photographed—Mrs. Abby Rockefeller Milton, left, and her mother, Mrs. John D. Rockefeller, Jr. They are seen at Versailles, France, during a visit to the Versailles Chateau, recently restored with a Rockefeller grant.

SOUTH CHINA MOVEMENT IS NEAR COLLAPSE

(International News Service)

CANTON, China, July 10.—Apparent signs of collapse of the southern Chinese movement against the Nanking central government were seen in the desertion today of the first Kwantung army, stationed on the southern border of Kiangsi province, to Nanking.

Gen. Chen Chi-Tang, Kwantung leader, sent one of his most trusted generals with a large force of troops to disarm other disaffected soldiers.

Electrification Of Rural Areas Takes Big Jump

Rural electrification in this district has taken a big jump during the past six months, according to officials of the Pennsylvania Power company, a total of 41 miles having been built and 155 customers given service.

During June, 10 miles of line in the rural district were constructed and in the same month 38 rural customers were furnished service.

Practically one third of the farms in the territory served by the Pennsylvania Power company now are being served with electricity.

It is believed that within the next few years there will be few farms not served with electricity in this district by the Pennsylvania Power company, officials report.

Demand Twelve 'Rebel' Unions Be Suspended

(International News Service)

WASHINGTON, July 10.—Brushing aside peace efforts, the metal trades division of the A. F. of L., 500,000 strong, today demanded that the federation suspend 12 unions aligned in the "rebel" C I O drive to unionize the steel industry.

The demand was made in a six-page statement slated to be delivered late this afternoon to the A. F. of L. executive council, which is debating suspension of the insurgent unions, by John P. Frey, president of the metal trades division.

Fur Fashion Show Thursday

Annual Display Is Presented At New Castle Dry Goods Company

Contrasting the present torrid temperatures, the New Castle Dry Goods company held its annual fur fashion show Thursday afternoon at 2:30 on the second floor. Artificially cooled air made the guests forget the heat outside as they admired the beauty and design of the fur coats that were modelled by employes of the store.

Practically everything in fur coats that will be worn this coming season were shown. Lapins, seals, caracauls, fitch, squirrel, Alaskan seal, eastern mink, raccoon, ombre beaver, pony, Mendoza beaver and many others were included in the show.

Perhaps the feature of the show was the appearance of an Alaskan seal cape and muff in logwood shade, and an evening wrap of the same materials that were displayed. These were featured in the recent fur fashion show held in the Waldorf-Astoria hotel in New York and then sent on to New Castle.

Flowers and palms decorated the platform upon which the coats were displayed and music added to the tone of the occasion. The very fact that a fur fashion show was in such direct contrast to the weather seemed to attract the crowd of guests present.

Roosevelt Will Reveal Campaign Plan After Trip

(International News Service)

WASHINGTON, July 10.—President Roosevelt's personal campaign plans will be revealed following his return from his vacation cruise to the Roosevelt camp at Campo Bello on the Bay of Fundy, he stated today.

The executive indicated, however, that he did not plan to do much campaigning in August.

He declined to say whether he contemplated a transcontinental swing in September. The president will leave Washington tonight on the holiday jaunt.

Correct this sentence: "If we were in power," said the politician, "we wouldn't use public funds to influence voters."

NATION'S DEATH TOLL FROM HEAT WAVE PASSES 250

(Continued From Page One)

temperature in New York was 87 and climbing fast, with every indication of another torrid day.

In Washington, D. C., where the temperature was 104, three deaths were reported. There were seven deaths in Connecticut with no relief from the heat in sight, the highest reading in that state yesterday being 101 in Middleton.

Seven died in the Ontario heat wave, with Toronto registering a high of 104.

Highest In Nation 115

The highest temperature in the nation yesterday was 115, set in the desert near Riverside, Cal., Aberdeen, S. D., had 113. Michigan again sweltered with 35 deaths reported in the state. A temperature of 105 was recorded in Columbus, with a higher reading expected today. Twenty two were dead in Chicago where a near 100 temperature prevailed.

In the meanwhile, Iowa sat back in disappointment. The long-awaited rains which, it was hoped, would be sure to save the great corn crops arrived, but were too light to do much good, and the mercury quickly shot back up to a 106 high at Washington, Ia.

The federal government pushed ahead its drought-relief program, with President Roosevelt scheduled to confer with his aids in Washington today, and hear reports on what has been done to aid the estimated 204,000 farm families in need of immediate relief.

Another Torrid Day.

Chicago, July 10.—A merciless sun pepped over a cloudless horizon today to renew its incessant burning of an already parched and tortured nation.

"Generally fair and continued warm," was the general forecast for today as government meteorologists predicted the record-breaking heat will continue for at least two or three more days.

The stifling blanket spread over the eastern seaboard yesterday, where an estimated 20 deaths brought the nation's total near the 250 mark.

Scattered showers brought momentary releif to sections of the drouth belt, but the precipitation was of negligible value to the seared fields.

Government Forecaster J. R. Lloyd foresaw the possibility of light showers today in North Dakota, Minnesota and Wisconsin, where only torrential downpours can benefit burned crops and livestock starving on barren pasturage.

Fires Rage.

Raging forest and prairie fires added to the misery of the sorely-stricken area. In the Black Hills near Sundance, Wyo., 1000 fire fighters are struggling to halt flames which have already destroyed 60 square miles of timber land. At Escanaba, Mich., a force of 700 men was being mobilized today to fight a fire in the upper Michigan national forest.

The heat continued taking a staggering toll of plant, animal and human life through the Mississippi valley.

All hope of harvesting even a partial grain crop went glimmering in South Dakota as temperatures mounted over the 100 degree mark for the eighth consecutive day. Gov. Tom Berry estimated between 40,000 and 50,000 farm families will be dependent next winter.

Situation Desperate.

The situation in North Dakota and Montana was described as equally desperate.

Declaring the continued heat has caused a marked decrease in milk production, dairy farmers of northern Illinois and southern Wisconsin are demanding higher prices for their milk. W. H. Schendorf of Dundee, Ill., declared milk production is off 20 to 30 per cent. Milk production in Minnesota has dropped from 25 to 50 per cent.

The Illinois corn crop was estimated to have suffered 25 per cent damage already, and agricultural experts declared only heavy rains coming soon can prevent failure of the late corn and oats crops.

One hundred degress temperatures continued in Iowa, where rain fell in but four counties yesterday, causing further damage to crops.

The situation was unchanged in Kansas, Missouri, Nebraska, Oklahoma and Minnesota, where soaring temperatures continued scorching the once-green fields.

Grasshopper Horde Threatens.

In Arkansas a new grasshopper horde threatened serious damage to crops.

Through the Dakotas and Montana the insects left the stripped and baked fields and gorged on leafless trees, fence posts and even clothing hung on washing lines.

A $12,200,000 federal appropriation for emergency water control and drouth relief projects in the once-fertile Red River valley was asked of President Roosevelt by planning board officials of North and South Dakota and Minnesota after a three-day conference in St. Paul.

From Washington came the announcement of a three-fold plan to relieve the drouth sufferers. WPA employment was authorized for 20,000 farmers in southern states; reduced freight rates were decreed for shipments of cattle from Montana to pasturage in other states, and a year's moratorium on rehabilitation loans made to farmers in counties designated "emergency drouth areas was declared by the Rural Rehabilitation Administration.

Many Records For Heat Are Broken

(International News Service)

WASHINGTON, July 10.—Record-breaking temperatures were reported by the weather bureau today for Pennsylvania and New York as the extreme heat wave continued to hold sway from Virginia and Kentucky over the entire middle west and northwest with no rains in sight except in New England.

All past heat records were broken yesterday at Scranton, Pa., with 102; New York City, 102; Binghamton, and Ithaca, N. Y., 104; Erie, Pa., 98 and Toronto, Canada, 104. Philadelphia tied its record of 102.

Temperatures ranged from 100 to 106 from Virginia and Kentucky westward and northward to the Rocky mountains and the Canadian border.

IN USE

First Neighbor—May I use your telephone?

Second Ditto—Certainly! Is yours out of order?

First Ditto—Not exactly, but my sister is using it to hold up the window; ma's cutting biscuits with the mouthpiece, and the baby is teething on the cord.

The Sticks is a region where every business failure produces another candidate.

MAKES INQUIRY ABOUT HEADLESS SKELETON HERE

Chief of Police Ralph Criswell today received from Chief of Police H. J. Harrington, Carteret borough, N. J., a description of the headless remains of a man found recently in a box car at the junction, West Pittsburg. However, the local chief will not be able to give any description due to the condition of the body.

The New Jersey police official read of the finding of the remains and said he desired the information because on April 4, 1934, two cousins, (names not given), were lured by a fake telephone call to a lonely spot. A pool of blood and their automobile was found. Since the telephone call nothing has been heard or seen of the cousins. The chief suspected that the remains of man found here may have been one of the Carteret Borough, N. J. missing men.

Sunlight which enters buildings through closed windows has virtually no power to destroy germs, says Dr. John H. Wright, New York bacteriologist, because glass stops nearly all ultra-violet light.

SCOTT'S SCRAPBOOK by R. J. SCOTT

Shower At Noon Gives Respite

Intense Heat Broken By Light Rain With Promise Of More Relief Later In Day

THUNDER STORM JUST MISSES CITY

Temporary respite from the terrific heat which has swept the district was gained at noon today, when a light shower was noted in the downtown section of the city. New Castle missed a thunder storm, which seemed to pass around to the north. There was promise of showers later, however, as cloud banks continued to mass in the western skies.

At the City of New Castle Water Company plant, where the official temperature is taken daily for the government, the high temperature of the morning was 94.5 degrees. When the shower came, the mercury dropped to 79, but bounced back up to 85 at 1 o'clock, an half hour later. Eight-hundredths of an inch of rainfall was recorded there, but in the city, it only drizzled for a while.

It did not seem as if yesterday's near record temperature of 100 would be reached during the day, but it was plenty hot this morning and people continued to suffer.

Boake Carter Says Freedom Issue At Stake

(International News Service)

PHILADELPHIA, July 10.—Boake Carter, Philadelphia radio commentator and defendant in a $100,000 slander suit brought by Gov. Harold G. Hoffman of New Jersey today challenged the governor to move his suit to "a neutral state—the state of Pennsylvania".

Carter characterized as an assault upon "freedom of the air" the governor's filing of an action for slander and defamation at Trenton, the New Jersey state capital. The suit charged the news broadcaster with maligning the chief executive for his activities in the Hauptmann case last March.

"The issue here," Carter declared, "is freedom of the press and freedom of the radio. The essence of honest, truthful journalism is to report as the journalist sees and honestly believes are the facts."

Minister Greatly Benefited by Thompson's Barosma Tablets

"I have used Thompson's Barosma Tablets and find them a very fine medicine. They were not only beneficial to my kidneys and bladder, but also to my stomach and liver," writes Reverend J. Bass of Titusville, Penna. If you have any distressing pains or aches which you cannot understand, or feel all run down and out of sorts, it may be a sign that either the kidneys or intestines are not eliminating properly but are allowing poisons to remain in the body.

Thompson's Barosma Tablets will clean out your kidneys and help them to do their vital work of eliminating poisons from your system. Put an end to these mysterious aches and pains and restore your health. Golden-Lax Tablets should be used to regulate and tone up the liver and bowels. Thompson's Barosma Tablets 50c, Golden-Lax Tablets 25c, at New Castle Drug Co., and all drug stores.

SAYS WHEAT ACREAGE CUT

Kansas Legislator Surprised At Statement Issued By Administration

(International News Service)

TOPEKA, Kans., July 10.—Representative Clifford R. Hope, of Kansas, ranking Republican member of the house agricultural committee, charged in a statement issued today that the administration is now, in the face of the drought, "intimating" that its program called for increased wheat acreage this year when actually it asked for a five per cent reduction.

"It was with some amazement," Hope said, "that I read of President Roosevelt's press conference this week on the drought situation in which he pointed with gratification to a 10 per cent increase in the wheat acreage and a corresponding increase in corn planting.

"Last fall the administration asked winter wheat producers to reduce their acreage five per cent. The administration avowed an intention to remove 30,000,000 acres of corn, small grains and other commercial crops.

"Until the president spoke, no intimation had come out of Washington that the administration had any other idea in mind than a reduction in these crops.

"It will be hardly safe for the farmers to count on this, for if the drought should suddenly break, the president no doubt would want to issue another statement to fit the change."

HUNT BOTANIST MISSING THREE DAYS IN SWAMP

(International News Service)

WOODS HOLE, Mass., July 10.—Missing three days, Botanist William G. Marquette, Jr., 22, Pleasantville, N. Y., was the object of a wide search through nearby marshy wooded sections today.

Young Marquette, attached to the Marine Biological laboratories here, left early Tuesday on a bicycle to collect specimens from ponds and inland waters in Beebe woods, Falmouth.

The youth's father, former Columbia and University of Wisconsin professor, arrived to aid in the search.

GRASSHOPPERS INVADE PART OF ARKANSAS

(International News Service)

LITTLE ROCK, Ark., July 10.—Arkansas farmers today were faced with another scourge besides the blistering heat as swarms of grasshoppers invaded the north section of the state.

"The situation is probably the worst in recent years," C. C. Randall, acting assistant director of the agricultural extension service, said today, after attending a meeting in Fayetteville.

Recent rains temporarily checked the invasion in some sections, but county agent O. T. Osgood at Paragould said the rain there only caused the insects to change their diet—eating cotton plants before the rains, but now they were operating on meadows and pastures.

Blytheville housewives even felt the results of the pest invasion with the grasshoppers reported feeding on clothes hung out after washing.

A control program is being formulated now with a tentative allotment of sodium arsenate from the federal bureau of entomology as an important factor, Randall said. The chemical, if it can be obtained, will be distributed to the distressed counties, through their own county agents.

Mass Killing At Indiana Harbor

Man Kills Former Roomer, Six Children And Self In Killing Orgy

(International News Service)

INDIANA HARBOR, Ind., July 10.—Celestino P. Gonzales, 36-year-old steel worker, hacked his six children to death with an ax to save them from shame and dishonor which he felt would be their lot, after he had slain a former roomer in his home and taken his own life, translation of a note found in his pocket revealed today.

Police attributed the mass slaying to Gonzales' mad jealousy of Jose Haro, 36, former roomer in the Gonzales home.

The note found in Gonzales' pocket read:

"With pain in my heart I gave death to all of my children. I had planned to let them live, but then I thought of the shame and dishonor that would remain with them after I kill Haro and myself."

Gonzales shot and killed Haro in a locker room of the Inland Steel company plant here yesterday. Then he took his own life.

GYPSY MUSICIANS FORM TRADE UNION

(International News Service)

BUDAPEST. — Thrown out of work by wireless and jazz, 6,500 unemployed Hungarian gypsy musicians are making plans to unite.

Out of about 8,000 musical gypsies in Hungary, only 1,500 are in permanent employment. The rest intend to organize a grand orchestra of nearly 300 players. They will then ask permission from the government to play in public gardens and before distinguished visitors to the country.

The all-gypsy newspaper is assisting in this "Gypsies Unite" campaign.

"We must put an end to gypsy artists having to shovel snow and attend soup kitchens," states an editorial. "Century-old musical instruments must no longer be in 'uncle's care'."

REPEAT PARADE FOR DEMOCRATS

(International News Service)

PHILADELPHIA— Bedecked in gay and fantastic costumes, 10,000 men will march up Broad street June 24 to repeat this city's famed annual New Year's parade for the benefit of visitors and delegates to the Democratic National Convention here.

The marchers will be members of special clubs whose sole purpose is to stage the annual carnival that marks the advent of each new year in Philadelphia. An out-growth of neighborhood celebrations of mid-Victorian days, the parade now is divided into string band, comic and fancy dress divisions and competes for prizes offered by the city. Cloth capes a full block long and borne by more than 100 pages are featured by a number of the marching clubs.

2,000 WRECKED CARS ARE PILED IN HIS BACK YARD

(International News Service)

WINSTED, Conn.—What do they do with old automobiles people usually ask when passing the last resting place for hundreds of relics.

The answer is they are being accumulated until enough are on hand to be worth savaging.

Irwin W. Johnson has been dumping cars over a cliff back of his garage here for eight years and now has the biggest pile in the country. More than 2,000 wrecks are in the 100-feet high pile.

And somewhere in the center of the heap is the Rolls Royce which Andrew W. Mellon used for years in riding around the streets of Pittsburgh. It was sold to Charles H. Talcott, of Hartford, who used it for years before Johnson bought it for $35 or less than its cost of registration.

Each car salvaged is first burned to dispose of the wood. Then it is stripped of tires, aluminum and other metals. The tires go to Naugatuck to be reclaimed; the iron is sold to foreign countries, either Italy or Japan, and the sheet medal is pressed into 500 pound bales in Waterbury by a hydraulic press.

To salvage such a heap of cars workers require 100 tanks of acetylene and 700 tanks of oxygen.

"I crank my car," writes a poet, "and go forth to meet the Summer." Don't you mean Thumber?

NO DECISION ON CLARK'S APPEAL

(International News Service)

PHILADELPHIA, July 10.—The state superior court adjourned today until the fall term in September without handing down a decision on the appeal of State Senator William H. Clark (R) of Chester county, convicted of attempting to barter his legislative influence in exchange for state liquor store insurance contracts.

Uncle Sam Will Protect Huge Gold Supply

Heavily-Armed Military Screen To Be Thrown Around Kentucky Vaults

ARMY MANEUVERS TO CENTER THERE

By ROBERT G. NIXON
International News Service Staff Correspondent

WASHINGTON, July 10.—Uncle Sam, who owns more gold bullion than any other nation, is going to take no risk for its safety.

An elaborate, heavily-armed military screen will be thrown around the new subterranean bomb-proof treasure vaults, now nearing completion at Fort Knox, Ky., next month.

A short while later transfer of some six billion dollars in gold bullion from the treasury in Washington and vaults of the Federal Reserve bank in New York will begin.

Maneuvers of the second army, which will pivot around Fort Knox, were seen here today as the laying of the groundwork for protection of the nation's gold supply in the event of some future invasion.

The war game at Fort Knox will be held August 1-15 and at Camp Custer, Mich., August 8-22. Between 40,000 and 45,000 regular army and national guard troops will participate.

Strategy of the maneuvery will be to concentrate the second army and then operate to meet and repel an imaginary enemy movement from east and south of Ohio, West Virginia and Kentucky.

The Fort Knox site was chosen for its location near the geographical center of the national and comparative invulnerability from approach by any foreign foe, safe from attacks from the air or land.

The maneuvers will see in action the First Cavalry, the army's only mechanized regiment. Other units participating will include the 10th Brigade, regular army; the 37th Division, Ohio National Guard, the 38th Division, West Virginia, Kentucky and Indiana National Guard, with cavalry and special troops under command of Brig. Gen. Dana T. Merrill.

More Strikes Are Reported In France

Order Of Minister Of Interior And Threat Of Armed Force Challenged

(International News Service)

PARIS, July 10—In defiance of Minister of Interior Roger Salengro's threat that "unarmed force" would be used to break them, still more occupation strikers broke out in various parts of France today.

Workers occupied three plants in Strasbourg, including aviation firm establishments.

Proprietors of the plants immediately called on the prefect of police, demanding the strikers be expelled.

All garages and automobile accessory stores at Limoges were occupied, and several thousand workers were on strike there.

Salengro called a meeting of all police prefects of departments where strikes exist for tomorrow at the ministry of interior. Police measures will be discussed.

SEVENTH WARD NEWS

Civic Band Concert On Sunday Evening

Seventh Ward Civic Band To Give Concert At Local Park

On Sunday evening at 6:30 o'clock the following program of music will be presented by the Seventh Ward Civic band, under the direction of Victor Gaspare, at the North Liberty street park:

March, "Regimental Youngsters," by Fucik.

Overture, "Barber of Seville," by Rossini.

Valse Espagnole, "La Serenade," by Metra.

Selection, "Carmen," by Bizet.

Trumpet solo, "Stabat-Mater," by Rossini, played by Victor Gaspare.

"Dance of the Hour," by Ponchielli.

"The Star Spangled Banner."

Rev. J. G. Bingham To Preach Tonight

Rev. J. Greer Bingham, pastor of the Wampum Presbyterian church, will be the guest speaker tonight at 7:45 o'clock in the Mahoningtown Presbyterian church at a service preparatory to communion.

After the meeting the session will assemble; choir practice is also scheduled.

Communion service will take place next Sunday morning at 11 o'clock.

Bible Class Has Breakfast At Park

Presbyterian Class Has Breakfast At Cascade Park On Thursday

Forty guests attended the annual breakfast of the S. C. W. Bible class of Mahoning Presbyterian church, held Thursday morning at Cascade park.

A delicious menu was served promptly at 8:30 in the grove. The committee in charge of the arrangements included Mrs. George Cook, Mrs. D. C. Schnebly, Mrs. Frank Holiday, Mrs. W. F. McClurg, Mrs. Dietrich, Mrs. Thomas Foster and Mrs. J. A. Beard.

The next regular class meeting will be on August 13, the place to be announced later.

Methodist Society Enjoys Breakfast

Ladies Aid Society Has Breakfast At Cascade Park On Thursday

On Thursday morning members of Mrs. W. J. Taylor's section of the Ladies Aid society of the Mahoning M. E. church, gathered at Cascade Park for a breakfast.

Places were laid for seventeen members at a table in the grove, as a delicious menu was served at 9 o'clock. The remaining hours of the morning were spent at the pool.

The committee in charge included, Mrs. W. C. Shanafelt, Mrs. Fred Flowers and Mrs. M. B. Olmstead.

FORMER RESIDENT DIES

Word has been received of the death of B. W. Mercer of Chicago, a former resident of this ward. He leaves his wife, Jessie, and two children, Josephine and Britton, Jr. Funeral services were held Thursday at 3 p. m. in Chicago.

CIVIC CLUB TO MEET

Members of the Seventh Ward Civic Club will meet on Monday evening at Horchler hall. The time is 8 o'clock. This meeting is of great importance and all committee members are asked to be present.

SEVENTH WARD PERSONALS

R. E. Hart of Youngstown, O., visited friends in the ward Thursday.

Bill Kelley of Youngstown, Ohio, was a caller in the ward on Wednesday.

Mrs. Verne Vandenburg, Canton, O., has concluded a visit with Mrs. R. H. Highfield, West Madison avenue.

Steve Duda of West Madison avenue spent Wednesday at Darlington Lake.

Mr. and Mrs. O. C. Kerr and family of West Cherry street, spent Wednesday at Darlington Lake.

Mrs. John Daly and daughter, Helen, of North Lafayette street, are visiting in Pittsburgh today.

Mr. and Mrs. Chester Johnston of Canton, Ohio, have been visiting for the past few days at the home of Mr. and Mrs. J. M. Yates on West Madison avenue.

Mrs. Hilda Lawson of 509 West cherry street has returned to her home from Erie where she has been visiting.

Mrs. W. O. Morris of Parkersburg, W. Va., is visiting at the home of Mr. and Mrs. P. G. Gormley on West Clayton street.

Mr. and Mrs. Henry H. Hubbard of Washington, D. C., are visiting at the home of Mrs. Frank Cangey on South Ashland avenue.

Mr. and Mrs. Henry Hubbard of Washington, D. C., and Miss Mary Pompane of Ashland avenue visited in Mansfield, O., on Thursday. They plan to continue on to Cleveland and Chicago for a short vacation.

Body Of H. L. Dunlap To Arrive Sunday

Word was received today by former mayor William H. Dunlap of Court street, that the body of his deceased brother Harry L. Dunlap would arrive here on Sunday morning from Van Nuys, California where death occurred early in May.

No announcement was received as to the funeral arrangements, but it is thought that the body will be held until Monday. Mr. Dunlap was a former business man of New Castle.

BACTERIA WITHIN METEORS MAY BE SOURCE OF LIFE

(International News Service)

LOS ANGELES—Tiny bacteria riding meteors speeding 10 to 50 miles a second through space may have been the source of life on earth.

That question provoked considerable discussion during the convention here of the Society for Research on Meteorites.

Dr. Charles B. Lyman of the University of California at Berkeley, read a paper in which he described the elaborate precautions taken by him to keep "foreign" bacteria from a meteorite when he cracked it open.

After the meteorite had been opened under sterile conditions Dr. Lyman examined the broken fragments and found—life!

The tenacity with which the spatial bacteria clung to life may be imagined, Dr. Lyman pointed out, when it is realized the tremendous heat generated by the friction of the air as the speeding mass entered the earth's atmosphere.

The temperatures of mice change with even slight variations in their surroundings. If some one walks by the place where they are, their temperatures rise several degrees.

Aunt Dead, Niece Lived With Body For Three Weeks

(International News Service)

PARIS.—"I was the dress-maker of Sarah Bernhardt!"

This was the most frequent boast of a little, white-haired old lady, Madame Caillez, the details of whose death have recently shocked all Paris.

Living alone in a small apartment here, she was suddenly stricken with paralysis, and her niece, a tall blonde named Madame Louis, came to take care of her.

The two women lived together for about two mon hs and seemed very happy. Then, one day, the neighbors noticed two curious things—one was a queer odor which was especially strong near the fifth floor where the women lived, and the other was that Madame Louis began to exhibit signs of insanity.

Opening her window on a rainy morning, she climbed out on the window sill and stood up with her arms crossed, fixedly regarding the crowd below. Police were called, and two officers went up to her apartment and knocked at the door. Madame Louis opened the door but refused to allow them to enter, shouting:

"Leave me alone; this home is filled with crazy people— I am persecuted by everybody—go away."

Realizing she was demented, the police left but returned a few minutes later with the precinct captain. They forced open the door and, despite the vehement protests of Madame Louis, went into the bedroom where they discovered the body of Madame Caillez. She had been dead three weeks, according to the coroner.

During all this time, Madame Louis, crazed with grief, had lived beside the body, refusing to allow anybody to enter. She is now in an asylum where it is thought she is gradually recovering her reason.

Nazi Campaign For Colonies Has New Chief

(International News Service)

MUNICH — General Ritter von Epp, doughty Bavarian Nazi leader, has been appointed to the task of steering Germany's campaign for the return of her lost colonies.

He eclipses Dr. Schnee, former governor-general of German East Africa, who has been active in post-war Germany in keeping this question alive through the German Colonial Society. The latter has now been dissolved and its functions have been taken over by the colonial department of the National Socialist Party.

The colonial question, under its new management, will have at its disposal wider financial resources and consequently greater operating facilities, so that a vigorous colonial compaign can be expected Headquarters for the colonial movement henceforth will be in Munch

It is reported also that Herr Keppler, Nazi economic and financial advisor to Hitler, has been charged with development of trade relations between Germany and the colonies

WEEDS

HARRISBURG—Canada thistle, quack grass, wild carrot, wild mustard and ragweed are the five most common and perhaps most noxious weeds growing on farms in this State, the Pennsylvania Department of Agriculture reports.

You can tell the officers from the racketeers in the news picture. The officers aren't covering their faces.

New Old Age Assistance Law Features Presented By Lawrence Co. Board

Instructions have been received by the Mothers Assistance Board of Lawrence county covering the new Old Age Assistance Act which was passed recently by the general assembly of Pennsylvania. The new act is similar in general design to the old one but there are some new features which the board desires presented to the general public.

Under the new act the total old age assistance that can be received by one person is $30 per month the same as the old act but in the case of a wife the new act calls for $30 also, instead of the $15 provided before. In other words, an old couple each of whom is over 70 can draw a maximum of $60 per month if they qualify and the funds are available.

Under the new act it is required that the applicant for old age assistance be a citizen of the United States and must have resided in Pennsylvania for five years out of the nine preceding the application. The applicant must be 70 years of age or more, but on and after December 31, 1939 the age limit drops to 65 years.

To be eligible for old age assistance the applicant must have less than $300 in funds. Where the applicant owns his home but is indigent, the applicant signs a lien against his property so that the state can recover the amount of the assistance granted from the proceeds of the home when it is sold. All beneficiaries must sign this agreement as well as the applicant who owns the property.

As an example of how the Old Age Assistance Act now works the following hypothetical case is cited. Mr. and Mrs. John Doe are each past 70 years of age. They have no means of support, have less than $300 in cash but own their own home. They have a son and a daughter each of whom is married and neither of whom is able to contribute to the support of their parents.

Mr. and Mrs. Doe are eligible for a total pension of $60 per month. half of which is paid by the Federal government and half by the state. In order to get the pension or such part of it as the funds on hand justify being paid, Mr. and Mrs. Doe must sign a lien to the state and this lien must also be agreed to in writing by the son and daughter. Should Mr. and Mrs. Doe both die, the state then has a claim against the property for the amount of the assistance given. For example if they have received $1000 in assistance and the house is sold at their death for $2500, the state collects its $1000 and turns $500 back to the Federal government.

The Mothers Assistance Board has about 800 cases on hand that have not received grants due to lack of funds. At the present time the board is composed of Mrs. Lena F. Gilmore, Hillsville, president; Mrs. Stella Haines, Ellwood City, vice president; Mrs. Laura Miller, New Castle, secretary; Miss Clare Duff, New Castle, treasurer; and the following other members, Mrs. Blanche W. Sampson, R. D. 3, Volant; Mrs. Frances H. Tomasson, Ellwood City. There is one vacancy on the board due to the resignation of Mrs. Grace Womer Crawford on May 1. Mrs. Anna Yoho is the office secretary of the board with headquarters in the welfare building on Court street.

One section of the new act takes the board employes, clerks, or investigators completely out of politics. None of the persons mentioned can attend a political convention as a delegate or alternate delegate, neither can they attend a political meeting designed to advance the interests of a party or a candidate, nor can they serve on an election board or be within fifty feet of a polls on election day save for the purpose of casting their own ballot.

DESPITE BROKEN BACK, GIRL EARNS OWN LIVELIHOOD

GRAND RAPIDS, Mich.—Neither infantile paralysis nor a broken back has kept 21 year old Emma Lucas from earning her own living.

Struck down with paralysis when a child she conquered it sufficiently to win a dancing contest later. Then an automobile accident sent her to a hospital with a broken back.

After a year at the hospital she was brought to the Mary Free Bed Guild, an adjunct to the Blodgett Home for Children. As soon as she was old enough to hold a book and pencil she took up a business course she has begun before her accident. Today she holds the position of office assistant in the orthopedic department. A shelf has been built over the arms of her wheel chair so she can more easily do her daily work in the office.

Tent Hall News

AID MEETING

Mrs. F. A. Montgomery was hostess Thursday to the Ladies Aid of Mahoning at her home.

There was a good attendance, several visitors being present, among them former church members, Mrs. Jessie Edgar and daughter and Mrs. Roy Jamison of New Castle.

A delicious dinner was served at noon and the afternoon spent in a social way.

TEN HALL NOTES

The King's Daughters met on Thursday with Mrs. Larmar Carlisle.

Mr. and Mrs. Carl Diefiendifer of Struthers, O., visited John Kuhn on Sunday evening.

Mr. and Mrs. C. E. Campbell and daughters spent Sunday afternoon with Youngstown friends.

Bobby Cunningham and Boy Syler motored here from California, arriving the evening of July 3.

Miss Ethel Billock of Youngstown called on Mrs. Grace Kuhn and other friends Sunday afternoon.

Mr. and Mrs. Joseph Kuhn motored to Greensburg, Pa., Friday and spent the week-end with her sister.

Marion, Frank, Paul and Emma Grace Kuhn of Edenburg were week-end guests of their mother, Mrs. Grace Kuhn.

Mr. and Mrs. George Allen and family attended a family gathering the Fourth at the home of her father, Edwin Porter, near Pulaski.

Mr. and Mrs. F. A. Montgomery called on Mrs. Nelson Phillips in Youngstown the Fourth and found her condition remaining about the same.

Mr. and Mrs. Earl Cover, A. J. Taylor and Mr. and Mrs. Elmer Baird and family attended the Taylor reunion the Fourth at the Chas. Witherspoon home in Enon Valley.

Of interest to many is the arrival of a little son, named Russell Baird, Thursday, July 2, at the home of Mr. and Mrs. Russell Troupe in Johnstown. Mrs. Troupe will be remembered as Frances Baird.

My New York By James Aswell

Copyright, 1936, Central Press Association

NEW YORK, July 10. — "It's amazing," said the young man in the blue pants and the ascot shirt, "that you can spend your time writing about such trivial things. I'd think you would echo at least a few of the new voices that are sweeping the land. The American Youth Movement, for example."

All right, I'll go serious and tell him—and you, if you're still reading—what I think of the American Youth Movement. I think it is the bunk.

It is the bunk because it is based on a false promise. It assumes that the human race is cut up into sharply differentiated segments according to age. It assumes that the interests of youth and the interests of age are different; that older people "don't understand" and that the viewpoint of the young must be constant and their aims capable of simple statement in behalf of all of them.

If what the leaders of 'youth movements" say is true were really true, their "cause" could succeed only by insuring the darkest frustration for all the young people who so bravely battled to bring their ends, social, economic and political, about. For if it were true that the interests of youth and the interests of age were so sharply at odds, then success of the Youth Movement would only assure all its members an old age of bleak collision with a society dominated by youth.

Even the leaders of youth movements must grant that in time they and their followers will cease to be young. And there, really, you have the most cogent objection to the banding together of youth, as youth, for the attainment of ideals which they—thinking and acting admittedly as young people—believe desirable. That is the trouble with the Youth Movement: there is no future in it.

Here in New York you hear a lot of loose talk about youth being "for" this or "against" that. But if there is one thing sure about the human mind it is that it does not form its prejudices, react to its envies and adjust its hates according to age groups. After the age of about sixteen boys and girls do not even pick their heros out of a common, healthy callowness. Usually they pick them because of the influence, subtly or overtly exercised, of some older person with whom they are in contact. They pick them, indeed, with about the same independence the average American woman exercises when she retires into the little green booth to vote.

You can't erect a philosophy or even build an intelligible "movement" on a social strata which is subject to constant and violent flux. The Youth Movement leader with silver hair and magisterial build is only absurd and, although the ranks may be recruited anew from burgeoning hosts of fanatics, the captains and major-generals of any successful popular agitation must stay in their jobs long enough to learn them.

Some of the same vulnerability pesters the lads who espouse Communism and its allied dogmas of organized envy. By the very nature of their creed, they are unable to get leaders who remain on their side of the fence in the fabulous "class war" of which they prate. As soon as a truck driver or banana vender with a mellow voice is raised to the leadership of the party and gets his paws into the party treasury, he becomes an economic royalist of the first water; and a faint note of insincerity as he bellows against the "haves".

Thus the folk who make proletarian anti-success whoopee and the boys and girls of the youth movements have failed, in the first case, to provide for the demoralizing accident of success in the case of their leaders; and, in the second case, the apostles of youth have failed to provide for the fairly inevitable onset of age. And both groups seek to parcel out the human race with an arbitrariness equally preposterous.

Tomorrow: Back to Broadway.

THE PARENT PROBLEM

By Garry C. Myers, Ph. D.

TRAINING FOR MARRIAGE

There are many organizations engaged in parent education. The one which aims to help co-ordinate all of them so as to work together most effectively is the National Council of Parent Education. Its director is Dr. Ralph P. Bridgeman.

Any organization seeking advice on procedure or literature in regard to parent education can get it free by writing to Director Bridgeman, 60 East Forty-second street, New York City.

A member of this organization myself, I recently lunched with Dr. Bridgeman, when I asked him what the place of the schools of tomorrow will be in parent education. His reply, in part, was about like this:

"Long ago the trades and professions in which a man earned his living were learned through apprenticeship...Today apprenticeship has been displaced by vocational and personnel education in the schools.

"In the past girls and boys (to a certain extent) have learned the arts and techniques of family life and parenthood in their own homes. But the home is becoming less and less effective as a means for learning these responsibilities.

"Reasons: Fewer and fewer homes have children of different ages so that the older may learn by helping in the care of the younger, and the younger helping in the care of their nieces and nephews...High schools keep young people away from home for long hours. Recreation is centered at some place outside the home. When young people get jobs they commute long distances, or even move into a distant city.

Family Life Changes.

"Patterns of family life are changing rapidly from generation to generation. What was once an acceptable way of caring for children, with growth of knowledge, has been superseded by a better way.

"Mothers want to do more things nowadays...having less time with their adolescent children....Many parents nowadays are perplexed by changing standards and by the new difficulties under which they must bring up their children: uncertainty of income, commercialized recreation and the like....Therefore it is probable that there will be even less learning from one's own parents in the future.....

"Who will take responsibility for the preparation of young people for the responsibilities of marriage, family life and parenthood?....The schools. And the schools have not widely embraced this opportunity.

"There is no greater challenge facing American education today than the need of young people for preparation for family life, marriage and parenthood."

WILL HEAR DR. HUEBNER

A delegation of New Castle life insurance men will go to Pittsburgh on Tuesday, July 14 to attend a dinner meeting at which Dr. S. S. Huebner, University of Pennsylvania professor and president of the American College of Life Underwriters, will speak. The Pittsburgh chapter of the Chartered Life Underwriters is sponsoring it.

Father: "Mabel, isn't that young man a bit fast?"

Mabel: "Yes-s. But I don't think he'll get away."

FIRST U. S. WOMAN SKIPPER FINALLY TURNS LANDLUBBER

(International News Service)

TORRINGTON, Conn.—The nation's first woman skipper, the former Mrs. Jennie E. Crocker, has married again, this time chosing Rev. Elisha L. Sawyer, pastor of the Congregation church here, instead of a seafaring man.

It was on her first wedding trip in 1910, that she learned sailing. Her husband, Nelson A. Crocker, who died in 1930, was a skipper of the four masted schooner, Annie R. Heidritter, and under his direction she handled the ship for 60 days.

When she returned she continued instructions, finally getting her master's papers. In her twenty years of married life until Crocker died, she spent only five months on land. Now she's Mrs. Sawyer and a landlubber.

Edenburg News

SHOWER FOR BRIDE-ELECT

Fourteen were present at the home of Mrs. Charles McCullough on Wednesday evening, when she entertained in honor of Miss Helen Unangst, a bride-elect of this month, with a miscellaneous shower. Games, music and social chat were the evening's diversion. Mrs. Belle Mitchell was a special guest. In serving lunch, the hostess was assisted by Mrs. Claude Bonnett and Miss Stella Hes. The bride-elect received a collection of lovely and useful presents.

Landon Victory Scented By Former Gov. Lowden

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

TOPEKA, Kans., July 10.— Declaring Governor Alfred M. Landon appealed strongly to the farmers of America, former Gov. Frank O. Lowden of Illinois on Thursday afternoon expressed high hopes of a Republican presidential victory in November.

Here for a conference with the Republican presidential nominee, Lowden declared the Republican situation was improving daily. He was accompanied by former Senator Otis Glenn, of Illinois, who shared his enthusiastic endorsement of Governor Landon.

Governor Lowden said:

"Governor Landon already appeals strongly to the mid-west, to the farmer and to the countryside as a whole.

"The action of the Cleveland convention is being received most favorably. That goes for the party platform as well as the nominees.

"I am very hopeful of Republican victory in November. I'm very certain the situation is improving from every standpoint all the time."

Senator Glenn added: "The situation looks very bright in Illinois from a Republican standpoint. I believe Landon and Knox will carry the state. One thing is certain, national prospects of a Republican victory are very much better than six weeks ago and are improving daily."

Lowden and Glenn came here to confer with Landon over the farm program to be incorporated in the Republican nominee's acceptance speech.

Enforcement Of Milk Control Act Aim Of Action

Milk Control Board And Margiotti Launch Drive For Enforcement

(International News Service)

HARRISBURG, July 10.— The State Milk Control Board and Attorney General Charles J. Margiotti today launched a double-barreled drive for enforcement of the State Milk Control Act.

The board issued orders to its investigators to arrest all milk dealers who have not applied for licenses by July 20 or who have failed to file required bonds within 10 days after the bond has been required.

Margiotti, pointing out the milk act has been upheld by the State supreme court, called upon district attorneys and judges throughout the state for "speedy justice" in acting upon prosecutions against milk dealers and on appeals which have been taken in courts of record.

"In order to maintain the price structure for dairy farmers throughout the commonwealth and to protect them from any unfair or abusive practices by milk dealers, every effort is now being made to bring violators to speedy justice," Margiotti wrote. "Your cooperation is urged to the end that the appeals listed in your courts may be heard speedily and expeditously."

The drive came simultaneously with reports that a score of rural Democratic legislators, dissatisfied with enforcement methods of the board, had held a "behind-the-scenes" inquiry into the matter.

Testimony reportedly taken in the presence of administration officials was to be presented to Gov. George H. Earle with a demand that the board adopt a policy of cooperative action. Disagreement between Dr. Howard C. Reynolds, stormy petrel of the board, and Harry J. Polikoff, chief counsel, was given as the basis for the expected demand.

Find Newlyweds Unconscious

(International News Service)

SAN FRANCISCO, July 10.—Arthur Reynolds Jr., son of the prominent San Francisco banker formerly of Chicago and his bride of three weeks, the former Georgia Barmon of New York, were near death here today from large doses of a powerful sedative.

They were found in night clothes in their Golden Gate avenue apartment.

Physicians at Emergency Hospital were unable to restore the pair to consciousness after several hours medical treatment.

Hall To Attend Credit Gathering

Will Map Plans For State Convention Of Credit Bureaus On Sunday

Ray F. Hall, manager of the New Castle Credit Bureau, who is president of the Associated Credit Bureaus of Pennsylvania, will leave tomorrow for Lebanon, Pa., where he will attend a meeting of the officers and directors of the state association.

Plans will be made at this time for the annual convention of the state association, which will take place in Philadelphia.

Appointment For Irvin R. Gibson

(International News Service)

HARRISBURG, July 10.—Appointment of 45 persons to state positions and the dismissal of three others was disclosed today in personnel change sheets. Appointments included:

Highway Department—Alfred Savolaine, New Castle, draftsman $1,380; Irvin R. Gibson, Neshannock township, Lawrence county, $1,380; Lee R. McCloskey, Erie, engineer, $2,100.

Property and Supplies—Alfred D. Gill, Eldred, McKean county, floor finisher, $1,020.

APE ANCIENT GREEKS IN CRIME DETECTION

(International News Service)

PHILADELPHIA — An ancient Greek device of making plaster molds from tracks left by criminals is being used in modern crime detection, Major Thomas Coulson of the Franklin Institute, revealed recently.

"Finger prints made from plaster casts of hands are often so similar to prints taken from actual fingers that experts are unable to tell the difference," he declared.

"Moulage—or moulding or making casts," he said, "has been an adjunct of criminal chasing since the days of ancient Greece when desecrators of a temple were caught by casts made of their footprints."

The prosperous bachelor has to be honest. He can't put his property in his wife's name when he gets in a tight place.

Confidence Vote Is Given

Premier Blum Is Supported On Question Of Aid To Soviet Russia

WILL SURRENDER MILITARY SECRETS

(International News Service)

PARIS, July 10—Graphically illustrating the red complexion of France's so-called "popular front" regime, the socialist government of Premier Leon Blum won a large vote of confidence in the chamber of deputies today on the issue of surrendering French military secrets to soviet Russia.

The chamber voted confidence in the government by 403 to 162—the largest majority Blum has yet received—and rejected a motion by rightest deputy Henri De Kerillis to investigate action of the government in turning over a secret French gun to the soviets.

The gun in question is "Cannon 23." De Kerillis has charged air minister Pierre Cot with violation of French military secrets by giving plans of the gun to Moscow.

"Cannon 23," a gun with a special invention for shooting between the blades on an airplane propellor, is part of the equipment on the French air forces "flying fortress."

Cot had refused to explain his order for turning over plans of the gun to Moscow when he confronted the chamber of deputies' aviation commission. The order to give plans of the gun to the soviets aroused a storm of protests in the French army.

Cot said he would make his explanation to the full chamber, and his opponents charged him with doing this in order to be certain of "popular front" support rather than face the objections of military technicians.

LEESBURG NEWS

DORCAS SOCIETY MEETS

Carrie Baughman pleasantly entertained the Dorcas society at her home on Wednesday. The day was spent in a social way. At noon a delicious tureen dinner was served by the hostess assisted by Christina Ryhal, Elizabeth Colman, Mrs. Sam Oakes and Mrs. Charlie Bunny. After dinner a devotional and business meeting was conducted by the president, Mrs. Wm. Drake. Guests for the day were Mrs. Carmen Hawthorn and children, Christina Ryhal, Mrs. Sam Oakes, Mrs. James Oakes, Mrs. Frank Palmer, Mrs. Melvin Lewis, Mrs. Lewis Colman and daughter, Rev. Wm. Lloyd and family and Mrs. Anna Finney of New Castle.

Mrs. William Kelley will entertain the society at the church on Wednesday, August 12th.

LEESBURG NOTES

Mrs. Anna Finney of New Castle is the guest of Esther Clinefelter.

Helen Foster is spending several days with Pauline Peters at Jackson Center.

Dorothy Crawford is spending several days with Betty Stone at Grove City.

Virginia Hayne is spending several days with Mr. and Mrs. Walter Butler at Balm.

Robert Heasley, Jr., of Wheatland, spent Sunday with Mr. and Mrs. Andy Culver.

Lois Palmer is spending her vacation with her brother, Rev. Gerald Palmer at Bethel, O.

Paul Hoffman of Grove City spent several days with Mr. and Mrs. Charlie Bunny.

Mr. and Mrs. Taylor Anderson, Milt Anderson and Josephine Ketler, spent Tuesday at Butler.

Mr. and Mrs. Harold Armstrong and family, of Warren, O., spent the week end with relatives here.

Harry Book and family, of Pittsburgh, were recent visitors with Mr. and Mrs. Ralph Cunningham.

Mr. and Mrs. Clark Parshall of Ellwood City, spent Sunday with Mr. and Mrs. Taylor Anderson.

Harry Montgomery and daughter, of Grove City, Francis Montgomery of Harrisville, Leona Sholler and Bob Mahn, of Volant, were Sunday visitors with Mr. and Mrs. Raymond Sholler.

Mr. and Mrs. Lewis Colman and daughter, spent a day with Mr. and Mrs. Robert Kilgore, at Hendersonville.

Morris Barton of Pittsburgh, Mr. and Mrs. John Allcott and son Paul, of Cleveland, O., Mrs. Neal Snyder and daughter and Clyde Eaken of Breeksville, O., spent the week end with Mr. and Mrs. Bion Brown.

New Wilmington News

BAN ON FIREWORKS

Stressing the point that the shooting of fireworks in New Wilmington is becoming more dangerous each year, Burgess Wallace McKean recommended to the borough council members that a ban covering both the sale and use of fireworks in the borough be placed on fireworks next year.

Council members agreed with Burgess McKean and are now making plans to pass an ordinance forbidding the selling and using of fireworks anywhere in the borough limits.

PLAYGROUND IS IDLE

Since members of the borough council declined to take out an insurance policy to cover the playground at the local park ,the Community Chest officials, who purchased equipment for the park last year, are not able to put the equipment in use, and at the present time New Wilmington children are without a public playground.

Council members, however, agreed to lease the playground portion of the town-owned park to the Community Chest for the sum of $1 for the summer, making it so that the chest officials would have to take all responsibility of accident on the playground. Community Chest officials have not yet decided whether they will lease the land or not.

AT CAMP MEADE

Paul Means, son of Mr. and Mrs. Dave Means, and Kermit Patton, son of Mr. and Mrs. H. R. Patton, left Tuesday morning for Camp Meade, near Baltimore, where they will spend a month in military and athletic training.

Camp Meade is one of the several camps owned and operated by the C. M. T. C. and is affiliated with the United States army . Several young men from this locality applied for admission but Mr. Means and Mr. Patton were the only ones accepted.

LOCATION ARROWS AID PILOTS

Airplane pilots who are flying over New Wilmington now have a very efficient way of getting their location—by merely glancing down at the side, flat roof of the Market street garage.

Painted on the roof in 12-inch white letters are two arrows, one pointing north and one pointing southeast toward New Castle. One the New Castle arrow is painted the letters N. C. and near the arrows is a large "New Wilmington" painted. The work was sponsored by national government officials.

NEW CHURCH ORGANIST

Miss Mary Patterson of New Castle is organist at the local United Presbyterian church, substituting for Mrs. Agnes Skillen, who is on a leave of absence.

Miss Patterson, a graduate of Westminster college with the class of 1935, was an organ student of Professor Gordon Balch Nevin.

NEW WILMINGTON NOTES

Mr. and Mrs. Robert F. Galbreath, Jr., are spending a week camping near Leeper, Pa.

Mac Johnson, who underwent treatment at the New Castle hospital, has returned to his duties at the post office.

Mrs. Guy McCrumb and son Guy are spending the week at the home of her parents, Mr. and Mrs. Keller, in Ellwood City.

Miss Adelaide McCrumb has returned home after spending several days at the home of Miss Jean Patterson, New Castle.

Mr. and Mrs. John McCandless have returned to their home after spending the past three weeks in Albuquerque, N. M.

Cheerful loser: A hateful guy who tries to make the winner's victory seem unimportant.

Man Had Brick in His Stomach for 10 Years

One man here in New Castle stated that for 10 years he felt like he had a brick in his stomach. This feeling was due to the lump of undigested food he always had inside of him. He was weak, worn-out, headachy, swollen with gas. Recently he started taking the new, double-acting stomach alkalizer, called WHITE SWALLOW—the scientific formula of FOUR (4) different remedies for the relief of common stomach distress. This man said the feeling like a brick in his stomach disappeared the first day. He is free of headaches now, never bloats up with gas and the worn-out feeling is gone.

Acts in Minutes

WHITE SWALLOW neutralizes acids in the stomach, expels gas, relieves pain, bloat, swelling and headaches. Relief usually comes in FIVE minutes or less. Not habit-forming like soda, and pleasant to take.

Costs So Little

Best of all WHITE SWALLOW costs less than 1c a day. So it would be unfair to yourself to suffer. We want the public to know about this new, scientific remedy because it has helped just about everyone who has taken it.

Glass Of Water Best Cure For A Good Many Diseases

(International News Service)

VIENNA.—"For quite a number of diseases there is no better medicine, than a glass of water," said Professor Karl Glaessner, famous Vienna specialist for internal diseases, in a lecture here before the Society of Physicians.

Professor Glaessner claims to have achieved striking results with distilled water in cases of kidney and liver troubles and also in certain cases of high blood pressure.

"Many physicians considered it to be harmful to drink distilled water," expounded the professor, "but this is not the case. On the contrary, I found, that distilled water is a very efficient and reliable method of eliminating salts and nitrogen compounds from the blood and tissues. By giving only distilled water to drink, I cured a great number of patients suffering from kidney and liver affections, such as uraemia, stone colic and jaundice. After a short treatment with distilled water, the skin and urine lost their abnormal color, a general improvement followed, and there were no harmful complications."

"The treatment is very simple. The patient must drink one to two liters of distilled water a day, according to the nature of his complaint either cool or hot, one or two glasses before each meal. It is advisable that the patient should afterwards lie on his right side for about 20 minutes, by which time the water has left the stomach."

BONDED AGAINST SEEKING OFFICE

(International News Service)

PRESQUE ISLE, Me.—Roland T. Patten, resident here since 1930 and for fifty years a resident of Skowhegan, has posted a bond of one thousand dollars as insurance against his running for public office.

In the event he does seek office the money will be paid to the Skowhegan Public Library.

He gave as his reasons for the strange action: "If I can convince my friends that they never will be asked to vote for or support me in a political campaign, they will be more free to express their innermost feelings, more ready to read and study public affairs and perhaps more ready to be guided by my opinion."

CERTIFIED POULTRY

Poultry inspectors of the Pennsylvania Department of Agriculture certified 8543 hens in eight flocks last month. They made seventy flock and hatchery inspections, seven record of performance inspections and 263 fresh egg law investigations.

WEEDS CAUSES LOSS

HARRISBURG, Pa.—Weeds cause an annual loss of approximately $24,000,000 to Pennsylvania farmers according to Dr. E. M. Gress, head botanist of the State Department of Agriculture This loss is reckoned in increased labor costs, increased wear and tear on machinery, decreased yield, decreased value of farm products, reduced market value of the farm, loss of livestock killed by poisonous and injurious weeds.

GRADED APPLES

HARRISBURG—By selling well graded apples Pennsylvania growers have during the past ten years reduced the demand in this State for western apples by 50 per cent, J. Hansell French, secretary of Agriculture reports.

HARVARD STYLES FOR TERCENTENARY

(International News Service)

CAMBRIDGE, Mass.—This year Harvard boys celebrate the tercentenary of the university in white shoes, unmatched pants and jackets and close-cropped hair.

A century ago their predecessors strolled the spacious yard and relaxed in Harvard Square taverns in a fancy-colored, lace "toga," which ended somewhere in the region of the knees.

A rare relic of Harvard lore, one toga will be in exhibit during the tercentenary. It was worn by the Rev. D. G. Haskins, class of 1837 nephew of Ralph Waldo Emerson.

The toga was a Harvard institution from 1825 to 1850. Students wore the laced frock to informal exercises and in their leisure time

Lawrence County Farms And Farmers

By H. R. McCulloch, County Agent

GRAIN FEEDING TO COWS ON PASTURE IMPORTANT

Lawrence county dairymen should watch their pasture and cows closely in order that feeding may be continued according to the cows' needs.

Pasture grass in May and early June may be entirely different in feeding value than the grass available for cows in midsummer. Early pasture grass is relatively high in protein but when bluegrass and other pasture grasses become more mature the protein content is cut practically in half. The amount of grass available also is usually very much less and this condition must also be taken into consideration.

With these changes in mind, the wise dairyman will plan his grain feeding accordingly. During the early pasture season with plenty of protein available, a low protein grain mixture (about 12 per cent) is sufficient. The main consideration then is to hold the flesh on the heavier producing cows. By midseason, however, the protein content of the grain mixture should be stepped up to 16 to 20 per cent, depending on the quality and quantity of grass available.

The rate of feeding is one pound of grain for each four to six pounds of milk to low testing cows and one pound of grain for each three to five pounds of milk to the higher testing cows. There can be no set rule for feeding grain on pasture because of the variation in quality and amount of grass a cow can obtain. If ever a dairyman needs to exercise good judgment in feeding grain this is the season.

Spring-freshening cows that are producing heavily should be watched carefully. If they get down in flesh and production during the latter part of the pasture season they will go into fall production at a disadvantage and the cost of producing milk will be increased materially.

Dairymen who have planted green feed, such as soybeans and sudan grass, are in a much better position when their pastures get short. They can feed less grain, which in turn will materially reduce their cash outlay.

GOOD SPACING HELPS STRAWBERRY GROWING

Recent studies conducted by G. M. Darrow, of the United States Department of Agriculture, have brought out some interesting and valuable facts about growing strawberries.

For instance, he finds that runner plants in the "matted row" must be rather widely spaced in order to give the largest yields. Where the plants were spaced 30, 4, 1.8, and 2-3 of a plant to the square foot, the yields were respectively 42, 119, 131, and 99 bushel crates of marketable fruit per acre. Not only the largest yields, but also the largest berries were obtained with the wider spacing.

Darrow also tested the keeping quality of the berries grown under crowded and well-spaced conditions. He found that after one day's holding 26 per cent of the berries from the crowded plants showed some decay, while only five per cent of the fruit from the well-spaced plants was so affected.

Plants which are not crowded develop more leaves during their first growing season and show more leaves, more flowers, and more berries the following spring.

Applying these facts to strawberry culture in Pennsylvania, we may have to do more thinning out or cutting of runners in late summer, especially on very good soil and in good growing seasons, in order to prevent the runner plants from getting thicker than about six to nine inches apart.

We should avoid injury to any of the early runners, since it has been shown that the earliest runners to take root are by far the most productive the next season.

Bearing in mind these several points, it appears that the best way to grow strawberries is to set them out early in spring on a good fertile soil, force strong growth early in the season in order to get a full row of plants as early as possible, and cut off all later runners after the row is full of plants spaced six to nine inches apart.

DIP SHEEP FLOCKS TO KILL INFESTING TICKS

Feeding high-priced grain to sheep ticks is an expensive practice. Ticks not only reduce the vitality of the sheep but injure the quality of the fleeces.

This condition can be avoided in the coming years by dipping flocks now. The sheep should be dipped twice, the second operation following the first in 15 to 20 days. The second dipping is necessary to kill ticks hatched after the first dipping. Any good commercial preparation will kill ticks if porperly used.

A dipping vat is necessary. It usually is placed near the sheep barn where an adequate water supply is available. The most popular tank is vertical on one end and sloping on the other end. The sheep can leave such a tank without much assistance from the operator.

A tank frequently used is 10 feet long at the top, five feet long at the bottom, 22 to 24 inches wide at the top, 10 inches wide at the bottom, and four to four and one-half feet deep. Dipping tanks can be made from lumber, concrete or galvanized iron.

The dipping tank should be set so that the top of the tank is flush with the floor of the holding pen. The dripping pen is located at the sloping end of the tank. The floor of the dripping pen may be either lumber or concrete. It should slope one-fourth inch to every linear foot.

CURB ROSE DISEASES WITH DUST OR SPRAY

Black spot and mildew are appearing in many rose planting. If left unchecked these diseases are likely to cause defoliation by mid-August.

Defoliation of roses not only reduces the bloom the rest of the summer but also weakens the bushes and makes them much more susceptible to winter injury. Both mildew and black spot can be controlled by weekly application of fungicides.

Both dusting sulphur and 4-4-50 bordeaux mixture have been found effective in controlling these diseases. Particular care should be used to spray or dust the under sides of the leaves as well as the top. Where either disease is already present it may be necessary to make two applications of dust a week.

CULL SMALL BIRDS FROM PULLET FLOCK

The rigid culling of the small and undersized birds during this present growing season should accomplish two purposes. Such culling reduces losses in the first year of production and eliminates many unprofitable pullets. Those "runty" pullets may be profitably disposed of as broilers.

Ample feeding space helps in developing a uniform flock of pullets. Most of the chicks should be able to satisfy their appetites at the same time. Early in the morning there is a scramble for the feeders. By the middle of the hot forenoon the majority of the birds are resting in the shade rather than eating at the mash feeders. This characteristic of birds makes it imperative that adequate feeding space be provided.

MAKE THE HOME SAFE TO PREVENT INJURY

While the home is regarded as a haven of safety, statisticians quote figures which show fatal home accidents nearly equal to automobile accidents. A large percentage of such deaths are those of children.

Most accidents can be prevented if the causes are removed, says Miss Mary Vogle, home economics extension representative. Much pain can be spared by removing a worn-out rug or carpet which may trip those who walk over it. That linoleum may need only cement or a tack or two to hold down an edge or corner and perhaps save a sprained ankle or broken bone from a fall. It also is best for safety to have the linoleum thoroughly dry after washing before walking on it.

Halls and stairs are scenes of many accidents. Small rugs at the top or bottom should be securely anchored. Stair carpeting, if used, should be firmly secured to the step and never slippery. A rail on one side of the stairway is a safeguard. Basement and other stairs sometimes present an array of brooms, mops, baskets, toys, and pails which block a safe passageway.

How many of you are guilty of standing on a rocker or on a pile of books in a chair or perhaps on an unstable table while putting up curtains or hanging a picture? Yes, perhaps you have done this without mishap, but many have not, for falls top the list of home accidents. Many of these have resulted in permanent injury; others have caused death, sometimes after painful suffering. It does not pay to take chances.

A strong, sturdy step-ladder is an essential piece of household equipment. For the long reach upward, take time to get the ladder and use it properly. Accidents may result when using the step-ladder unless the cross brace is securely pulled down.

Another precaution is to stand on the ladder so that you work toward the front instead of sidewise. Reaching sidewise often unbalances the weight.

All members of the family can cooperate in a safety campaign in the home. Children, especially, can share responsibility by keeping their toys and playthings from the paths of travel. Good order and systematic arrangement will do much to prevent accidents.

Proper lighting is a safety measure. Where electricity is used in the home, adequate switch facilities prevent many accidents. For the stairs, the light should be switched on and off at both top and bottom. All switches for electricity should be near the entrance to the room. In a bedroom there should be a light which can be controlled from the bed as well as one controlled from the entrance to the room.

In the bathroom, kitchen, or laundry, where one is likely to turn on or off a light while the hands are wet the chains from lamps should be eliminated and only well-insulated switches used. Worn or frayed cords on lamps and appliances are causes of burns and fires. Make it a habit to disconnect all electrical appliances immediately after using them. A metal rest for your iron will prevent a fire.

Exercising daily care may save expensive doctor bills, prevent painful injuries or permanent crippling, and perhaps prolong a life.

Americanism: Learning by bitter experience that Washington can't control the nation's morals; deciding to have Washington control the nation's business.

BESSEMER

CHURCH NOTES

The services of the First Presbyterian church for Sunday, July 12 are as follows: Sunday school 9:45, P. W. Griffin superintendent of Adult Division: Frank B. Beale superintendent of primary department; community Bible class 10; morning service and sermon at 11. Rev. W. J. Engle, minister.

The services at St. Anthony's church are mass at 10:45 with Rev. Fr. N. Pirulli, pastor in charge.

KUBUS-VINKLER

The wedding ceremony of Miss Margaret Kubus of New Middletown, O., and William Vinkler, of Petersburg, O., was performed around the altar adorned with flowers, by Rev Fr. N. Pirulli, pastor of the St. Anthony's church when the double ring ceremony was used. After the ceremony, the wedding dinner was held at the home of the bride, and the evening was spent in dancing.

WIENER ROAST

The members of the Setan Club gathered at the home of Miss Julia Pusnik, on Wednesday evening and held their regular business meeting which proved to be very lengthy. After the business session, the members were taken to the woods where a huge fire was built and a wiener roast was in progress. There were 14 members of the club in attendance.

BESSEMER NOTES

Mr. and Mrs. Frank B. Beale of Bestview announce the arrival of a daughter at their home on Tuesday afternoon. Both are doing nicely.

Oliver Engle underwent an operation for tonsils at Warren, O. Frances Griffin underwent an operation at Warren, Ohio; Shirley Kelley and Joan Donaldson at Columbiana, Ohio; Helen Montana, Jameson Memorial hospital, New Castle.

Mrs. Lee Donaldson and infant son Robert Stanley were discharged from the Jameson Memorial hospital and returned to their home on South Main street.

Harry W. Davidson, who underwent an operation for appendicitis in the Harrisburg hospital a couple of weeks ago, is improving very nicely although unable to return to his home.

Mr. and Mrs. P. E. Cauvel and family, Mrs. W. C. Burton of Franklin, Pa., motored here and spent the week end at the home of Mr. and Mrs. Frank V. Kelley and family. Miss Jane Kelley, who has spent the past two weeks in Franklin returned home.

Better Than Many Letters From Home

When you leave on a vacation even for a few days or a week or longer, you can have The News follow you. You can change your address as often as you want to. Orders must be left at The News office or with some authorized agent. You will enjoy your home paper while away from home. No phone orders—Cash!

A naturalist says only quadrupeds can sleep standing up. What about cranes and WPA workers.

Loses Life Trying To Save His Friend

ROCHESTER, Pa., July 10—Joseph Donne, 38, Monaca, employed as blacksmith by the West Penn Sand and Gravel Company, lost his balance and fell from a barge 10 feet into the Ohio river. Michael Dicklick, 26, of East Rochester, saw his friend struggling in the water and without undressing jumped to the rescue.

As Dicklich came up Donne, 60 pounds heavier, grabbed his rescuer, a fine swimmer in a tight grasp and both went down in the 20 foot hole.

The bodies were recovered 20 minutes later and physicians, firemen and a first-aid team of the Duquesne Light Company, worked three hours in a vain attempt at resuscitation.

Wealth always encourages sin. It it hard to use discretion if you don't have to get up and go to work next morning.

Garroway Is Given Honor

School Janitors And School Officials Honor His Long Service Record

HAVE PROGRAM ON SCHOOL LAWN

New Castle's school janitors and school officials gathered at the Ben Franklin Junior high school last night to do honor to their long-time colleague, Robert W. Garroway, retired July 1 after 36 years' service as a janitor for the school district.

The tribute began with refreshments served at a table set up on the school's rear lawn and closed with a musical program in the auditorium. More than 40 janitors and guests attended.

Superintendent of Schools C. C. Green, voiced the janitors' praise for Mr. Garroway and presented to him a handsome easy chair and foot stool as a token of their esteem.

"Now you have that well-earned opportunity to do just what you want to do," Dr. Green told Mr. Garroway, as he closed. The veteran janitor was applauded and then he thanked the group for the gift and for other considerations of the past.

Program On Lawn

The program on the lawn was presided over by S. G. Ligo, superintendent of buildings, grounds and equipment for the schools.

After the lunch the group filed into the auditorium and there enjoyed the musical program given under the direction of Bert Sanford, a member of the janitorial body.

Judy Sypher played the accompaniments as the different entertainers appeared for their solo or group offerings. Some sang, while others played instruments and the comic was mixed with the serious.

Fourteen-year-old Morris Allsop opened the show with a vocal number dedicated to Mr. Garroway, and then appeared Dave Jones, Archie Cubbison, Lou Sweet, Harry Wyman and others, including James Bowman, a Franklin instructor. Wyman, Bowman, Sanford and Cubbison contributed vocal solos. At intervals the audience sang numbers.

With the janitors last night were the two other retired janitors of the school district, John D. Snyder, Beaver, formerly at Oak street school, and Harry Jones, one-time Terrace avenue school janitor. They were introduced earlier in the evening.

Arrangements for the evening were in charge of Bert Sanford, chairman; Jack Kenehan, Lou Hogue and Frew Book. Mrs. John Morgan and Mrs. Frank Doyle assisted in serving the refreshments.

Mr. Garroway served as janitor for 30 years at the old Martin Gantz building on North Jefferson street and then for six at the North street school-administration building. He reached the retirement age of 70 on January 30 and finished his work at the close of the school year on June 30. He lives at 107 North Mercer street.

JOINT CAMPAIGN BY MAIL LEAVES CANDIDATES PALS

LONDON—Americans preparing for a presidential election may pause a moment to read of the friendliest election ever, just concluded at Hove, popular seashore resort on the English south coast.

The rival candidates sent out their election addresses in the same envelope. And it was only right and proper that when the poll was declared only two votes separated them—197 to 195.

Major E. F. Holland, retired, won the seat on the Hove County Council. The other candidate, Captain James Paul Creswick, also retired bore him not the slightest ill-will.

After the result, announced in the presence of only four voters, the candidates came out arm-in-arm.

They both declared it had been "an awfully good fight."

LIGHTING CONTRACTS

HARRISBURG, Pa.—The Public Service Commission has approved these street lighting contracts:

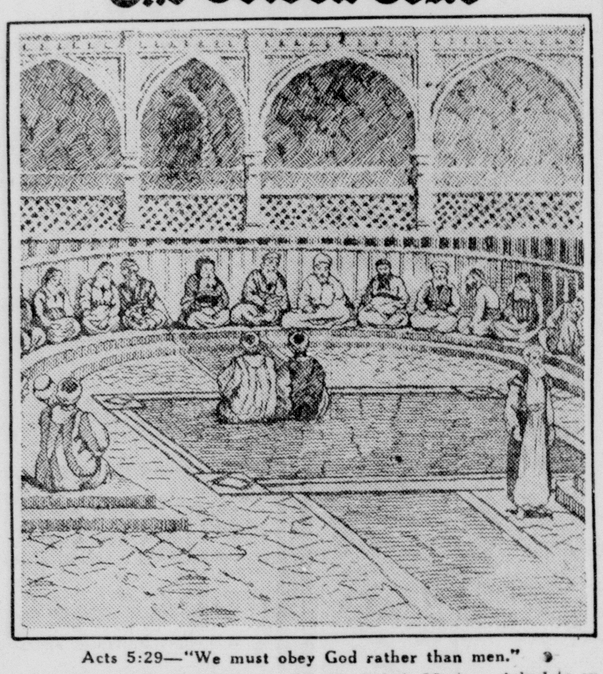
Bucks county—Borough of South Langhorne and Philadelphia Electric Company for five years.

Fayette county—South Union township and West Penn Power company for lighting streets in South Uniontown for five years.

Witnessing Under Persecution

"Brass Tacks" On The Sunday School Lesson

The Golden Text



Acts 5:29—"We must obey God rather than men."

By DR. ALVIN E. BELL

(The International Uniform Lesson on the above topic for July 12 is Acts 3:1-4:31 and I Corinthians 1:21-25, the Golden Text being Acts 5:29, "We must obey God rather than men.")

THE JERUSALEM BEGGAR, crippled from birth, had learned through 40 years of experience the charitable nature of religious folk. So he chose the gate of the temple as the most likely place in the city to beg for alms. Peter and John looked particularly promising to him. "Then Peter said, Silver and gold have I none; but such as I have give I thee: in the name of Jesus Christ of Nazareth rise up and walk. And he took him by the right hand, and lifted him up; and immediately his feet and ankle bones received strength. And he, leaping up, stood, and walked, and entered with them into the temple, walking and leaping and praising God."

Peter Explains The Healing

The amazement of the people gave Peter opportunity to explain the healing of the cripple. He wasted no time in getting to Christ in his sermon. Nor did he mince words regarding their sin in "denying the Holy One and the Just . . . and killing the Prince of Life, whom God raised from the dead . . . Repent ye therefore and be converted that your sins may be blotted out," he demanded of his hearers, with the result that "many of them which heard the word believed, and the number of the men was about five thousand."

Persecution Begins

The religious leaders of the temple were "grieved that they taught the people and preached through Jesus the resurrection of the dead," so they arrested Peter and John and brought them to trial before the very men who had tried and condemned their Master. Asked to explain the healing of the crippled beggar, Peter boldly replied, "Be it known unto you all that by the name of Jesus Christ of Nazareth, whom ye crucified, whom God raised from the dead, even by him doth this man stand here before you whole." He even ventured to suggest their need of Christ for spiritual healing, "neither is there salvation in any other: for there is none other name under heaven given among men whereby we must be saved."

"Obey God Rather Than Man"

The courage and ability of these plain, unschooled men forced their accusers to acknowledge the influence of Jesus in their lives: "They marveled, and took knowledge of them, that they had been with Jesus." They could answer neither the truth they preached nor the fact of the healed man standing befor them as "exhibit A" in their court. So they resorted to intimidation and the threat of persecution, and "commanded them not to speak at all nor teach in the name of Jesus." To which Peter and John replied: "Whether it be right in the sight of God to hearken unto you more than unto God, judge ye. For we cannot but speak the things which we have seen and heard." Thus those that have been with Jesus bear witness that Christ lives his life anew in them in every generation by putting truth ahead of personal advantage, living at all necessary cost in accord with their conviction that "Right is right, since God is God; and right the day must win; to doubt would be disloyalty, to falter would be sin."

PULASKI

SUNDAY SERVICES

Services held here on Sunday: Presbyterian: 10 a. m. Bible school. Supt. Marshall Scott: 11 a. m. church service, pianist, Mrs. Fred E. Wallace.

Methodist. Pastor, Rev. Earl Jay Jennings. 10 a. m. Bible school. Superintendent, Russell Michael, pianist, Martha Louise Bilger. 6:45 p. m. Epworth League, president Miss Evelyn Grell. 7:45 p. m. church service by the pastor. Text: "Why does God give light to a man at his wits end," Job 3:23. Moffatt, 1. Pianist, Mrs. Francis Taylor.

MISSIONARY MEETING

Mrs. Robert Garrett proved a very pleasing hostess to the members of Missionary society of the Presbyterian church, when they met at her home for their annual picnic on Wednesday. At noon a very elaborate dinner was enjoyed. The tables and home being attractively decorated with summer flowers. About 25 were present. Following dinner a business meeting was held with the President, Mrs. Garrett presiding. Miss Helen Rodgers conducted the devotionals and and Mrs. L. L. Rodgers was in charge of the program, subject "China and Southern Mountains." Those taking part were Mrs. Dora Cover, Mrs. Chas. Garrett, Mrs. Mary Jennings, and Miss Nell M. Paland. Special guests present were Mrs. Chas. Mitcheltree and Mrs. J F. Myers.

PULASKI NOTES

Mr. and Mrs. W. J. McCallister were New Castle visitors recently.

Mrs. John P. Clark, Mrs. E. Reese and Johnnie Wherry were callers on Mrs. Frank Waddington of East Brook.

Miss Georgiana Gurtner has returned home after visiting at the home of Mr. and Mrs. Aubrey Morgan of Windham, O.

Mrs. Dora Cover accompanied by Mr. and Mrs. Stewart Price of New Wilmington motored to Tionesta and spent the day recently.

Mr. and Mrs. Charles Riley, of Youngstown were callers on Miss Jessie Stitt and Chas. Stitt at Fotel Pulaski on Wednesday afternoon.

Mr. and Mrs. Martin Thompson and son, Martin, Jr., of Detroit, Mich., spent the week end at the home of Mrs. Thompson's father W. J. Fulkeman, of the New Wilmington road, who is seriously ill. Mr. Thompson has returned to Detroit, but Mrs. Thompson and son will remain for some time at the Fulkman home.

RECONSTRUCTION

HARRISBURG, Pa.—The Public Service Commission ordered grade crossing improvements on State highways in Butler, Lancaster, Lebanon and Schuylkill counties in May, all involving the reconstruction or replacement of bridges which have become dangerous and inadequate for present-day traffic. The construction costs of the improvements ordered which total $845,493 ar to be paid from Federal funds.

90-YEAR-OLD VET WILL SAVE BONUS

(International News Service)

FARWELL, Mich.—Of the millions of World War veterans who received bonus bonds, James H. Johnson of this city is probably the oldest and most distinguished. Johnson is 90 years old. During the war he was connected with the army chief construction division on the Pacific coast.

Johnson is also a veteran of the Civil War, the Spanish-American War, the Philippine Insurrections, the Boxer uprising in China, and the Indian Wars. He said he intended to have the bonds for "a ripe old age."

CANNED TOMATOES

HARRISBURG, Pa. —Tomatoes were first canned hermetically in tin cans at Lafayette College, Easton, Pennsylvania in 1847 by Harrison Woodhull Crosby, a horticulturist.

Governor Landon Works On Speech

Reaches Accord With Former Governor Lowden On Farm Relief

CONSERVATION OF FARMS FAVORED

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

TOKEPA, Kas., July 10.—Governor Alfred M. Landon today returned to work on his speech accepting the Republican presidential nomination, after reaching a complete accord with former Governor Frank O. Lowden, of Illinois, on the farm relief issue.

Landon plainly intimated his interpretation of the Republican farm plank would meet with the hearty endorsement of Lowden, who is highly regarded by midwest farmers.

After a long conference with Landon and before departing for his Illinois home, Lowden declared:

"I have heard nothing but praise of Governor Landon. The people believe in him. W are in accord on the important agricultural issues. I shall support him and campaign for his election. I believe he will be the next president."

Lowden revealed h had discussed soil erosion, reciprocal treaties, conservation of farm population, government aid in marketing surplus crops, centralizing of federal power and reduction of federal expenditures with Landon. The two most important problems, Lowden added, were soil erosion and conservation of farm population.

He said:

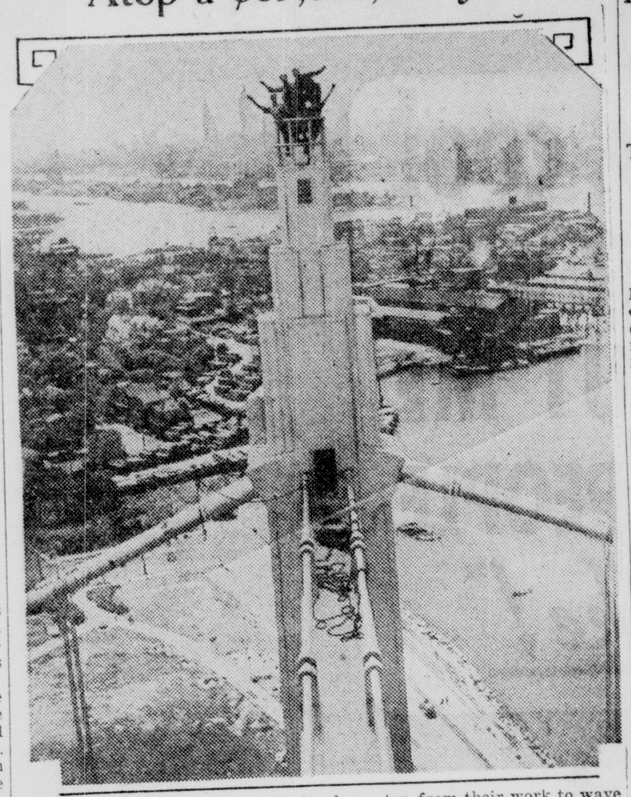
"One hundred million acres of farm lands have been destroyed by erosion. Another 125,000,000 acres are seriously impaired with still another 100,000,000 acres threatened. There are only 350,000,000 acres of farm land in this country. You can see what will happen if speedy and heroic measures are not taken to control this erosion.

"It is a terrible menace. Governor Landon is just as firmly impressed by this menace as I am.

"We are also in accord on conservation of farm population, which is just as important as conservation of the soil. The decline in the city birth rate is such that in three generati..s, two-thirds of our city population will be recruited from the farms. The future of our nation depends upon conservation of our farm population."

Members of the Kansas legislature meanwhile departed for their homes after submitting two constitutional Amendments to the state's electorate. One would authorize state aid for the needy and the other would approve state participation in the Federal Social Security program. Both amendments were recommended by Landon.

Atop a $63,000,000 Job



Electricians putting an arc light in place, stop from their work to wave from atop the Astoria tower of New York's Triboro Bridge which was finished in time to permit auto passage to Randalls Island, center of the project and site of the Olympic final tryouts. (Central Press)

Sugar Heir Wins 'Balm' Of $35,000

Jury Decides Oil Millionaire Stole The Love Of Kathryn Crawford

MIAMI, Fla., July 10.—Six married jurors held last night that Lewis E. Mallory, 3d., Pennsylvania oil heir, stole the love of Kathryn Crawford from her former husband, James Edgar, Jr., of Detroit, and ordered him to pay $35,000 heart balm.

Edgar, 27-year-old scion of a wealthy Detroit sugar family, sued Mallory for $300,000 charging seduction and alienation of Miss Crawford's affections.

The juniors reported their verdict at 10:48 p. m. (eastern standard time), after more than six hours deliberation.

Mallory, 22, slim and curly-haired, declined comment. His attorney, John M. Murrell of Maimi, said he could not say immediately if there would be an appeal. Edgar left without making a statement. Miss Crawford was nowhere to be found after the verdict.

Both Denied Allegations

Both Mallory and Miss Crawford denied on the stand they ever committed indiscretions as charged by her former husband. The Edgars were divorced two weeks ago.

In his testimony, Mallory said Edgar told him after the suit had been filed he wanted only "satisfaction" and that any money won as heart balm would be used to create a trust found for Miss Crawford—the residue going to a church on her death.

The verdict climaxed five days of testimony. Circuit Judge Worth W. Trammell came down from his bench to be nearer the jury in delivering his 45-minute charge late Thursday.

Dr. B. H. Willier, of the University of Rochester, says eggs can be made to hatch hens by the injection of a costly hormone extracted from cows.

Nomination Of Directors Ends With Commerce Body

Tellers Will Count Ballots In Annual Chamber Of Commerce Nomination Today

Nomination of directors for the New Castle Chamber of Commerce ended at noon today, and the tellers will count the votes this afternoon for the 24 men who are to be nominated.

The names of the nominees will then be certified to the membership in the general election, when twelve will be chosen to fill vacancies occasioned by the expiration of the terms of directors for 1935 and 1936. Twenty four are to be nominated.

Local Man Hurt By Dynamite Cap

Sam Orrico, of County Line street, an employe of a New Castle fireworks firm, miraculously escaped serious injuries at Warren, Pa., Fourth of July when a dynamite cap exploded ahead of time and injured the back of Orrico's right arm.

Mr. Orrico was engaged in discharging the fireworks display at Warren when the mishap occurred. Despite the accident, Mr. Orrico continued with his work, receiving treatment for his wound after completing his work.

Double your money back

If Spry isn't the BEST shortening you ever used

"DOUBLE your money back" tells the whole story. Spry *must* be a better shortening or we'd never dare make such an offer!

Spry is whiter, smoother, creamier. It's a purer ALL-vegetable shortening. You don't have to keep Spry in the refrigerator and then "thaw" it out before you can use it. Spry is so pure that it stays fresh and sweet right on the pantry shelf and is *always* the right consistency for quick, easy creaming.

Spry is better for frying, too. Doesn't smoke up the kitchen. Still sweet and clear after repeated frying. You can use it over and over.

New deliciousness

Use Spry for *all* your baking and frying. Watch the family sit up and take notice. Hear them boast about the new lightness and fineness of your cakes and biscuits. Sing the praises of your tender, flaky pastry—your crisp, tasty fried foods *that are as easy to digest as if baked or boiled*. Don't delay another day. Try Spry *now* entirely at our risk.

In 1-lb. and 3-lb. cans

AMAZING OFFER

Buy a can of Spry from your grocer. Give Spry every test in pies, cakes, biscuits, fried foods. If you don't find Spry the best shortening you ever used, write to Lever Brothers Company, Cambridge, Mass., stating briefly your reasons for not preferring Spry. Send your name and address and the strip of tin that the key takes off when you open the can. You will promptly receive back *twice* what you paid for Spry. This offer is limited to one can to a family.

TRY SPRY NOW

Offer expires July 24

The new purer—ALL-vegetable shortening

Bronze Mortars To Chime Instead Of Whine, Shifted From Bullets Into Bells

(International News Service)

ROME.—The ancient bronze mortars presented by the druggists of Italy for war material now will become bells, not shells.

Originally intended to be melted down for munitions to slaughter Abyssinians, the mortars instead will be converted into a chime to ring out the new year in Addis Ababa.

This was the decision announced recently by Dr. Granelli, national secretary of the Pharmacists Syndicate. The bells made from the old bronzes will be hoisted into the Litoria tower which is to be built in the former capital of the Negus at some future date.

Almost every druggist in Italy possesses a series of bronze mortars, used to grind drugs and compound prescriptions. It was not until February that the government decided to tap this supply of metal for munitions and appealed to the chemists to turn in their bronzes.

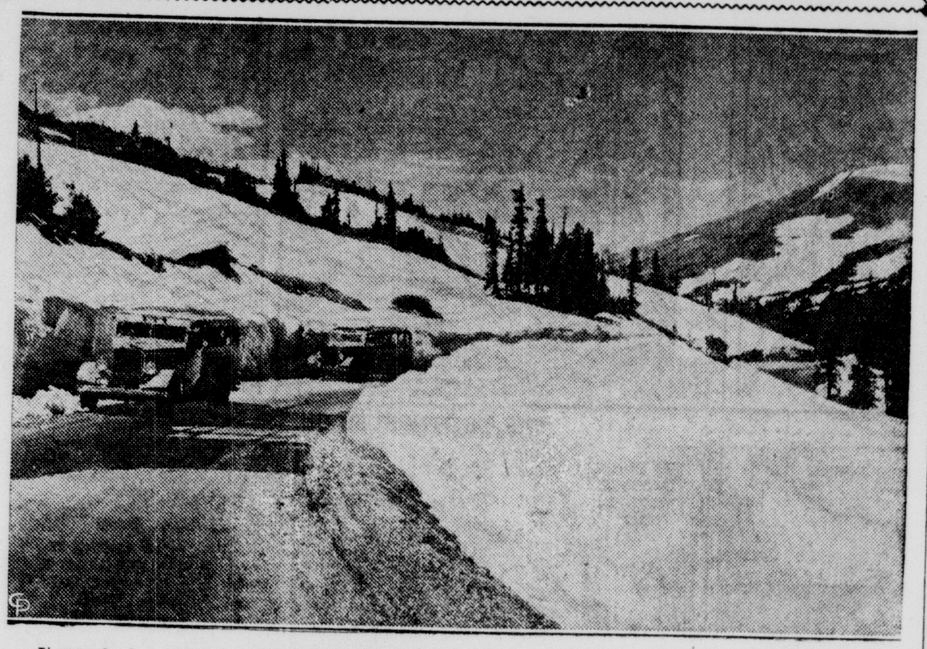
Several thousand responded to the summons, but most of the mortars arrived too late to be used in the war, rapidly drawing to its close.

Recently an exhibition of the old mortars has been held, revealing many museum pieces which have passed down from generation to generation in druggists' families.

These are to be preserved, but the mortars with little historical value presented a problem to the authorities. The decision to cast the bronze into a chime of "victory bells" was the solution.

There are some 13,000 druggists in Italy. Of the mortars they surrendered some date back to the middle ages and others bear princely coats of arms and Latin inscriptions. Many are considered of high artistic value.

Brrr! Did We Hear Some One Say It Was Hot!



It may be hot where you live but it's darn cool in this section of Colorado. This is a midsummer picture along the Trail Ridge road in Colorado's Rocky Mountain National park. Needless to say, the scene is near the mountain tops, for Colorado has had some heat.

Central Press photo.

Octopus Story Full Of Color Lost In Flight

(International News Service)

WEST PALM BEACH, Fla.—There'll be a mighty sweet yarn coming from the lips of William Rufkin, 12-year old negro boy—that is if anyone is ever able to catch up with or find the ebony hued youth.

The last seen of the kinky-haired chap was when he "streaked" out like a southern storm and headed for parts unknown.

The reason:

Bill was wading in a pond in Lake Worth when an octopus grabbed him. Several of its two-foot tenacles had to be cut off before the frightened negro could be freed.

Once he was freed—he departed.

And the next cloud of flying dust you see—stop it—it might be William.

CLUB PICNIC COMMITTEES

The chairman of the various club committees, Mrs. Taylor announces there will be a meeting tonight for the completion of plans for their joint-picnic outing to be held at a near future date. The session will take place at the home of Mrs. Mason on Falls street, at 7 o'clock. The recreation committees of the Rising Star Club, the Eveready Club, the Sunshine Kensington and others will be present at this time.

Adversity must do you good. Observe how quickly the bankrupt gets a new car.

HUDSON CLIMAX

SPRAYERS

A Hudson Compressed Air Sprayer is a valuable aid in protecting flowers, ornamental shrubs, fruit trees, etc., from the many insects and diseases which attack them.

The Hudson CLIMAX Sprayer offers all the essentials of a high pressure compressed air sprayer at a very reasonable price. Made of high quality material throughout. Adapted for all classes of work. Handles whitewash, cold water paints, insecticides, fungicides, etc., very efficiently. Can be used in the truck garden, orchard, vineyard, poultry house, dairy barn, hog pen, about the house and yard, etc.

The Climax Sprayer as illustrated is now equipped with our NU-EEZ Funnel Top. The same basic features that have always made the Climax an outstanding buy have not been changed though many new improvements have been made.

Specially Priced

$2.73

SPECIFICATIONS

TANK: With NU-EEZ funnel top. 7½x20 inch, capacity approximately 3½ gallons. Side seam staunchly brass riveted, top and bottom double beading for strength and rigidity, all seams heavily sweat-soldered. Tested at 90-100 pounds pressure.

PUMP: AIR-PAK design. 1¾ inch diameter, 14 inch long. Cylinder of seamless brass tubing friction-gripped by cam-lock top. Attaches to tank by cam-lock. A unique construction giving positive pump alignment, permitting entire unit to be removed at once. Instantly locked or released by a half turn of the malleable pump handle.

DISCHARGE EQUIPMENT: 24 inch of ⅜ inch special high pressure spray hose...Attaches directly to the supply tube which extends to the bottom of tank, and allows all the liquid to be discharged. Tube curves to fit natural bend of hose, eliminating need of a supporting wire spring.

Perfection automatic shut-off valve, all brass. Designed for high pressure work. All parts readily accessible. Regularly fitted with 18-inch curved brass extension rod. Standard tapered ¼ inch iron pipe threads permit use of additional units if desired. Disc type nozzle provides any desired spray from fog to solid stream.

STANDARD PACKAGE: One in heavy fibre carton. Shipping weight about 10 lbs.

WE SELL THE BEST INSECTICIDES AVAILABLE FOR QUICK RESULTS.

SCORCHING SUN FAILS TO CHECK FUN AT 'Y' CAMP

Camp Rentz Host, Guarded By Shade Trees, Happy As City Swelters

Oppressive summer heat today had still failed to check the merry recreational activities of the 72 vacationing boys at Y. M. C. A. Camp Fred L. Rentz.

Camp Director Henry T. Mac Nicholas, notified the "Y" here that everything was progressing satisfactorily and that Old Sol was having it difficult, hard though it is to believe, to get through the shade trees that stand all around the camp.

Were you a "Y" camper who wanted to note down the fun as it came along, your "camp activities log" today would have shown this:

Wednesday afternoon—

"After dinner followed a rest hour and then the brass, aluminum and copper work was started in the new Hobby building. Model airplane and flying models were started after the metal tapping. Weather is just right for camping at Camp Fred Rentz. With large trees and plenty of shade on the campus Old Man Sol cannot get to the campers very easily. Mushball and volley ball league games were played after the hobby period and then in for a long swim. Visitors started to arrive in camp right after supper. A total of 65 machines came into camp with around 100 visitors. After dark a council fire was started and with the visitors as special guests around 200 were at the campfire. Special numbers in camp songs were given by the members of the barber shop quartet. Frank Baldwin gave the story of the evening and then devotional period at 9:30 and then lights out at 10 and taps.

Thursday morning—

Up at the whistle and then the morning wash. Everybody at breakfast and then the morning cleanup and then to chapel. It is hot this morning and everybody will welcome the plunge in the cool Slippery Rock. Big times are scheduled for the next three days. Movies tonight and a mock trial Friday night.

SEES WAY TO END FUTURE DEPRESSION

(International News Service)

DETROIT—The Anglo-Saxon Federation of America, which recently held its annual convention here, has its own ideas on how to rid the world of depressions.

"The ten commandments are universally accepted as correct and workable moral laws" said Howard B. Rand, secretary-general of the organization. "If we accepted the fact that economic and monetary laws just as definite were laid down on Mount Sinai, we would have no more depressions."

Members of the organization believe that the Anglo-Saxon Celtic and related races are the lost ten tribes of Israel.

ARE YOU ON THE BORDERLINE OF ACTUAL SICKNESS?

Constipation* Causes Discomfort, May Lead to More Serious Troubles

You may have days, perhaps even weeks, when you feel below par. Not sick enough to go to bed, but certainly not at your best. The trouble may be with your diet. Poorly balanced meals can affect your physical condition.

Meals which lack proper "bulk," for instance, may lead to common constipation. Continued neglect of this condition causes discomfort, may lead to headaches, poor appetite, listlessness.

Guard against common constipation.* Make sure the meals you eat contain plenty of "bulk." Kellogg's ALL-BRAN is a generous source of effective "bulk." Within the body, it absorbs moisture, forms a soft mass, and gently cleanses the system.

Two tablespoonfuls daily, with milk or cream, are usually sufficient. Stubborn cases may require ALL-BRAN oftener. Serve ALL-BRAN either as a cereal, or cooked into muffins, breads, etc. Eat it regularly for regular habits.

ALL-BRAN is guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in Battle Creek.

*Constipation due to insufficient "bulk"

Few Buyers Appear To Bid On Property

County Commissioners Adjourn Sale At The Court House Until July 18th

Lack of bidders for properties offered for sale by the county commissioners at the court house this morning caused an adjournment of the sale until July 18. The properties offered were a portion of those which had been sold to the county at former tax sales. The object of the sale was to dispose of these properties to private individuals, in order that they may again be placed on the list for taxation purposes. At present the county is getting nothing on these properties.

Only about a half dozen of them were sold and these at low prices. For the most part the properties consist of lots and vacant tracts of land. During the boom period there were many sub-divisions laid out in and about New Castle. These lots were sold to persons many of whom bought them as speculations. As the demand died down the owners allowed the taxes to accumulate until the properties were finally sold for taxes, and as there were no purchasers the county bought them in.

The list offered this morning was only a small proportion of the properties for which the county holds title. If more are disposed of at the adjourned sale, it is probable that other lists will be offered. At the sale this morning there were few bidders and few of those who were present knew the location of the tracts offered for sale. In at least two or three instances, properties were bought sight-unseen.

County Commissioner George Bolinger acted as auctioneer, Attorney William McElwee Jr., county solicitor read the description of the properties, and W. A. Eakin, commissioners clerk, recorded the sales.

NEIGHBORHOOD HOUSE HAVING BIBLE SCHOOL

Monday afternoon a Bible school was started at the Neighborhood House on Reynolds street. There has been a good attendance in spite of the hot weather. The school is being conducted each afternoon from 2 to 4:30, and is open to all children who wish to attend from 4 to 17 years of age. Miss Della Collins is in charge.

It is interesting to note the different nationalities represented among which are the following: Hungarian, Greek, Italian, Syrian, Russian, Welsh, German, English, Slavish, Polish, Armenian, Rumanian, Syrian-Russian, German-Syrian, American and Afro American.

Teaching in the school which will continue throughout next week are: Misses Olive Lewis, Marian Lockhart, Margretta Lewis, Olga Nahas, Grace Lewis, Marion McKenzie, Dorothy Lewis, Alice Grimes and Melvin Polding.

CAMP LIFE FOR SCOUTS AT PARK

Girl Scouts Are Being Well Trained In All Branches Of Camping And Scouting

The day is all too short for the many girls who are taking part in the day camp which is being held Tuesday, Wednesday and Thursday of each week during July at Cascade Park by the Girl Scouts of the city.

The various groups include:

Johnny-Jump-Up unit: counsellors, Mildred Miller, Donna Van Horn and Marjorie Hildebrand; campers, Dolly Flynn, Virginia Hanna, Jean McCreary, Anna Singer, Marjorie Allen, Sara Louise Theophilus, Betty Jean Kemp, Mary Ruth Turner, Mary Belle Ulrich, Donna Brooks, Grace Wadlinger and Shirley Himebaugh.

CADDIES END STRIKE

(International News Service)

PITTSBURGH, July 10.—The two-day strike of caddies at the Wildwood Country club ended today when 75 caddies went back to the links after club officials granted their demands for a wage increase from 75c to $1 for toting golf clubs around the full course.

Meanwhile, 200 caddies at the Oakmont club, seeking an identical increase, continued on strike when negotiations with club officials ended in failure.

Chicago Marauder's Victim

Beautiful Mrs. Louise Henry, 21, is shown with her husband, Ure, 28, as she told Chicago detectives the tragic story of a marauder's attack. The man had tied Henry to a bed, assaulted the young bride, then for more than two hours related the story of his life.

Detective—A girl who would show her legs in court like you to get an acquittal should have an example made of her.

Pretty Prisoner—Yes, every girl ought to develop legs like mine.

SHUSH!

Mistress—Marie, when you wait on the table tonight for my guests, please don't spill anything.

Maid—Don't you worry, ma'am; I never talk much.

Wife—I have to watch our cook every minute.

Husband—Afraid she'll make a mistake with the cooking?

Wife—No, afraid she'll make a mistake with you, dear.

On Court House Hill

Deputy Sheriff Ben Hartland served a subpoena in divorce yesterday on John A. Johnston, employed on the Ed Becker poultry farm near Enon. The application was made in the Beaver county courts by Ida Johnston, who alleges desertion. The papers were certified here from the Beaver county court.

C. O. Earl, now to use of the Sharon Auto Finance company, Louis Davis proprietor, has filed a writ of replevin at the prothonotary's office against Philip DeRobbio, to secure possession of an automobile. It is claimed that the car was sold on a bailment lease for $174 in October, 1935, and that there is now due $105, payments being in arrears.

Lewis Ross has filed an application for divorce from his wife, Julia Ross, on the grounds of cruelty, adultery and desertion. They were married in 1921 and lived at West Pittsburg and at Ellwood City. Mrs. Ross is alleged to have deserted her husband in May, 1934. Later she returned and again left in March, 1935, going to Youngstown, O. It is claimed that she has since been living in Youngstown.

Under the will of the late Ray Gardner, which has been entered for probate at the register and recorder's office, a bequest is made to his sister, Grace Sterling, for the care and attention which she gave him during his long illness. The balance of the estate is to be equally divided between Grace Sterling and a brother, Ralph Gardner. Grace Sterling is named as executrix.

Helen Weaver, executrix in the estate of W. K. Weaver, has issued a writ of attachment against Bess L. Lutz in which the sheriff is directed to attach any money or dividends in the hands of the Prudential Life Insurance company and the Metropolitan Life Insurance company that may be due the defendant from those organizations. The amount of the claim is $237.

In view of a proposed issue of $52,000 in bonds by the borough of Ellwood City, the burgess, Russell Sitler; A. J. Howell, president of council, and E. B. Mayer, clerk, have filed at the prothonotary's office a statement showing the financial condition of the borough. It shows that the value of taxable property is $6,555,882, and that the present bonded indebtedness is $206,500. Money raised by the bond issue is to be applied on the erection of a municipal building. The borough has secured a grant or government loan not to exceed $42,544, and it is estimated that the $52,000 worth of bonds will raise the balance needed.

By the will of the late Arabella H. Minick, which has been probated at the register and recorder's office, all of decedent's property is left to her son, John C. Minick, who is also named as executor.

William Pitzer has filed a suit at the prothonotary's office against W. S. Moore to recover a balance alleged to be due as the result of a farm lease. Moore owns a farm in Wilmington township. Pitzer claims that he made a crop lease with Moore and put in a variety of crops, but that owing to some difficulty that arose, Moore had ordered him off the farm before he had completed his harvesting.

In the case of Elizabeth H. Hoagland and G. B. Hoagland against Olive Sager in which the defendant had made a motion to strike off a judgment of ejectment which had been confessed on an article of agreement, Judge W. Walter Braham has handed down an opinion in which the motion is refused. The article was for the same of a 42-acre farm in Slippery Rock township for $4200. Failure of defendants to make payments as agreed was alleged.

AROUND CITY HALL

There were only 12 cases of contagion reported last month to the city health officer according to the report of Dr. W. L. Steen to council, and which was submitted Thursday during council meeting. Whooping cough was high with five patients and scarlet fever was next with three. Measles and mumps made up the rest of the cases.

One thousand, five hundred and eighty three tons of garbage were collected during June, according to a report submitted by Ed. Umbright collector of garbage here. In addition 300 barrels filled with garbage and 150 loads of tin cans were hauled from homes by employes of the department over which Umbright presides.

Council believes that when their predecessors several years ago resurfaced some streets and alleys, a good job was done and for this reason they proposed to follow that program through. Fifty thousond dollars was appropriated for the work when the solons met yesterday.

Tom Yawkey And Wife Adopt Baby

(International News Service)

CHICAGO, July 10.—Tom Yawkey, wealthy sportsman and owner of the Boston Red Sox, took another "million dollar baby" under his wing today.

A bit inexperienced but with lots of promise, this one came to the Yawkey fold from Evanston's cradle, fashionable adoption center for many other famous folks.

Yawkey and his charming wife became the youngster's parents through adoption proceedings in the county court today.

Evening wrapped the countryside in a mantle of peace. The boy stood on the bridge, and the sweet smile on his young face was beautiful to behold. Beyond the brow of the hill a dull red glow suffused the sky.

"Ah, little man," remarked the stranger, who was near-sighted, "it does me good to see you appreciate yon beautiful effect."

"I've meen watching it for ten minutes," replied the boy.

"Do you watch the sunset often?" the stranger asked.

"Sunset? Why, that's the village school burning down."

STUDENT AID PROGRAM WILL BE CONTINUED

(International News Service)

WASHINGTON, July 10.— The student aid program of the National Youth Administration will be continued for the next school year with students having the privilege of attending schools of their own choice, N Y A Director Aubrey W. Williams announced today.

The program includes nine months past time work for approximately 200,000 elementary and high school students 16 years of age and over at a minimum wage of $6 per month; 105,000 college students at an average wage of $15 per month, and approximately 5,000 graduate students at wages of $25 and $40 per month.

Williams announced that applications will be received from now on for student aid for the 1936-37 school year. Letters were sent to school heads and NYA state youth directors advising them to begin accepting such applications at once.

LARGE SCALE BATTLE OCCURS IN ETHIOPIA

(International News Service)

DJIBOUTI, French Somaliland, July 10—Large scale Ethiopian military operations against the Italian, including a pitched battle near Harar in which many were killed, were reported in advices reaching here today.

Bands of Ethiopians cut the Addis Ababa-Djibouti railway anew after being driven off by a strong Italian armed force, and communication between the capital and Diredawa now is cut off, reports said.

All telegraph and telephone communications between Addis Ababa and Dessye, important city north of the capital, also have been cut by the Ethiopians, it was reported, leaving Italians in some sections imperilled.

King's Week-End Habits Call For Dispatch Riders

(International News Service)

LONDON—King Edward VIII's habit of spending his week-end away from London at his beautiful country residence of Fort Belvedere, near Sunningdale, has led to the creation of a new brand of King's Messenger.

Two motor-cyclists picked from the Royal Army Service Corps, 'seconded for special duty on behalf of His Majesty," have been chosen to carry state papers and official documents from London to the king at Sunningdale at weekends.

The two messengers carry their dispatches on army motorcycles, painted in the green-gray army color. They wear khaki uniforms, and leave Buckingham Palace from the tradesmen's gate.

One of the messengers stays at Fort Belvedere. The other one remains at the palace.

Stainless Steel Ships Possible By New Process

SHEFFIELD, England — Stainless steel ships and stainless steel bridges have been brought within the range of practical possibility by a new manufacturing process.

It is claimed that this method, invented by F. F. Jackson, director of a Sheffield steel firm, will mean a 50 per cent cut in stainless steel production costs.

The outstanding feature of the invention, which has been patented all over the world, is the production of a cheap mild steel plate with a stainless veneer.

It is also claimed that but for the necessity of allowing for corrosion, the plates of ships could be made 20 per cent thinner or even less with consequent saving in gross weight and increased carrying capacity.

Shipowners are put to heavy expense by having to send their vessels repeatedly into dry dock for the removal of barnacles from the hull.

Experiments already made have proved that barnacles will not adhere to stainless steel.

In a Dying Land

Scenes like this are all too common in the sun-drenched Dakotas where the Resettlement Administration photographer was busy at Pennington, S. D. The government is buying land in the section for replanting with barley grasses in effort to fight drought. *(Central Press)*

U. S. Naval Radio Facilities Denied In Addis Ababa

(International News Service)

WASHINGTON, July 10.—Italian military authorities in Addis Ababa have deprived the American legation of its naval radio facilities for 15 days, Secretary of State Cordell Hull disclosed today.

Weirton Employes Oppose Any Move To Disturb Plant

(International News Service)

WEIRTON, W. Va., July 10.—In anticipation of the current unionization drive in the steel industry, employes of the Weirton Steel Company have organized the Weirton Steel Employes' Security League "to oppose any and all attempts to disturb the satisfactory conditions under which we are working at the present time," it was announced today by Norman K. Moore, secretary.

A total of 10,274 or 97 per cent of the company's 10,500 workers have signed membership pledges in the new organization, Moore, a blast furnace blower, announced. Jack Larkin, a roller in the Weirton plant, was elected president. Workers at Clarksburg, Steubenville and Weirton have joined the organization, according to Moore.

The members signed a pledge promising full support to T. E. Millsop, president and all other officials of the company; stipulating that membership did not deprive them of personal rights and beliefs in any "sect, creed or political party" and expressing confidence in the employes' representative plan for collective bargaining.

CONTINUE CLASSES IN NATURALIZATION

The citizenship or naturalization class of the W. P. A. Adult Education, taught by Miss Mary Tabisz will be continued throughout the summer months at Lincoln-Garfield school on Tuesday, Wednesday and Thursday nights. Hours will be from 6:30 to 9.

Crawford-Oakridge Playgrounds, under the W. P. A. Recreation is open to the public under competent instructors. The children in this vicinity should take advantage of the opportunity offered at this playground.

EDENBURG

BIRTHDAY PARTY

Miss Dorothy Bonnett was surprised in her home on Thursday evening when 14 young folks gathered in honor of her 21st birthday anniversary. Music and social chat were enjoyed during the evening. Mr. and Mrs. Dick Scharp of New Castle were special guests.

In serving lunch, Mrs. Bonnett was assisted by Misses Florence Nichols and Mary Filby. A collection of nice gifts was received by the honor guest.

Mrs. C. E. Hamilton of Pittsburgh is the guest of her daughter and son-in-law, Mr. and Mrs. M. R. Hornung on Sheridan avenue.

Mr. and Mrs. John Depner and daughter Vivian Clara, of Chicago, are visiting at the home of Mr. and Mrs. Daniel Linz, of 113 Holton street.

Mr. and Mrs. J. R. Rick, of Leasure avenue, and Mrs. John S. Crowl, of North Jefferson street, have returned from a visit at Mt. Clemens, Mich.

Mrs. Thomas Woods and daughter Evelyn, are here from Los Angeles, Cal., for a visit in the home of Mr. and Mrs. Joseph Carrigan, of Atlantic avenue.

Mrs. Frank Basile and son Anthony, of Moravia street extension, who have been visiting in Chicago, Ill., for the past seven days, have returned home.

Miss Ida Casacchia, of East Lutton street, who underwent an operation several weeks ago, is convalescing nicely. She is able to be up and around.

Mr. and Mrs. A. L. Whitacre and daughter Carrie of Allegheny avenue, have just returned from Oklahoma, Pa., where they visited relatives and friends.

Mrs. Wayne Phillips and little daughter, Marcia Ann, of Oil City, have concluded a week's visit with her parents, Mr. and Mrs. W. T. Dukes, on Park avenue.

John Phenicie, Mr. and Mrs. Harry Keller, of Wampum, Mrs. Belle Wiley and Mrs. Roy Phenicie, are visiting Mrs. Chris Haswell and family, at Clinton, Iowa.

Mrs. Nicholas George and family, Mrs. Nick Bucci and family, Mrs. Vito George and Miss Lena George, of Connellsville, enjoyed an outing at Cascade Park Wednesday.

There is an improvement in the condition of Paul Reider, who has been confined to the home of his parents, Mr. and Mrs. George Reider of Wilmington avenue, by illness.

Mr. and Mrs. W. J. Brenneman of Croton avenue, accompanied by their granddaughter, Geraldine Belles, of Terre Haute, Ind., have returned from a few days' visit in Erie.

Private Leroy J. Shelton, a soldier from San Antonio, Texas, is visiting his sisters, Mrs. Thomas Montgomery of New Castle and Mrs. Olive Libert, 841 Vienna avenue, Niles, Ohio.

Mr. and Mrs. J. W. Black of Wilmington avenue, with Mr. and Mrs Kenneth Black of Court street, attended the funeral services Thursday for the late Harry D. Hipsley of Pittsburgh, who was drowned in Canada last Sunday morning.

Prof. J. M. Weddell, a brother of George W. Weddell of Wilmington avenue, is visiting at the home of Mr. and Mrs. Weddell. Prof. Weddell is in charge of the music department at Knox College, Galesburg, Illionis and was recently made a Doctor of Music.

Word has been received in New Castle that Mrs. J. C. Fleming of Santa Anna, Cal., will arrive in New Castle on Tuesday of next week to spend the balance of the summer with relatives. She expects to stay at the home of Mr. and Mrs. C. W. Fleming on Kurtz place.

W. C. T. U. and L. T. L.

PLAINGROVE W. C. T. U.

The July meeting of Plaingrove W. C. T. U. was held at the home of Mrs. Charles Minnich Wednesday at 1:30. Mrs. Bertha Shoaff was in charge of the following program:

Topic—"Publicity, Radio, Exhibits and Fairs."

Scripture, Psalm 78:1-13—Mrs. Adda Offutt.

Prayer—Mrs. Maude Snyder, Mrs. Hattie Glenn.

"The Press for Christian Temperance"—Mrs. Civilla Adams.

"The Reason for Radio"—Mrs. Mary Shoaff, Mrs. Genevieve Maxwell.

"Let There Be Light"—Mrs. Ruth Shaw.

"Seeing Is Believing"—Mrs. Lola Eppinger.

Remarks—Margaret Peebles.

Reading—Mrs. Maude Snyder.

The music was led by Miss Elizabeth McNulty.

Mrs. Adams, Mrs. Mary Winder, and Mrs. Lucille Crawford were appointed as the Bible committee.

During the social hour a delicious lunch was served to thirty-three persons by the hostess and her aides.

August 12 is the annual business meeting with Mrs. Pearl Patterson as hostess and Margaret Peebles in charge of the program. The social committee will serve a tureen dinner.

W. C. T. U. EXECUTIVES

The W. C. T. U. executives met at the Y. W. C. A., with Mrs. Helen Wilkins as the presiding officer. Devotions were in charge of Mrs. C. R. Bartley, assisted by Mrs. Margaret McClure, Mrs. Helen Wilkins, and Mrs. Robert Long.

September 3 was set as the date for the county convention. Local reports will be submitted August 15. Each local union will select a flower and bring to the county convention one flower for each new member. All unions will be asked to contribute to the Willard Centenary Fund.

Mrs. Margaret McClure gave a talk on "Legislation." Mrs. Wilkins presented her report of the national convention at Tulsa, Oklahoma.

With New Castle Afro-Americans

BETHEL A. M. E.

All tag day workers north of Washington street will meet at the Bethel A. M. E. church at 9 a. m. Saturday and all those south of Washington street will meet at the home of Mrs. M. E. Jackson, Moravia street, at the same hour.

PRAYER BAND

South Side prayer band will meet this evening at 7:30 o'clock in the home of Bessie Hardney, 18 Reynolds street, with Tanzie Wright in charge.

N. A. A. C. P. TONIGHT

The N. A. A. C. P. will meet at 8:15 tonight in St. John's church, Moravia street. Dr. James Gillespie, who was the delegate to the national conference at Baltimore, Md., last week, will submit a report. There will also be musical numbers.

Entomologists have kept bedbugs alive and active for a year without food, according to the American Institute of Sanitation.

BOY SCOUT Activities

FIELD MEET STAGED

On Tuesday afternoon troops 2, 6 and 55 held a field meet at Crystal Springs. It started at 3:00 p. m. There were many field events such as knot tying, logging, nature study, signaling, and others. The judges were Don Woodworth and Bill Batten of Troop 18. After the meet Chuck Hamilton, who was timekeeper, gave a very fine demonstration of fire by friction. After supper the boys enjoyed a nice swim and camp-fire. Just before leaving the judges announced Troop V-55 as the winners of the meet. The boys of Troop V-55 want to thank the other troops for their visit and the part they took in the afternoon activities.

Dick McGough, scribe.

TROOP 15 MEETINGS CLOSE

Members of Troop X-15 of the First Christian church met this week at the church and hiked to a grove near the old paper mill along the Neshannock creek for an outdoor meeting.

Scoutmaster James Bowman directed the boys to the mill site and was in charge after arrival. After reaching the grove a fire was started by two boys. At the last meeting the boys had been asked to bring wieners and buns and wiener roasting became the order of the day. Jokes were told after the feast had been concluded.

Meetings will not be held again by Troop X-15 until spring.

Scribe Everett Hoffman.

In Religious and Fraternal Circles

Alliance Church

A cottage prayer service, sponsored by the Christian and Missionary Alliance church, will be conducted tonight at 7:30 o'clock in the home of Clifford Duncan, 310 Pine street. Walter Cunningham will be the leader.

There will be no meeting of the young people in the church tonight because of the young peoples rally at Butler. It is likely that quite a number from here will attend.

Laura Bacon Class

The class of Laura Bacon will conduct the opening exercises of the Second session of Wesley M. E. Sunday school on this Sunday at 10:15 o'clock.

Use of manless sounding balloons which go to great heights and radio back conditions there may make three to four day weather forecast possible in the opinion of W. R. Gregg, chief of the United States Weather Bureau.

Experimental Ocean Flights To Begin Soon

Giant Flying Boats Soon To Start Hops Across Atlantic

NEGOTIATIONS ARE BEING COMPLETED

(International News Service)

WASHINGTON, July 10.—Exprimental flights linking the United States and Great Britain by air across the Atlantic will commence within the next few weeks.

These flights, to be made by giant Pan-American and British Imperial Airways flying boats, will herald the inauguration of a regular transatlantic air service that will carry passengers and mail across the Atlantic four times a week.

Negotiations between the Pan-American Airways and the British Imperial Airways for joint operation of a permanent regular service today were nearing a conclusion.

Soon as the final details of the agreement have been worked out, the experimental flights will commence. If they prove successful, the American government will grant both Pan-American Airways and the British Imperial Airways permits to inaugurate and operate a regular passenger and mail service.

When this service gets underway, a traveller will be able to board one of the flying boats in New York harbor and step ashore in England 30 hours later.

No definite decision has been reached yet concerning the whereabouts of the American terminals of the service, but New York, Baltimore, Cape Charles, Norfolk, Va., and Charleston, S. C. are under consideration. It is considered likely that New York harbor will be one of the terminals. The English terminals also have not yet been selected.

University Buys Newspapers For Research Data

(International News Service)

CHICAGO, July 10.—Recognizing the truth that newspapers are one of the most important single sources of historical and social research, the University of Chicago libraries have recently bought up back files of the London Chronicle from 1758 to 1823, the Boston Transcript from 1830 to 1935 and 20 other collections of newspapers throughout the world.

The university also has subscribed to 56 of the most representative metropolitan newspapers in the world, both domestic and foreign.

The University of Chicago now has complete newspaper records for London between 1758 and 1936, for New England between 1784 and 1936, for Germany from 1870 to 1936, and thus for many other regions of the world.

Further subscriptions are contemplated for papers from South America, Canada, Cuba, Denmark, Norway, the Netherlands, England, Germany and France as well as ten more United States papers. Back files must be bought up in Canada, Mexico, South America, Australia, Hawaiian Islands and many Asiatic and European countries.

Lightning Made Permanent Print Of His Fingers

(International News Service)

SOUTH BEND, Ore.—A set of human fingerprints which were recorded by lightning on a hotel window here thirty years ago, are still visible today.

The fingerprints, according to "old timers," are those of a negro porter named Fletcher Gorman. He worked at the hotel in 1906.

A thunder shower blew up one afternoon while Gorman was talking with a friend on the hotel porch. An unusually bright flash of lightning startled the porter, and he shrank back against the wall, placing his hand on the wet window pane. The next streak of lightning struck him.

After the excitement had died down, the imprint of Gorman's hand was noticed on the glass. Since that time, innumerable attempts have been made to wash off the imprints, but all of them have been usless.

The outline is as plain today as it was thirty years ago, when it was stamped on the glass.

Driver Escaped 'Sudden Death' From Rattler

(International News Service)

EDGEWOOD, Texas. — Spinning along the highway at 50 miles an hour—then suddenly discovering almost certain death within inches of you is no pleasant experience, avers Leland Doak of Edgewood.

Doak was speeding along the highway near here when he glanced at the right window of his car. Death in the form of a rattlesnake—was on the rolled down glass.

With beads of perspiration suddenly popping out all over his body, Doak gradually slowed the car fearful the rattler would strike any second.

Quickly opening the door Doak saw the reptile drop down. He slammed it shut, crushing the snake.

Doak is still mystified as to how the rattler crawled into his car.

Proves Japanese Differ In Hawaii

(International News Service)

HONOLULU.—Japanese born in Hawaii differ physically from Japanese born in Japan, according to Dr. Harry L. Shapiro, associate curator of the American Museum of Natural History, New York, following a five-year study in Hawaii and Japan on the effect of environment on racial types.

Based on thousands of measurements, Dr. Shapiro found that descendants of the Japanese who came to Hawaii have longer and narrower noses, longer faces, longer legs, shorter trunks and narrower chests than the ancestor race. Head measurements also show wide variation.

Dr. Shapiro studied between 4,000 and 5,000 types in the same Japanese villages whence Hawaii's immigrant laborers came.

Dead Shark Rips Open Man's Hand

(International News Service)

DURBAN, Natal, July 10.—A dead shark has severely bitten a young man here. The shark had been landed by a local fisherman and the young man, a visitor, was anxious to take a photograph of it with its mouth open. So he tried to prop the jaws apart with a stick.

The stick slipped and the shark's jaws snapped shut on the man's hand, ripping the palm open. The wound was so serious that the man had to be rushed to hospital.

The vicious closing of the dead shark's jaws is attributed to a reflex action of its nerves. Experienced fishermen who witnessed the incident are convinced that the shark was dead.

FARM AREA REDUCED

HARRISBURG, Pa.—The area of farm land in Pennsylvania was reduced by 3,280,000 acres from 1910 to 1930. And 4.1 per cent of the remainder is submariginal or unprofitable for farm purposes.

Emergency Powers For Polish Ruler

(International News Service)

ARSAW.—A bill giving emergency powers to President Mosicki has been adopted by the Polish Council of Ministers and will be put to the vote of the diet shortly. The diet will, hold an extraordinary session to vote on it, the date of which has not yet been fixed.

The powers with which the president of Poland will be invested include the control of national defence and exclude exchange and currency questions.

With these powers the president can virtually rule without the legislative bodies.

TARS ON BRITISH MERCHANT SHIPS WIN WORK SLASH

(International News Service)

LONDON—Since the sixteenth century sailors in British merchant ships have worked the two-watch system of four hours on and four hours off.

Now the representatives of the sailors and the owners have reached an agreement which will reduce deckhand's working hours from 84 a week to 64. This will necessitate a three-watch rota and the employment of larger crews. Sailors henceforth will work eight hours a day and an additional eight hours a week for maintenance work.

If overtime is worked at sea—except in an emergency—there will be compensation either by time off in port of by payment at fixed rates.

The agreement applies to all British ships exceeding 2,500 tons gross in foreign-going trade.

SPEND 26 YEARS ALONE IN SHACK

(International News Service)

LOWELL, Mich.—The hermit of northern Michigan is completing this month the 26th year of his tryst with nature.

In a shack he built in June 1910, in a wooded hollow at Devil's Peak on the Flat river near here, "Flat River Jim" Burnett lives his solitary life, leaving only to make occasional trips to town for provisions.

His love of wild life has made his home a refuge for animals and birds. Envious disciples of Izaak Walton insist he calls the fish in the river by their first names.

A frustrated love affair, it is rumored here, is the reason for his lengthy seclusion.

Hundreds Visit Sewing Display

Hundreds of interested citizens have passed through the store room of the Castleton Hotel since Wednesday inspecting the work of the sewing projects of the Work's Progress Administration.

The room has hundreds of dresses and other garments, made by women of the sewing projects in District 14 and many of them show real skill in their work. The demonstration closes tonight at six o'clock.

High blood pressure is normal for some persons, according to Dr. O. H. Perry Pepper, of Philadelphia.

Riflemen Bow To Co-eds In Archery Match

(International News Service)

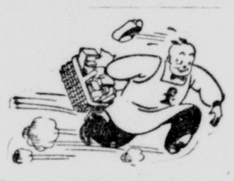
WALLA WALLA, Wash.—Fifteen young riflemen here recently discovered that a knowledge of firearms is useless when applied to archery.

After placing fifth in the national R. O. T. C. rifle matches, the high school riflemen challenged a girl's archery team to a duel—with weapons reversed. A "round" of strawberry sodas was the prize.

On the day of the contest, five girls calmy plunked shot after shot into their targets, handling their rifles like veterans. Fifteen fine riflemen—but very poor archers—filled the air with arrows that pierced everything on the archery range except the stuffed mattress they were supposed to hit.

The girls enjoyed the drinks.

FAIRLAWN PERSONAL SERVICE



Mrs. J. S. B. writes:-

"Altho my Fairlawn Grocer is the busiest merchant in town, he always treats me as if I were the only customer he had. Nothing else seems to be as important to him as pleasing me"...

Swede To Meet Irishman Here

Should Pre-Bout "Dope" Come True Fans Should See Fast Match

BOTH HAVE HAD LOCAL MATCHES

Although Frank Sexton and Geo. McLeod, Ohio farmers, have been calendared as the feature 'rasslers' in Pete Askounes mat show for Centennial field field Monday night the balance of the grapplers who make up the program are said to be among the best in their class.

Among them will be "Swede" (Rough House" Nelson who already has one victory here to his credit, and Jack Conley, the Irishman, who wrested Marchoni in last weeks bill. Neither of them may ever reach the throne which Frank Gotch, Strangler Lewis and Jim Londos attained but they know plenty of grappling.

The Swede's first name is Henry. He was born in Northfield, Minn., and the roaming spirit of his Scandinavian ancestors caused him to join Uncle Sam's navy. It was during his first "hitch" that he learned to wrestle and after he emerged from the navy he wrestled throughout Europe and is now here.

Talking about his cognomen, "Rough-House" Nelson is reported to be credited with saying: "A good smack in the face is worth all the 'rasslin' holds I have ever seen. He certainly handed out a few jolts here in the first show and won his bout.

Can Expect Action

His statement may meet with a like assertion on the part of Conley, who being Irish, certainly should how how to smack back. He demonstrated with Marchoni whom he wresteled 45 minutes to a draw. And for smacks, having fought Tommy Loughran he should give Nelson plenty of work.

They're heavyweights.

Roy Graham, opponent to Walter Podolak, is a newcomer to this section. Bill Lion, the matchmaker, who took to mating grapplers after 22 years of mat work, terms him "a finish product of the school that knows wrestling. I expect Podolak and he to display the stuff the fans pay to see."

Frank Sexton opponent of George McLeod, was discovered by Harry Steele, Olympic champion of 1924. At that time Frank was attending Ohio State U. He left school, returned to the farm and under the tutelage of Steele is said to have turned out to be a much feared man of grips in the roped circle.

McLeod depends for his wins mostly on slam holds and being strong and a lifter it wouldn't be surprised were he to attempt to hold Sexton high in the air and then slam him bodily to the mat—which on more than one occasion has been known to render an opponent insensible to all his surroundings.

Monday night they're coming to town, according to Promoter Askounes to show the fans present day wrestling—which is grunts, smacks, groans, punches, holds, falls, tumbling and what have you. But the fans like it for its spectacularism. Whether they like it well enough remains to be seen. The local promoter is attempting to popularize the sport here.

HERE AND THERE IN SPORTS' LAND

Hot weather won a victory over J. Wood Platt, of Philadelphia, defending champion of Pennsylvania State amateur golfers at the Allegheny Country Club, Pittsburgh. The heat coupled with the breaks forced them to withdraw. Several years ago he was the victim of a sunstroke and he was afraid to take chances yesterday.

C. W. Wernke, McKeesport, broke 98 targets at Wellsburg, Va., Thursday to take first prize in the Grandview Gun Club Class A shoot. P. D. Carson, Wellsburg, was high in Class B, with 97, H. M. Wherry, Washington, Pa., took Class C with a 95 and W. H. McFarland of Keyster, W. Va., won Class D with 91 tarkets.

Tom Brand, Kingwood and Bobby Lowe, Fairmont, won their way into the finals of the state amateur golf championship at White Sulphur Springs yesterday. Brand beat Billy King, of Wheeling 5 to 4 and King went into the semi-finals by beating John Livingstone of Huntington 2 and 1.

Bessemer And West Pittsburg Game Postponed

Tonight's West Pittsburg-Bessemer Lawrence County league game has been called off due to the fact that the Bessemer-Hillsville contest has not as yet been considered, it was announced today by the manager of the West Pittsburg team.

Shenango Defeats S. S. Merchants

Shenango defeated the South Side Merchants in a league game, 19 to 11, at Clifton Flats field yesterday. Fi Augostine started for Shenango but was relieved by Tony Copp, in the fifth inning. The South Siders were held to seven hits. The Shenango team got 21 hits off Alexander and Joseph. Alfera made a home run with the bases filled in the eighth inning. This tied up the game. So far Copp has won 21 games. The Shenangos would like a game for Sunday, which can be arranged by calling 4049-R.

Score by innings:

	R.	H.	E.
Shenango	105 100 057	19	21 2
Merchants	300 341 000	11	7 2

Batteries: Shenango, Augostine, Copp and Fava. Merchants, Alexander, Joseph and Palkovitch. Umpires, Roberts and Smith. Scorer, Lemorella.

Forrest Towns Sure Winner

Olympic Candidates See Georgia Boy As Most Certain To Cop Laurels

BY PAT ROBINSON
International News Service Sports Writer

NEW YORK, July 10.—Strange as it may seem, a hurdler is considered our surest bet in the Olympics at Berlin.

The hurdler, of course, is Forrest Towns, of the University of Georgia.

He was so named today by a concensus of more than fifty of the Olympic athletes themselves. You realize how wonderful a tribute this is to Towns' greatness when you consider that any hurdler in the world may tip a hurdle and go sprawling on his face at any time.

But, as Charley Hunter, coach of the San Francisco Olympic club, puts it: "That Towns is as surefooted as a Rocky Mountain goat and just as nimble."

The athletes were unanimous in their choice of the winners of eight events in the tryouts at Randall's Island tomorrow and Sunday but there was a wide divergence of opinion over the second and third places.

They all agreed that Varoff would win the pole vault, Owens the broad jump, Cornelius Johnson the high jump, Towns the 110 meter hurdles, Hardin the 400 meter hurdles, Lash the 5000 meters, Terry the javelin and Eastman the 800.

The great majority thought Owens would take the 100 meters but some favored either Metcalfe or Wykoff.

The boys disagreed most over the 1500 meters, some of them believing that Bonthron has been holding back and others claiming he hasn't got anything left for a kick finish. Some thought Archie San Romani would fool them all.

Pre-View Of Tryouts

Kindly note that the boys have picked Gene Venzke to miss making the team for the second time despite his winter record. However, Gene might fool them.

Here's the majority opinion of our Olympians' own opinion of themselves (no man, of course, voting for himself.) In other words, this is their pre-view of the tryouts:

Pole vault: Varoff, Sefton, Graber or Meadows.

Discus: Duna, Levy, Carpenter.

Javelin: Terry, Mottram, Metcalfe.

100 meters: Owens, Metcalfe, Wykoff.

200 meters: Metcalfe, Robinson, Packard.

400 meters: Lu Valle, Williams, Smallwood.

800 meters: Eastman, Beetham, Woodruff or Hornsbostel.

1500 meters: Cunningham, San Romani, Bonthron, Venzke.

3000 meters: (steeplechase) Manning, McCluskey, Dawson.

5000 meters: Lash, Bright, Zamperini.

110 meter hurdles: Towns, Cope, Allen.

400 meter hurdles: Hardin, Scofield, Benke.

High jump: Johnson, Marty, Albritton.

Broad jump: Owens, King, Clark.

Hammer throw: Dreyer, Folswarshny, Kishon.

Shot put: Zeitz, Torrance, Reynolds.

It was generally agreed that the javelin throwers, for some unknown reason, are the most inconsistent athletes of all.

Golfing Events On Local Links

BAR MEET

Four County Bar Association Golf Meet, at New Castle Field Club, was an exciting event, yesterday. Blind bogey was won by J. H. Marshall, Butler, and W. J. Rockenstein, Butler. 84 being the lucky number.

The scores:

J. H. Marshall, Butler	89	5	84
W. J. Rockenstein, Butler	89	5	84
R. F. Dana, New Castle	92	9	73
W. J. Caldwell, New Cas.	96	15	81
Charles V. Ross, N. Cas.	106	25	81
Frank Moretti, New Cas.	96	15	81
R. E. Smith, Beaver	111	30	81
D. M. Evans, Beaver	110	29	81
C. Matthews, New Cas.	82	10	72
D. B. Hartford, Beaver	107	25	82
Judge W. W. Braham, New Castle	107	25	82
J. E. Marshall, Butler	87	5	82
C. H. Kerrey, Beaver	100	18	82

Low Gross—Victor Campbell, Butler, 82.

High Gross, Judge H. H. Wilson, Beaver 133.

Babe Risko Will Defend Title

(International News Service)

SEATTLE, Wash., July 10.—All northwestern boxing trails led to Seattle today with indications the biggest crowd of any sporting event in Seattle's history would watch Babe Risko defend his middleweight championship tonight.

And the overwhelming majority of the fans believed that Risko would be on the losing end when blonde Freddie Steele of Tacoma, idol of this Puget Sound area, completed his second attempt to capture the crown. The bout is for 15 rounds.

Between 35,000 and 40,000 fans were expected to pour upwards of $75,000 into Promoter Nate Druzman's coffers.

Steele was a 10 to 7 favorite in the betting, with so much backing in sight that it was possible the odds would be higher at ring time, scheduled for 10 o'clock tonight.

Firemen To Play Ellwood City Team

Sixth Ward Firemen will play Ellwood City Merchants, tonight on the Lee avenue field. The game will start at 6 o'clock. Manager Zeigler has chosen Alexander and Thornton to toss them against the Tubers. Saturday, the Firemen will travel to West Middlesex and Sunday they will tackle the Greenville Merchants, at Greenville.

Local Cavalry To Play Old Furnace

Old Furnace polo team will play the 103rd Cavalry polo team of New Castle at 3:30 p. m. fast time Sunday at Zelienople. Seyfert, Pollock and Mitchell make up the local team. Brock, Wilson and Troutman compose the Old Furnace team.

RYANTOWN PLAYS MERCER ON SUNDAY

Sunday afternoon at 3 o'clock on the Ryantown field, Sampson St., Ryantown baseball team will oppose Bethel A. C. of Mercer county.

MANAGERS TO MEET

Managers of the various teams in the City Softball league will have a meeting at the Y. M. C. A. tonight at 7 o'clock for discussion of the second-half of the league season. It is hoped that the second half can start next Monday.

Max Marek Gets His Big Chance

(International News Service)

CHICAGO, July 10.—Max Marek, 22-year-old Chicagoan, who once licked Joe Louis for fun, will be pointing for another shot at the Brown Bomber and plenty of dollars when he climbs into the ring tonight for a 10-round non-title bout with John Henry Lewis, the Phoenix colored boy, who holds the light heavyweight championship.

Promoter Mike Jacobs and Joe Foley reportedly will match Marek with Louis in the latter's first comeback attempt, should Marek whip John Henry. The Marek-Louis fight would be staged in a Chicago ball park next month.

More Women Will Go To Olympics

(International News Service)

NEW YORK, July 10.—The American Olympic women's track and field team, reduced to four members Sunday by the Olympic committee because of lack of funds for transportation to Berlin, had grown to nine today with indications more of the personnel may be taken on before the team sails Wednesday.

Miss Dee Boeckman of St. Louis, the team's coach-manager-chaperon, announced five of the girls managed to raise their funds in their home towns, two more had their money pledged to them and several others were optimistic of raising the necessary funds.

Giants In Need Of Rebuilding

Bill Terry To Go Into Voluntary Retirement As Player In Near Future

CARDS REMAIN AT TOP OF LEAGUE

By LAWTON CARVER
International News Service Sports Writer

NEW YORK, July 10.—Announcement by Bill Terry that he will go into voluntary retirement as a player as soon as he can find another first baseman seems to indicate that the manager of the Giants has made it absolutely unanimous by agreeing that the club needs considerable rebuilding.

As it stands today, it is so bad, in fact, that Terry, comparatively old and more than half crippled with a splinted finger and a leg that won't stay hinged, can't quit now for fear he will be needed.

Singing Sam Leslie, in danger of getting seriously injured by every ball that comes in his direction, is not much of an improvement at first base on even a one-legged Terry. The infield has gone to seed. The pitching has been undependable so long that it has become a habit, and even against the second raters the Giants are just another shoddy club.

With few exceptions, their performances have been listless, just-another-ball-game, and inept all season, the climax coming at the Polo Grounds recently when they were shutout twice by the Cubs in a double-header to the accompaniment of a fine salvo of Bronx cheers.

Rumors persist that Terry will be taken into the Giants' front office, and that Stonewall Jackson, straining at the end of his tether at third base, will become the active manager. They say Terry would like to have it that way.

Whether that is the plan or simply a vague possibility based on what the Giants have not been doing for the last few years probably will be answered by the end of this season. It is obvious that whatever they need they haven't got and another clout on the chin for them yesterday strengthened the conviction.

The St. Louis Cardinals did it by 6 to 3, Roy Parmelee scoring the victory, Medwick and Terry Moore helping out, the former with a homer and the latter with a base-cleaning triple.

That victory enabled the Cards to remain in the National League lead but by the scant margin of a half game. The second place Chicago Cubs made up some ground by whipping the Brooklyn Dodgers twice, 4 to 3 in 13 innings and 5 to 4. A single by Bill Jurges with Demaree on won the opener, in which Van Lingle Mungo fanned 11 Cubs before he retired in the 10th.

The Pittsburgh Pirates beat Philadelphia 16 to 5, and in a night game, another of the league's anniversary celebrations, the Cincinnati Reds lost to the Boston Bees, 6 to 5.

Detroit picked up a game on the Yankees in the American League by beating Washington 10 to 7, while Cleveland was trimming the loopleaders, 11 to 4. The Indians made five home runs, three coming in the third to tie the major league record. Two were hit by Hal Trosky, who boosted his total to 22. Lou Gehrig hit his 21st for the Yanks.

The Boston Red Sox got steady hurling from Wesley Ferrell and beat the Chicago White Sox, 7 to 2, and the Philadelphia Athletics continued their hair-raising battle for the cellar with a 7 to 5 win over the St. Louis Browns.

Robertson Sees No New Records At Olympics

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, July 10.—Lawson Robertson, head Olympic coach, arrived in town today for the final American tryouts, flatly stating that few, if any, world's records would be broken on the track at Berlin next month and probably none at all at Randall's Island tomorrow and Sunday The answer? You won't find it in the prestige of the principals, for admittedly these are to be competitions to end all competition.

In other words, it isn't the athletes who aren't great It's the tracks.

"Even the German athletes themselves have condemned the Olympic track at Berlin," said Robertson. "They say it's heavy and lifeless. If that's true, we'll probably have to look to the field events for our records. So many of them, you see, were made at Los Angeles in 1932 where the track was a speedway.

"As for Randall's Island, it's a good track. But it would have been better if it was laid last fall and allowed to 'set' during the winter. It's hard enough, but they say it cuts easily. That will bother Vroff, world's record holder, and the other pole vaulters, provided their runway doesn't differ greatly from the surface of the circular track.

"There's a chance in the high jump, though. The field is small and most of them use separate runways to the take off. And Johnson or Albritton or somebody is going to do six, ten before the year is over."

Fortunately, he sees most of the American key-men not at all handicapped by the new track tomorrow and Sunday in the tryouts. Most of them, you see, are "striders," not "pounders," who need hard, fast surfaces to get their drive.

Jesse Owens, the three-ring man, is a light strider who will do well enough at Randall's Island. So will Frank Wykoff, who "skims" the ground. But, says Robertson:

"Metcalfe, while a striding runner, seems like a man who will run best in heavy going. If what they tell me about the Berlin track is correct, he may turn out to be our best sprinter at the games.

"The Randall's Island track ought to favor Cunningham's low, smooth stride. But it also has a springy quality and that will help Venzke, too. So far as I can see, the three best half milers, Eastman, Beetham and Woodruff, should run to their real races at the tryouts; for all of them are smooth, light steppers.

"At 400-meters, I can't see how Williams, Lu Valle, O'Brien and Smallwood will be affected, except that Williams won't be runing any 46 1-10, as he did at Chicago. Oh, yes, he did it, all right. I know because I held a watch on him. But the track was faster than practically anything I've seen, outside of Los Angeles."

The writer asked about that promised 14-second hurdle race by Forrest Towns.

"He'll do it," said the man, instantly, "some day when everything is just right.

"At the island tomorrow, I'm only worrying about Towns having something happen to him, such as happened to Percy Beard in the 1932 finals. I don't think it will, for Towns has been told about it.

Beard, you see, didn't take into account a following wind as he cleared the seventh hurdle. He didn't 'come down' quickly enough, with the result that his striding carried him into the last hurdle and George Sailing went on to win."

If I didn't happen to know that Mr. Robertson deeply resented some writer calling him the gloomy Gil Dobie of track and field, I'm afraid I'd have to toss in something bright, for a snapper, about him being the sunshine special. Without a doubt, he's certainly one man who absolutely fears the best.

SPORT ★ ★ ★ ★ SHORTS

Croton Progressives will hold a practice session at 5:45 p. m. at Castle Beach. On Sunday the Progressives will play the Box Factory in a benefit for Vinnie Gallagher.

Mahoning defeated the City Service in a soft ball game on Elder field, 4 to 3, yesterday. Llewelyn struck out four and Snow fanned one. Twenty five hits were made in the game.

Keystone A. C. captured victory number two when they beat the Strollers 11 to 5 at Gaston park, yesterday. After a bad start, "Pop" Adams settled down and allowed only nine hits. Carson and Lane permitted 12.

Young Pirates won from the Maitland Stars yesterday 16 to 5. B. Marlette had four hits. P. Chealdelda and Harrison Frank hit home runs. C. Nero and Penotti formed the battery for the winners. B. Micalette and T. Elisco was the losing battery.

CRAWFORDS WIN

Crawford Midgets defeated Rose avenue, 6-5. Beynon, first sacker for Rose avenue, hit a homer.

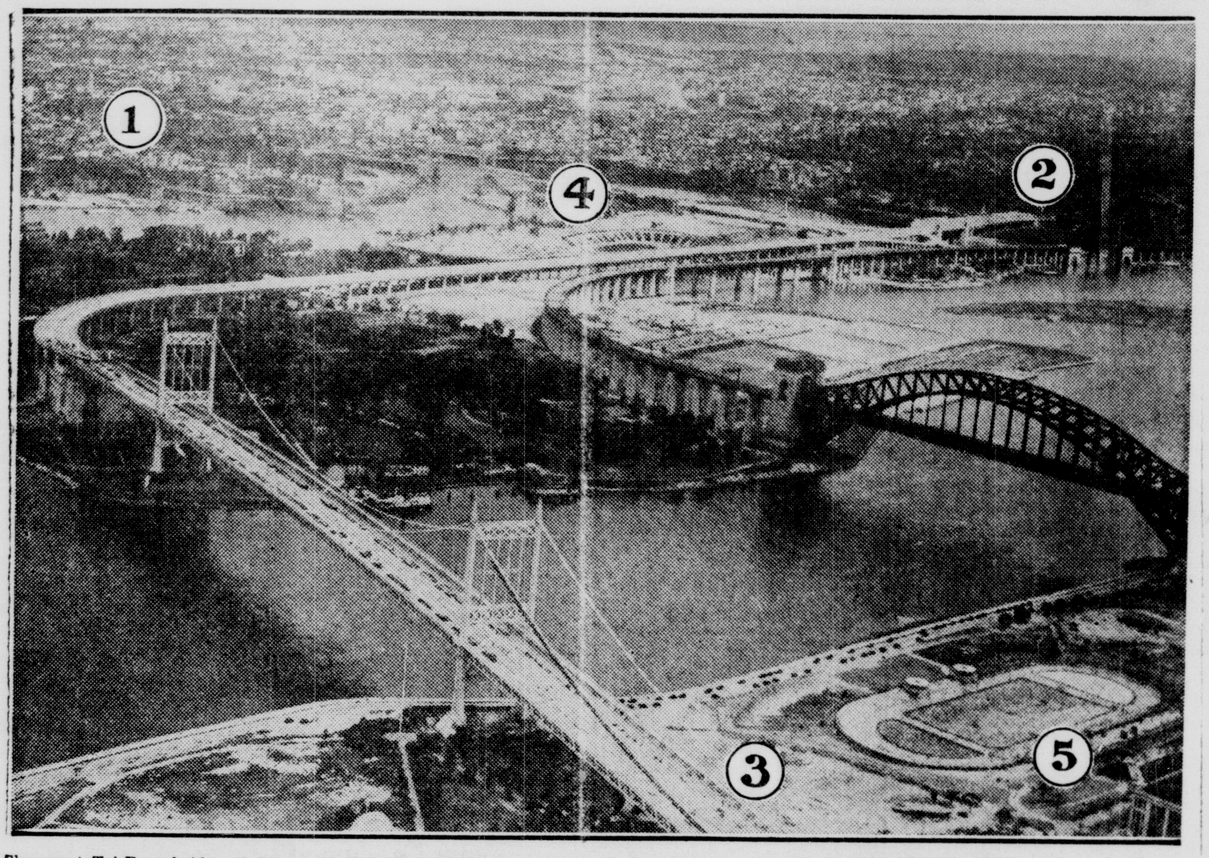
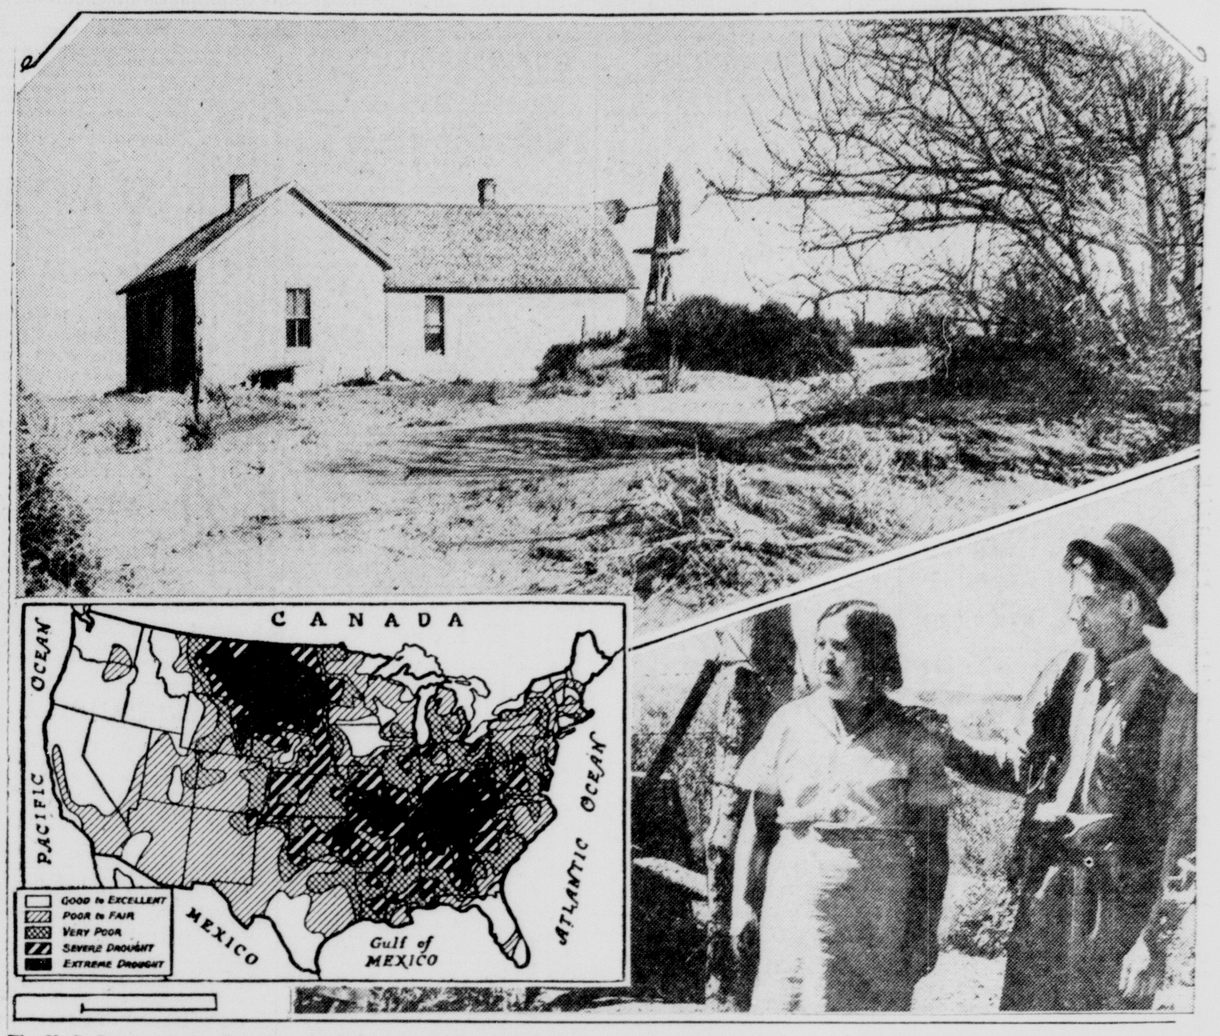
News Of The World As Told In Pictures

How $68,000,000 Bridge Links 3 New York Boroughs



The great Tri-Boro bridge (left), which links the New York boroughs Manhattan, Bronx and Queens, is finally a reality after being rushed to completion in record time. (1) The approach from 125th Street, Manhattan. (2) The entrance from the Bronx. (3) The Astoria, Queens, L. I., approach. (4) The new Municipal stadium, where the Olympic try-outs are to be run off. (5) The $1,500,000 Municipal swimming pool. The prodigious engineering feat was accomplished through use of WPA funds. The railroad bridge over Hell Gate, East River, is shown right. *(Central Press)*

Where Death Takes Toll in Drought Stricken West

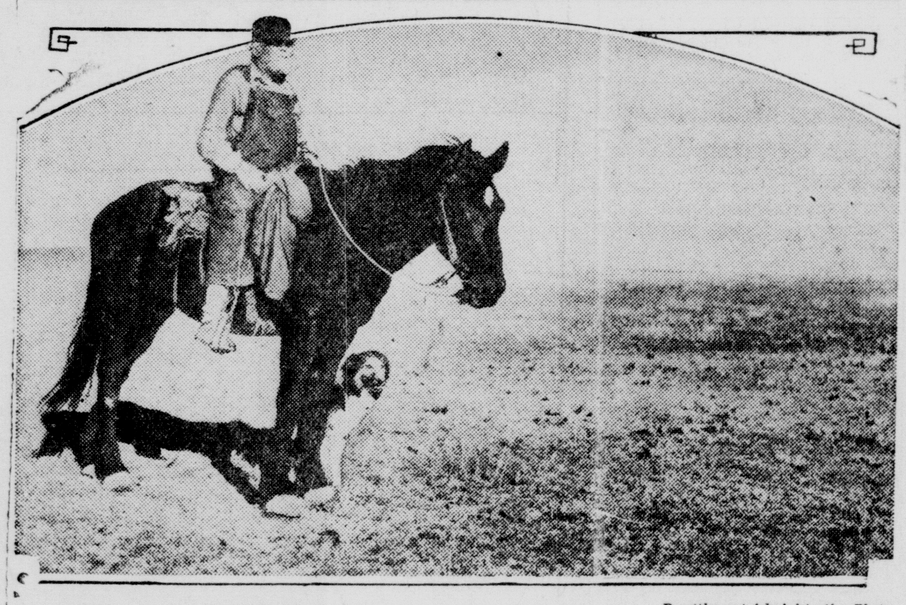


The U. S. Government's official record of the drought is pictured above. The map, released by the Department of Agriculture, shows the condition of pastures, which the Department considers the best single indicator in determining effects of the drought. The photos, released by the Resettlement Administration, show (top) a Sahara of shifting sand where once was a rich pastureland near Liberal, Kan., and (left) a typical farming couple of Ada County, Idaho, gazed despairingly at their farm, "burnt out" by the drought. *(Central Press)*

"Death on the Range"

This scene represents the once fertile fields near Erich, Okla., where cattle carcasses lie stark in the sun-seared pasture land. Rancher's bullets ended the suffering of hundreds of heads of cattle before relief machinery could rush aid to the stricken drought area. *Central Press*

The Shepherd Would Lead His Flock—But Where?



Resettlement Administration Photo

The land on which his flock once depended for sustenance now denuded of all vegetation and top soil by the drought and by erosion, this sheep herder of Pennington County, Idaho, and his dog, gaze sorrowfully at the parched prairies where once grass grew and rain fell. Drought damage is estimated at close to a quarter-billion dollars. *(Central Press)*

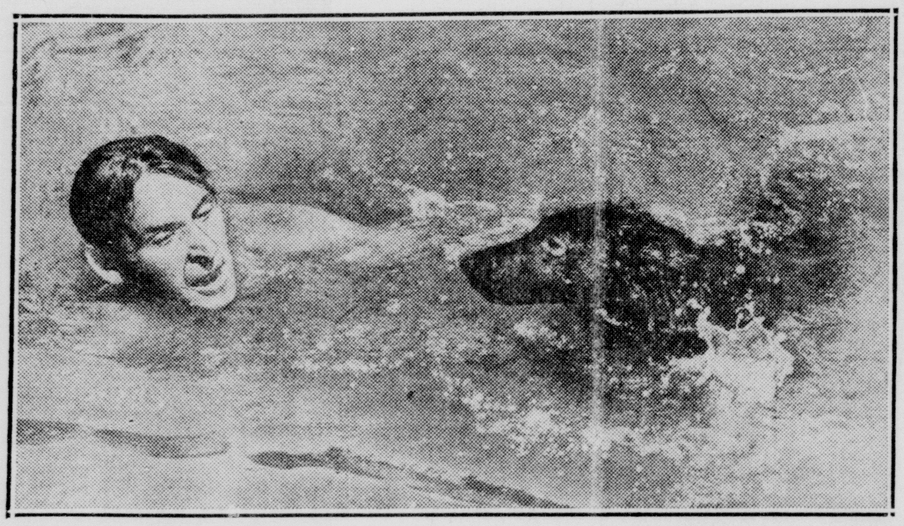
Slain in Ambush

Reports from Rome say that Major Antonio Locatelli (above), the "Lindbergh" of Italy, proceeding to Jimma, Ethiopia, on an assignment, was ambushed and massacred, together with three others, by natives who had previously welcomed the flyers. *(Central Press)*

To Wed Envoy

A recent portrait of Captain Boerge Rohde, member of the bodyguard of King Christian of Denmark, who is to marry Mrs. Ruth Bryan Owen, U. S. Minister to Denmark. Rohde is 42, Mrs. Owen, 51. *(Central Press)*

Owner Stands By His Dog in Life Fight

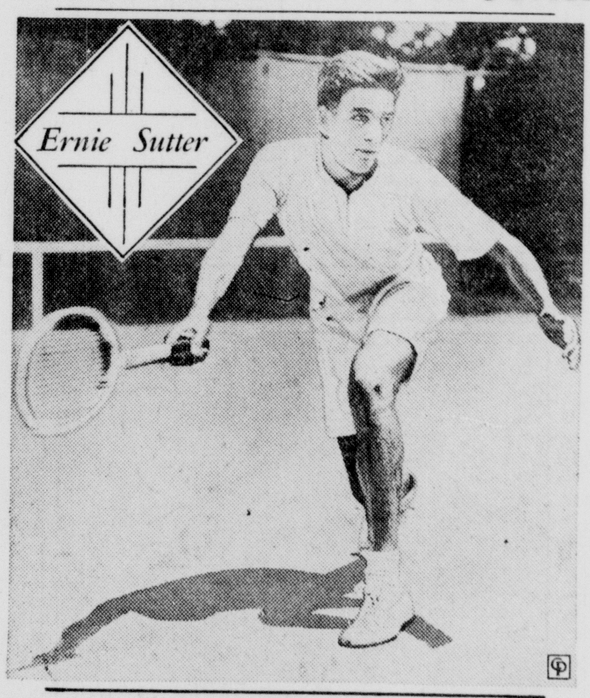


Victor Fortune, former CCC worker, goes for a swim at Brockport, N. Y., with his dog, "Idaho," which may be taken to court as having caused the drowning of 14-year-old Russell Breeze by climbing on the boy's shoulders as he was swimming. Fortune claims dog was with him at another place when the tragedy occurred. *(Central Press)*

King Edward VIII Owes His Physical Fitness to Outdoor Sports

Great Britain's new king, Edward VIII, is a diplomat, a soldier and, above all, a sportsman. Today, at 41 years of age, the king engages in various athletic pursuits which would tax the energy of one unaccustomed to outdoor sports. King Edward, who weighs only 125 pounds, is physically fit. Among the sports he participates in are golf, swimming, horseback riding, polo and flying.

ANOTHER SUTTER IS STAR



Representing Tulane university, Ernie Sutter was a favorite in the national intercollegiate tennis championship at Northwestern university, Chicago. Ernie, whose brother is Cliff Sutter, Davis cupper of other years, is one of the country's youngest players.

A Medal for the "Strong Man"

Emilio Edward Bello, Minister from Chile to Cuba, is shown pinning the decoration el merito to the tunic of Col. Fulgencio Batista, "strong man" of Cuba. The ceremony took place in Havana. *(Central Press)*

Rose Point Wins From Castlewood

Rose Point defeated Castlewood at Castlewood 6 to 5 in a Township league game yesterday. Nelson and Myster was the battery for Rose Point and Farrell and Updegraph for Rose Point.

Hero And Goat

(By International News Service)

The Hero—Bill Jurges whose 13th inning single gave Cubs a 4 to 3 victory over Dodgers.

The Goat—Monte Pearson who was given a four-run lead by the Yankees but finished in the showers as the Indians won, 11 to 4.

TOURNEY CONTINUES

(International News Service)

PITTSBURGH, July 10.—Despite the withering heat which yesterday forced J. Wood Platt of Philadelphia to abandon his attempt to retain his title, the Pennsylvania state amateur golf tournament swung into the third round here today.

Two rounds will be played again today, with the semi-finals scheduled for tomorrow.

Stock Market Records Gains

Steels, Oils And Rails, Lead Trend In New York Market

(International News Service)

NEW YORK, July 10.—Steels, oils, rails and motors led the stock market upward today with gains running to three points.

Standard Oil of New Jersey was up more than a point. Chrysler spurted more than two points to within a fraction of its peak. General Motors gained over a point.

U. S. Steel, Bethlehem and Youngstown Sheet & Tube all moved a point or more above last night's final quotations.

Atchison led in the rails with an advance of nearly two points. Chesapeake & Ohio set a new high once more on a jump of a point.

Allied Stores and Gibels went into new high ground in the merchandising department. Consolidated Edison in the utilities did likewise.

Cotton spurted $1.50 a bale, while corn rose the limit for one day. Bonds were generally improved.

Steel Report Is Made For Month

(International News Service)

NEW YORK, July 10.—Shipments of finished products by U. S. Steel Corp. in June declined 98,032 tons from May to a total of 886,065 tons, Myron C. Taylor, chairman, announced today.

The decline is seasonal and was anticipated in Wall street. The showing for the month, however, was the best in several years with the exception of shipments of 985,337 tons in June, 1934, the biggest month since the early days of the depression. Shipments in June last year were 578,108 tons and 603,937 tons in the 1933 month.

For the first half of the year shipments totaled 5,031,350 tons compared with 3,553,999 tons in the like period a year ago.

Public Address System Planned For High School

Board Also Discusses Building Of New Gym For High School Use At Meeting

ABATE PENALTIES FOR OLD TAXES

ELLWOOD CITY, July 10.—Ellwood City high school will be setting an example of modern efficiency before the beginning of the next school term if the present plans materialize, according to an action taken by the board of education at their monthly meeting in the Lincoln high school last night.

The board moved to advertise for bids for furnishing and installing a public address system in the Lincoln Building. The plan for its use as described by Superintendent of Schools Vaughn R. DeLong is a real illustration of modern efficiency. The plan is to have a loud speaker in every room, with the michrophone and controls in the principal's office. If there are any announcements concerning the student body as a whole they can be made immediately and effectively by the principal via the public address system. A certain teacher or pupil could also be easily summoned to the office in this manner, thus doing away with a written notice from the principal's office which must be carried by someone. The junior and senior divisions of the school could also enjoy each other's chapel programs in the auditorium.

The directors at this time discussed the new gym project for which plans had been made at the same time of the construction of the new wing to the high school. This would be a girl's gym and a WPA project for which the federal government would give a 45 per cent grant. The building committee was instructed to look into the matter and report back at the next meeting.

Abate Penalties

Some good news for delinquent taxpayers came at last night's meeting. By a new act of the state all taxes below the year of 1935 can be paid at face. The interests and penalties have been abated. The delinquent taxes can also be stretched over a period of five years with 20 per cent payments.

While in the act of benefitting the public the board also reduced their tuition cost for the next school term. This has been made possible by the increased state appropriation. The tuition for the junior and senior high school has been cut from six dollars to $5.50, and in the elementary grades from four dollars to $3.50.

Three members of the Wayne township school board were present at this time and explained their financial position. They promised part payment of their $10,000 tuition debt to the local school district in the near future, and more was to come later. At the last meeting the local school board had passed a decree of not permitting any tuition pupils in until some satisfactory arrangement had been made in regards to the payment of tuition.

The finance committee reported that the school district has ended its fiscal year with a balance of $6,000. Action on the school calendar as submitted by the superintendent was deferred until the next meeting.

To fill the vacancy created by the resignation of Miss Stella Marshall in the school system, Miss Emma Perry of this city was elected to the teaching staff. Another controversy arose over this. Miss Perry had been recommended by Supt. DeLong and the education committee. An amendment was made to the recommendation and the name of Miss Mary O'Tousa was included. Miss Marshall was elected by a 4-3 vote. C. W. Jackson of the People's National bank of Ellwood City was re-elected as treasurer at this time.

The board voted to push the roof project so as to get it completed before the opening of the school term. A representative will be sent to the WPA headquarters in New Castle to endeavor to finish the projects started in the Northside and Lincoln field. A request for the use of the bleachers during the community picnic in Ewing park on August 8 by the local merchants was referred to the grounds committee. Repairs to the heating system were authorized by the board. It was reported that the Ewing park school has been painted and that work will soon start in the Circle.

Several exoneration lists were accepted at this time. One by E. B. Moyer for the amount of $951.25, Mervin Cunningham's for $1,731.54, and T. A. E. McConahy's for 1934, $8,217.39 and 1935, $8,847.82. Total $19,748.

Kensington Club Enjoys Breakfast

ELLWOOD CITY, July 10.—Priscilla kensington club enjoyed a fine breakfast at Ewing Park Wednesday morning with Mrs. Clark Parshall, Mrs. Harold Snyder and Mrs. V. V. Patton as hostesses.

A delightful social time followed The club will meet again July 23 at the home of Mrs. Patton on Division avenue.

Rotarians Hear Of Convention

Interesting Report Given By John Runyan Of Rotary International At Atlantic City

ELLWOOD CITY, July 10.—H. W. Smith, vice president, presided at the regular weekly meeting of the Rotary club held last night in the First Presbyterian church.

The program was in charge of Dr. Harry Anderson, recently returned from a fishing trip, who recounted his experiences. John Runyan, local delegate to the Rotary International, reported on the highlights of the meeting . In the ice festival skaters from several nations participated. A Rotary wheel was painted on the center of the ice and another layer of ice frozen over it, forming a colorful center for the festival. Delegates were present from all countries.

Past Matrons Club Has Fine Meeting

ELLWOOD CITY, July 10.—Members of the Past Matrons club of the O. E. S. motored to Butler yesterday, where they were the guests of Mrs. James Butler. Mrs. Audley Cunningham, Mrs. D. J. Jones and Mrs. J. G. Ferguson assisted the hostess. Special guests were Miss Margaret McCandrew of Tuscon, Ariz., and Mrs. George Reuf of McKeesport, a former member of the club.

At 6:30 o'clock dinner was served on the lawn. The time following was spent in inspecting the garden, visiting and chatting. On the second Thursday in August, August 13, the club will have a breakfast in Ewing park.

Slippery Rock Society News

ELLWOOD CITY, July 10.—Seventeen were present at the regular monthly meeting of the Missionary society of the Slippery Rock Presbyterian church held Thursday at the church.

Vice President Mrs. Charles Wilson presided. Mrs. Harland Gillespie was in charge of the devotions. Talks were given by Mrs. Clara Friday and Mrs. Ora Travis. During the business meeting plans were made for the annual praise service to be held in September.

The society will meet again August 13.

Society Meets At James Marshall's

ELLWOOD CITY, July 10.—Mrs. James Marshall was hostess to the Women's Missionary Society of the Bell Memorial church yesterday at her home on Line avenue.

After a delicious dinner at noon at one long table a business meeting was held. Plans were formulated for a picnic dinner, to be held at Ewing Park on August 13 for the members and their families.

Following this Mrs. J. A. King told of her trip to California, where she spent several weeks with her family.

MARSHALL REUNION

ELLWOOD CITY, July 10.—The annual reunion of the descendants of Joseph and Delilah Marshall will be held on Saturday afternoon, July 18, at the residence of Mr. and Mrs. John Marshall, near Pleasant Hill Grange hall. All relatives and friends will be welcomed and dinner will be served at 6 o'clock, Daylight Savings Time.

LADIES' AID SOCIETY

ELLWOOD CITY, July 10.—Ladies' Aid society of the Immanuel Reformed church enjoyed a fine tureen dinner at noon yesterday, with covers laid for 11. A short business meeting and sewing period followed in order. The society will hold its monthly meeting on August 13.

Bell Memorial Sunday School Picnic Saturday

ELLWOOD CITY, July 10.—The annual Sunday school picnic of the Bell Memorial church will be held Saturday afternoon and evening in Ewing park.

A fine program of games, sports and contests for all has been prepared. Transportation will be furnished from the church at 2, 3 and 4 o'clock, also from Bridge street.

Past Chiefs Club Meets Last Night

ELLWOOD CITY, July 10.—Past Chiefs' club of the Pythian Sisters met last night at the home of Mrs. Ida Wehman on Spring avenue, with 13 present. A business meeting was held, with Mrs. Maude Gillespie in charge.

The evening was spent in a general social manner and playing bingo. Later Mrs. Catherine McKim was surprised with a towel shower in honor of her birthday anniversary. Lunch was served later by the hostess.

The next meeting of the club will take place on August 13, with Mrs. Delta Williams and Mrs. Elizabeth Welsh as hostesses.

Mission Society Meets On Thursday

ELLWOOD CITY, July 10.—Women's Missionary Society of the Trinity Lutheran church held its monthly meeting in the form of a picnic dinner at Ewing Park yesterday at 12:30 p. m. Fifty-nine were present. Mrs. R. L. McKim was admitted as a member at this time.

The devotions for this occasion were in charge of Mrs. W. P. Gregg. An interesting social time, with visiting and chat, followed. The society will meet again on August 13 at Ewing Park.

Mrs. James Mackey Hostess To Club

ELLWOOD CITY, July 10.—Members of the Florida club met last night at the home of Mrs. James Mackey on Fourth street. There were 10 members and four guests present.

After a short business meeting a delightful social time was held. The members of this club plan to attend the WPA convention in Florida next March. The club plans to meet again in two weeks, at the home of Mrs. John Bloom on Sixth street.

BIRTHDAY PARTY

ELLWOOD CITY, July 10.—In honor of the occasion of the birthday anniversary of Mrs. Clarence Young, a large number of relatives and friends assembled at their home in North Sewickley township to aid in celebrating the event.

After best wishes had been extended the group numbering sixty devoted the hours to games and music. At a suitable hour a most tasty luncheon was served by a group of the ladies.

The honoree was presented with an assortment of very nice and useful gifts as remembrances of the happy interlude.

TENT MEETINGS

ELLWOOD CITY, July 10.—Revival meetings are being held at a large tent which has been erected at North Sewickley near the Glad Tidings Tabernacle. The meetings open each evening with a song and praise service and there is also a service each Sunday afternoon at 2 o'clock. The meetings are being conducted by Rev. Frederick Rader, of near New Brighton, and Rev. Hirschy, of Evans City.

PREPARATORY SERVICE

ELLWOOD CITY, July 10.—This evening a preparatory service will be held at the Wurtemburg U. P. church. Dr. W. H. McPeak of Warrendale, Pa., will be the speaker.

HOSPITAL NOTES

ELLWOOD CITY, July 10.—Admitted Thursday: Mrs. Pete Joseph of Thirteenth street.

Discharged: Manuel Clarence Morrow of this city.

Council Elects Policeman Here

Fill Vacancy In Police Department At Monthly Meeting Thursday Night

COMPLETE BAN IS PLACED ON FIREWORKS

ELLWOOD CITY July 10.—Fred W. Kirkpatrick formerly of the New Brighton police force and deputy sheriff in Beaver county was elected permanently to the Ellwood City Police department by the borough council at its monthly meeting in the city building Thursday night.

Considerable discussion arose over the election of the new policeman. The police committee headed by A. D. Henderson recommended that two policemen be elected one to replace temporary officer Elmer Frishkorn and the other to bring the police department to full strength. Heretofore the department had been one man short. The discussion arose over the advisability of the election of an extra man over the present number since the budget has already been set. It could be very handily used since the budget has already been set. It was pointed out by the police committee and Burgess Russell Sitler the extra man could be very handily used since the police at the present have additional work in taking care of the traffic since the new parking regulations have gone into effect. The opinion of every councilman was asked. It was finally decided that only one policeman would be employed. The police committee had recommended that Frank Straw and Fred W. Kirkpatrick be elected. Councilman Frank Biordi nominated Louis Rocco and Councilman P. N. Harlan nominated James Britt. Council took several votes with the low man being dropped every two times. Finally Kirkpatrick was elected by a 6-4 vote over Rocco.

Fireworks Banned

A complete and thorough ban was placed on fireworks in Ellwood City in a new ordinance presented in council last night. It was endorsed by President A. J. Howell. There had been an ordinance against the sale and use of fireworks in the borough limits before, but a loophole was found and Ellwood suffered a noisy fourth. Numerous complaints had come into council. The new ordinance is complete and thorough against the manufacture, sale, or discharging of any fireworks in the borough limits. Although the ordinance grants permission to fireworks companies or organizations to put on a display in the city on some special occasion under expert supervision. A license must first be obtained from the city building for this. For violation of this ordinance a fine of $100 and costs has been imposed or five days in the local jail or 30 days in the county jail. The rules of council were suspended and the ordinance passed on first and final reading.

Providence Group Has All-Day Meet

ELLWOOD CITY, July 10.—Members of the Women's Missionary society of the Providence Baptist church of North Sewickley, were entertained in a hospitable manner on Thursday when they gathered at the cottage of Mrs. J. G. Carouthers at the local Country club.

The eighteen members and guests in attendance devoted the day to sewing and quilting. At noon the group partook of a delicious menu served outdoors by Mrs. G. N. Hazen and Mrs. Lester Hazen.

The president, Mrs. Roy McDanel, conducted the business and devotional periods with plans being made to hold the next regular meeting on Thursday, August 13, at the McDanel home on the Ellwood-Zelienople road.

N. S. GRANGE

ELLWOOD CITY, July 10.—This evening members of the North Sewickley Township Grange will gather at their hall on the Ellwood-New Brighton road for the first meeting of July. A social period will follow the business session.

"Very good, sir," replied Simkins. "I'll go and put everything right again."

Service Members Select Officers

ELLWOOD CITY, July 10.—The home of Mrs. Mary French at Wurtemburg, was the scene of an enjoyable event on Thursday when members of the Women's Service club of Wurtemburg gathered for their annual picnic and election of officers.

Forty-two members and friends participated in the various activities of the day. The following officers were elected to serve during the club year: President, Mrs. William Grant; vice president, Mrs. Homer Ford; secretary, Mrs. Clifford Vinroe, and treasurer, Mrs. John Duncan.

At 6 o'clock the group partook of a varied picnic menu which was supervised by Mrs. Victor Koach, Mrs. Herbert Wiley and Mrs. James Cogley.

An interesting sports program was carried out with awards going to Beverly Workley, Gladys Kiesling, Elizabeth Ford, Mrs. Lee Gallaher, Mrs. Charles Ketler and Mrs. Mary French.

On Thursday, August 13, the group will hold their next meeting in the form of a picnic supper at Ewing Park at 7 o'clock.

ELLWOOD PERSONALS

Misses Isabell Hardie and Betty Corbin, motored to Franklin and vicinity recently.

Industries Use Salt To Avoid Prostrations

Restores Saline Substances Which Are Lost To The Body In Excessive Prespiration

VALUE PROVEN IN AUTO PLANTS

By JACK VINCENT
Central Press Correspondent

DETROIT, July 10—Salt, ordinary table salt, today is being incorporated into pills by modern science in its battle against wholesale heat prostrations in some of the world's biggest factories here.

With the hot summer weeks during July and August setting in, plants are depending on veritable mountains of small salt pills to be taken with drinking water as their heat antidote.

Science does not claim credit for the latest use of salt. The custom is as old as the steel and diamond mines in the British empire, and many American farmers are said to have used the salt "cure" for generations. But science applied the principles to modern-day industrial life and came up with "an old but new remedy for heat prostration."

Pill Machines

In one big automobile plant here, slim glass containers loaded with the salt pills have been installed at every drinking fountain. The pill machines work like any gum slot device with workmen merely pressing a push button at the bottom of the tube to release a pill.

This company alone expects to use some 2,000,000 of the pills this summer, perhaps many more. The 2,000,000 would be equivalent to a stack nearly four miles high if they could be placed on top of each other. The pills are about the size of an ordinary headache tablet.

The firm employs approximately 70,000 men, and in the summer of 1934 it reported as many as 400 heat prostrations a day, resulting in the loss of thousands of dollars in wages and delays in production and entailing additional expenditures for medical care.

Last summer the company began using the salt pills. In departments where the tablets were available—as in the steel treatment and foundries—only four heat prostrations were reported when the temperature reached 104 degrees, and on the average hot day the heat prostration toll was zero. Approximately 300,000 of the salt pills were used then.

Practice Grows

This summer marks the greatest use of the tablets, and their use is spreading to other plants. The real hot weather here does not set in until the middle of July, and in August.

Workers can take the pills every time they get a drink of water, with benefit, and it is recommended that they swallow at least four of the tablets a day.

Nothing New

Although Dr. McClure was believed to be the first man of medicine to prove the salt antidote theory from scientific fact, he says it is by no means, a new thing.

"In certain steel mills in England and in certain diamond mines in South Africa," he continues in a paper discussing the salt treatment, "it has long been the custom for workmen to eat a piece of salt pork with each glass of water they drink even though no one seemed to have a scientific explanation for it.

"In the early days of steam navigation, an ailment known to seafarers as 'stoker cramps' was common. They gained relief by drinking a little sea water along with their regular water ration, but they apparently never questioned why they gained relief."

KANSAS SCHOOL DISTRICT

FRIENDLY HOME CLUB

Mr. and Mrs. James Cooper pleasantly entertained the members of the "Friendly Home Club" on Friday evening. Cards was the chief diversion of the evening, and at a late hour, lunch was served. Mr. and Mrs. William Armstrong will entertain the club in July.

BESTYETTE CLUB

Mrs. Clarence Drake entertained the members of the "Bestyette Club" at her home on Thursday. The day was spent in a social way and at noon a delicious dinner was served. The club will have a picnic at Memorial Park, Grove City, August 6.

BIRTHDAY PARTY

"Grandma" Brenneman was pleasantly surprised on Tuesday, when a number of her children gathered at her home to help celebrate her 85th birthday. She received many cards as a remembrance from her many friends.

Her main hobby is flowers, she sends many bouquets to church, sick and shut-ins. Those present during the day were: Mr. and Mrs. David Brenneman, Mrs. Ida Grimm, Mrs. Elizabeth Drake, Mrs. M. S. Brenneman, Mrs. Nannie Long and Rev. Lloyd.

KANSAS SCHOOL DISTRICT NOTES

Mr. and Mrs. David Brenneman were New Castle shoppers on Tuesday morning.

Mr. and Mrs. Carl Palmer entertained the Lowry family at a picnic dinner on the Fourth.

Mr. and Mrs. Frank Bruner and family, of Grove City, spent Sunday at the home of Mr. and Mrs. Clyde Lowry.

Mr. and Mrs. Howard Armstrong and family, attended the Eppinger reunion on the Fourth.

Mr. and Mrs .D. D. Rice and son Arden, and Mr. and Mrs. W. S. Drake and family, attended the Western Pennsylvania conference held at Slippery Rock on Sunday.

Mr .and Mrs. James Matthews, of New Castle, spent Sunday at the home of the latter's parents, Mr. and Mrs. Clyde Grundy.

Recent callers at the home of Mr. and Mrs. Clarence Drake, were Mr. and Mrs. Walter Boyd, Mr. and Mrs. Frank Osborne, and Howard; and Mr. Howard Stitt and children, James and Mary, of Slippery Rock.

Install Course For Waitresses

Under authority of Act 426 of the 1935 session of the legislature and under the auspices of the State Department of Public Instruction a vocational course in Waitress Training is being conducted in the senior high school building daily from 12:30 to 2:30. The course is being taught by Miss Annetta Burry of the Vocational Home Economics faculty. Persons interested should report at the senior high school building.

This course and all others operated under Act 426 are distinctly vocational and it is the hope that those enrolled will be able to secure positions as a result of the special instruction received. All of the instructors are specialists in the work they are teaching.

'WINE-DRINKERS' RAILROAD SOLD

KOBLENTZ—The famous and only "wine-drinkers railroad" in the world operating up and down the Moselle valley has been sold, much to the chagrin of all lovers of good Moselle.

Instead of time schedules, this curious railroad with a rolling stock of ten coaches and a few locomotives only, has been giving wine cards to its passengers. From observation platforms of the trains merry drinkers waved glasses and sang old German songs of the Rhine, the Moselle and their wines, as the tiny locomotives labored up the tracks following closely the numerous windings of the Moselle river.

The famous "Saufbaehnie" (little drinking railroad) will now finish its career far up north in East Prussia as an excursion train between Koenigsberg and the amber mines on the Samland shore.

Cool and practical for warm days! All silk with elastic tops and reenforced at points of wear. Tango, Barcelona, Valencia and Caress.

PHILLIPS' CREAMS

49c
All the beauty giving action of Milk of Magnesia
Like no other creams you've ever used before! Help to correct flaws and refine skin texture because the milk of magnesia acts on the external fatty acid accumulations on the skin just as it helps an internal acid condition. Delightful to use.
